

What is **PATRIARCHY**?

The **patriarchy** is a social system in which men hold predominant power and dominance over women.

It is based on norms, roles, and beliefs that perpetuate gender inequality, granting privileges and preferred opportunities to men.

In the **patriarchy**, men are expected to be leaders, make important decisions, and exert control over various aspects of society, while women are assigned subordinate roles and have limited access to resources and power.

Women, the State, and Welfare Linda Gordon, 2012-11 A collection of essays about women and welfare in America this book discusses how welfare programmes affect women and how gender relations have influenced the structure of such programmes Issues such as race and class are also discussed

The Patriarchal Welfare State Carole Pateman, 1987

Why Women are Oppressed Anna G. Jónasdóttir, 1994 A feminist of international standing strives toward a theory about the web of relations between the sexes

Contemporary Women's Movements in Hungary Katalin Fábián, 2009-10-14 As the first and only book in any language on contemporary women's movements in Hungary this groundbreaking study focuses on the role of women's activism in a society where women are not yet adequately represented by established parties and political institutions Drawing on eyewitness accounts of meetings and protests as well as first person interviews with leading female activists Katalin Fábián examines the interactions between women's groups in Hungary and studies the unique brand of democracy they have forged in postcommunist Eastern Europe Through her analysis she demonstrates how democratization and globalization with their attendant range of challenges and opportunities have led women to redefine public private divides

Rights Lydia Morris, 2006-04-18 This pioneering book demonstrates how different traditions of sociological thought can contribute to an understanding of the theory and practice of rights It provides a sociological treatment of a wide range of substantive issues but never loses sight of the key theoretical questions It considers some varied cases of public intervention including welfare caring mental health provisions pensions justice and free speech alongside the rights issues they raise examines the question of rights from the point of view of distinctive population groups such as prisoners and victims women ethnic minorities indigenous peoples and lesbians and gays A key strength is its detailed presentation and analysis of different aspects of rights and its exploration of a variety of analytical perspectives Rights are viewed not in terms of ethical certainty but as the product of social processes and part of shifting terrain which is open to negotiation Including a theoretical critique of existing perspectives Rights offers a diverse and detailed exploration of the contribution sociological thought can make to this increasingly important aspect of social life and is an invaluable aid to students studying in this area

Daughters Who Care Jane Lewis, Barbara Meredith, 2024-05-10 In the 1980s as the proportion of elderly people in the population grew steadily larger the task of looking after them would fall increasingly on one group daughters The government in promoting its move in social policy towards community care had

stated that the family which in practice meant women must expect to provide the bulk of care in the future But how do women feel about this What impact does caring for others have on their own lives How might professional helpers better support them Originally published in 1988 from in depth interviews with daughters who have looked after their mothers for varying numbers of years Jane Lewis and Barbara Meredith look at why it is that women come to care and consider the legacy of their caring experiences Because caring is usually a labour of love the feelings that surround it are complicated and fraught with ambivalence In analysing these Daughters Who Care explores the meaning of caring from the carer s point of view as well as examining the implications for professionals seeking to support the supporters Carers themselves and those working with them professionally or as volunteers as well as students of community care social policies for the elderly and social psychology will all find this a stimulating approach to what is still an increasingly urgent issue *The Politics of Women's Interests* Louise Chappell, Lisa Hill, 2006-09-27 This new study reveals how institutional practices and discourses shape the way men and women are conceived of and how through this process gender stereotypes and expectations are created Informed by the latest research and trends these expert authors examine the way in which domestic and global institutions shape and reflect gender interests and the extent to which feminists can challenge gender norms through political institutions They examine regional national and international institutions including the EU ICC and UN and take a broad view of political institutions to include bureaucracy federalism legal structures parliaments voting and electoral institutions and media coverage of women s involvement in such institutions Drawing on experiences in the US UK Australia Canada and New Zealand this book will be of great interest to students and scholars of gender studies political science and comparative politics **Feminist Perspectives on Family Care** Nancy R. Hooyman, Judith Gonyea, 1995-08-29 Today women find themselves playing an ever increasing role in caring for older family members who are frail developmentally disabled or suffering from serious mental illness While this role of women as caregivers has been documented the actual impact on the lives of women has remained largely unstudied In this volume the authors examine caregiving as a central feminist issue looking at its impact on women socially personally and economically The authors review how changing family structures the changing economy and workforce and the changing health care demands of needy adults have impacted on women s lives They critique existing public and private policies demonstrating a need for fundamental structural changes in social institutions and attitudes to improve the lives of women Finally they propose a social model of care that is oriented toward gender justice recognition of the work of caring and its impact upon women socially personally and economically For students scholars and practitioners in the field of gerontology gender studies and social work this book is a must

Feminist Foundations Kristen A. Myers, Cynthia D. Anderson, Barbara J. Risman, 1998-03-10 There can be no doubt that feminism and its influence on the academy has wrought enormous changes on the social sciences in general and sociology in particular This edited volume is an outgrowth of a discussion that began on the Sociologists for Women in Society Listserv

in which participants were asked to talk about key pieces in feminist scholarship that had particularly influenced their sociological thinking Editors Kristen A Myers Cynthia D Anderson and Barbara J Risman have chosen articles that fall into what they consider the intellectual genres that compose feminist sociology This collection differs from others because the editors avoid organizing material by substantive specialty areas i e family race and ethnicity criminology or methods Their vision instead sees sociology as an integrated discipline where feminist contributions have systematically influenced the shape of the whole by similarly influencing the distinct parts In addition to simply compiling a comprehensive list of important articles from the last two decades the editors have invited major feminist scholars to comment and reflect on the articles in each section of the book These reflections help provide the historical and social context in which feminist scholarship has taken place This book will be of obvious appeal to feminist scholars and gender sociologists Yet as feminist thought rightfully takes its place away from the margins and toward the center of the discipline this book stands as a rich and useful resource for any contemporary theory course

Mothers of a New World Seth Koven, Sonya Michel, 2013-10-31 Historians of Australia Germany Great Britain Sweden and the United States provide a sweeping view of the scope of women's work and make comparisons across societies and over time

Fortunes of Feminism Nancy Fraser, 2013-10-01 Nancy Fraser's major new book traces the feminist movement's evolution since the 1970s and anticipates a new radical and egalitarian phase of feminist thought and action During the ferment of the New Left Second Wave feminism emerged as a struggle for women's liberation and took its place alongside other radical movements that were questioning core features of capitalist society But feminism's subsequent immersion in identity politics coincided with a decline in its utopian energies and the rise of neoliberalism Now foreseeing a revival in the movement Fraser argues for a reinvigorated feminist radicalism able to address the global economic crisis Feminism can be a force working in concert with other egalitarian movements in the struggle to bring the economy under democratic control while building on the visionary potential of the earlier waves of women's liberation This powerful new account is set to become a landmark of feminist thought

Gender, Sexuality and Violence in Organizations Jeff Hearn, Wendy Parkin, 2001-07-05 This exceptionally interesting study provides an up to date and integrated perspective on organizations violence gender and sexuality It pays particular attention to the power wielded by hierarchies of heterosexual men and the ways in which this produces violence in different carefully analyzed forms This book is a major contribution to the construction of sociological and political knowledge that is not founded on the dominant definitions of heterosexual masculinities Professor Terrell Carver University of Bristol This is a wide ranging and authoritative book The authors draw attention to the huge amount of evidence now available that documents the gendering and sexualising processes at the core of organisational life While they never nag about violation and inequality they are nonetheless relentless in confronting the reader with the weight of evidence Professor Rosemary Pringle University of Southampton This book brings together the themes of gender sexuality violence and organizations The authors synthesize

the literature and research which has been done in these fields and provide a coherent framework for understanding the interrelationship between these concepts The importance of violence and abuse and particularly men s violence to women children and other men has been well established especially through feminist and some pro feminist research The insights of this scholarship have rarely been applied to organizational analysis The authors draw on this literature and their own research as well as relevant literatures on safety and risk at work anxiety and stress at work organizational policies on violence sexual harassment and bullying in organizations and male sexuality to provide valuable information on violence in and around organizations Gender Sexuality and Violence in Organizations breaks new ground in organization studies and will be essential reading for academics and students in both organization studies and all those studying issues of gender and sexuality in organizations

Feminists Read Habermas (RLE Feminist Theory) Johanna Meehan, 2013-05-20 This important new collection considers Jurgen Habermas s discourse theory from a variety of feminist vantage points Habermas s theory represents one of the most persuasive current formulations of moral and political notions of subjectivity and normativity Feminist scholars have been drawn to his work because it reflects a tradition of emancipatory political thinking rooted in the Enlightenment and engages with the normative aims of emancipatory social movements The essays in *Feminists Read Habermas* analyze various aspects of Habermas s theory ranging from his moral theory to political issues of identity and participation While the contributors hold widely different political and philosophical views they share a conviction of the potential significance of Habermas s work for feminist reflections on power norms and subjectivity

Theorising Modernity Martin O'Brien, Sue Penna, Colin Hay, 2014-07-10 What is modernity Do we all experience modernity in the same way How should we understand contemporary social change This volume explores questions of modernity through critical engagements with the work of Anthony Giddens focusing in particular on the relationships between his social theory and political sociology Three substantive areas reflexivity environment and identity are examined theoretically through the relationships between reflexivity and rationality life politics and institutional power and universalism and difference As well as specifically addressing Giddens reconstruction of sociology the contributors also explore a wide variety of critical issues currently occupying centre stage in social theory These include questions about the character of contemporary societies the periodisation of social change the processes of change by which societies are constantly made and remade by people the relationships between the social and the natural the formation and maintenance of identities and matters of epistemology and methodology in social science *Theorising Modernity* will be of interest to undergraduate and postgraduate students of sociology modern political thought social geography and social policy and to social scientists trying to make sense of the modernity debate Martin O'Brien is Research at the University of Derby Sue Penna is a Lecturer in Applied Social Science at Lancaster University Colin Hay is a Lecturer in the Department of Political Science and International Studies at the University of Birmingham UK a Visiting Fellow of the Department of Political Science at the Massachusetts Institute of

Technology US and Research Affiliate of the Centre for European Studies at Harvard University US *Women in the Face of Change* Annie Phizacklea, Hilary Pilkington, Shirin Rai, 2013-10-08 The years 1989 and 1990 will probably be best remembered for the speed and breadth of political and economic change which swept through what used to be referred to as the Communist Bloc With the disintegration of this bloc there has been no shortage of western advice on how to democratize economy and polity in these societies However little thought has been given to what this change means for the millions of women who have toiled for decades alongside men in the factories and fields as well as performing their womanly mission in the home This collection from women in Eastern and Western Europe and covering both Europe and China poses many questions about the impact of change It contributes to the debate that seeks to combat inertia and ethnocentrism within western feminism and also to the separate and the critical women's voice which is re-emerging in the Soviet Union Eastern Europe and China *Power in Caring Professions* Richard Hugman, 1991-08-16 The issue of power is central in the analysis of the development and contemporary structures of nursing the remedial therapies and social work Both the idea of caring and the concept of professionalism are integral to the problems of power Using material from the UK and the USA this book examines the growth of these professions and asks a critical perspective of their present organisation highlighting race gender and relationships with service users as central to such an analysis *The Contradictions of Love* Lena Gunnarsson, 2014-01-03 The Contradictions of Love Towards a feminist realist ontology of sociosexuality offers a robust and multifaceted theoretical account of how in contemporary western societies women continue to be subordinated to men through sexual love The book defends and elaborates Anna G J Nasdittir's thesis that men tend to exploit women of their love power by means of an innovative application of critical realism dialectical critical realism and the philosophy of metaReality Gunnarsson also offers a critique of the state of affairs of contemporary feminist theory The author demonstrates that the meta-theoretical framework of critical realism offers the tools that can counter the poststructuralist hegemony still prevailing in feminist theory On a general level The Contradictions of Love attempts at reconciling theoretical positions which tend to appear in opposition to one another In particular it offers a way of bridging the gap between the notion of love as a locus of exploitation and that of love as a force which can conquer oppression This book is a unique and timely contribution in the field of feminist theory in that it offers the first elaborate assessment and development of J nasdittir's important but relatively sidestepped work and in that it counters poststructuralist trends from the point of view of a robust critical realist framework that has hitherto been spectacularly absent in feminist theory although it offers solutions to meta-theoretical problems at the forefront of feminist debates in the field of critical realism broadly defined in that it elaborates on crucial ontological themes of dialectical critical realism and the philosophy of metaReality via a discussion of the issues of love sexuality gender and power and finally in the field of love studies in that it offers a sophisticated account of how gender asymmetries prevail in love despite norms of gender equality and reciprocity and in that it reconciles feminist conflict oriented perspectives on love

with notions of love as transcending conflict **Social Policy and Practice in Canada** Alvin Finkel, 2006-04-17 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism s attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty
