Brown,Danielle Casarez Lemi,2021-01-19 They don t think I m viable because I m a Black woman with natural hair and no husband This comment was made by Stacey Abrams shortly before the 2018 Democratic primary after she became the first Black woman to win a majory party s nomination for governor Abrams sentiment reflects the wider environment for Black women in politics in which racist and sexist cultural ideas have long led Black women to be demeaned and fetishized for their physical appearance In *Sister Style* Nadia E Brown and Danielle Casarez Lemi argue that Black women s political experience and the way that voters evaluate them is shaped overtly by their skin tone and hair texture with hair being a particular point of scrutiny They ask what the politics of appearance for Black women mean for Black women politicians and Black voters and how expectations about self presentation differ for Black women versus Black men White men and White women Black women running for office face pressure often from campaign consultants and even close colleagues to change their style in order to look more like White women However as this book shows Black women candidates and elected officials react differently to these pressures depending on factors like age and incumbency Moreover Brown and Lemi delve into the ways in which Black voters react to Black female candidates based on appearance They base their argument in part on focus groups with Black women candidates and elected officials and show that there are generational differences that determine what sorts of styles Black women choose to adopt and to what extent they change their physical appearance based on external expectations **The Knitwear Revolution** Suzy Menkes,1983 **Responsible Pedagogy** Eric Detweiler,2022-10-25 In recent decades public higher education has faced perpetual crises As states slash investment in

postsecondary education and for profit entities seek to supplant public colleges and universities these public institutions have tried to compete by maximizing efficiency namely by downplaying and outsourcing the labor of teachers Responsible Pedagogy makes a fresh case for the importance and value of public higher education and the work of teaching In making this case Eric Detweiler surveys the history of rhetoric and writing in postsecondary education looking in particular at the teacher student relationship He finds that from the Socratic method to medieval exercises from MOOCs to remote asynchronous learning the balance of authority and agency in the classroom is often precarious But the problem goes deeper Underlying both authority and agency is the value of mastery which the teacher is to impart to the student It is this emphasis on mastery Detweiler argues that distorts the proper relation between the student and teacher a relationship in which they are responsible for and vulnerable to each other Drawing on contemporary ethics rhetorical theory and critiques of practices in the online classroom Detweiler develops a pedagogy of responsibility and shows how it can be applied in writing and communication curricula assignments and teacher student interactions Rehabilitating the proper role of the teacher Responsible Pedagogy calls into question our newfound trust in educational technology and points the way to a better more effective pedagogy
