Patrimonialism and Political Change in the Congo Jean-Claude Willame,1972 **Patrimonialism and Political Change in the Congo** Jean-Claude Willame,1970 Political Development and the New Realism in Sub-Saharan Africa David Ernest Apter,Carl Gustav Rosberg,1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression **Neopatrimonialism in Africa and Beyond** Daniel C. Bach,Mamoudou Gazibo,2013-03-01 Neopatrimonialism a system whereby rulers use state resources for personal benefit and to secure the loyalty of clients in the general population is central to any teaching or conceptualisation of contemporary African politics This book is a theoretical and comparative study of neopatrimonialism in Africa and across world regions Although such practices are widespread in other parts of the world the African neopatrimonial state has also become a global prototype of the anti developmental state This volume calls for a reappraisal of the genesis and interpretations of the concepts of patrimonialism and neopatrimonialism Expert contributors consider recent debates in Africa through the study of democracy clientelism the big man syndrome Kenya the rise of godfatherism Nigeria warlordism Liberia and the neopatrimonial state on a day to day basis Niger They discuss patrimonialism and neopatrimonialism from Latin America to Europe Central Asia and Asia Pacific to weave a comparative analysis of the interplay between public policies and private interest Neopatrimonialism in Africa and Beyond is an important and timely volume that will be of interest to students and scholars of international politics African studies sociology and international development

Katanga 1960-63 Christopher Othen, 2015-09-07 In King Leopold II's infamous Congo Free State at the turn of the century severed hands became a form of currency But the Belgians didn't seem to have a sense of historical shame as they connived for an independent Katanga state in 1960 to protect Belgian mining interests What happened next was extraordinary It was an extremely uneven battle The UN fielded soldiers from twenty nations America paid the bills and the Soviets intrigued behind the scenes Yet to everyone's surprise the new nation's rag tag army of local gendarmes jungle tribesmen and controversially European mercenaries refused to give in For two and a half years Katanga the scrawniest underdog ever to fight a war held off the world with guerrilla warfare two faced diplomacy and some shady financial backing It even looked as if the Katangese might win Katanga 1960 tells for the first time the full story of the Congolese province that declared independence and found itself at war with the world

Corruption, Development and Underdevelopment Robin Theobald, 1989-12-11 Corruption for most of us almost immediately evokes images of the third world especially countries like Nigeria Mexico and India Whilst we may concede that corruption exists in developed countries it is generally thought to be

under control Despite such widely held views there is very little hard evidence on the actual extent of corruption in any country This book strives to look behind impressions in an attempt to determine what factors underlie the high profile of corruption in UDCs For an adequate understanding of the phenomenon the global character of corruption is emphasized as well as the necessity of locating within a broader process of economic and social change *American Empire* A. G. Hopkins,2018-02-20 A new history of the United States that turns American exceptionalism on its head American Empire is a panoramic work of scholarship that presents a bold new global perspective on the history of the United States Drawing on his expertise in economic history and the imperial histories of Britain and Europe A G Hopkins takes readers from the colonial era to today to show how far from diverging the United States and Western Europe followed similar trajectories throughout this long period and how America's dependency on Britain and Europe extended much later into the nineteenth century than previously understood In a sweeping narrative spanning three centuries Hopkins describes how the revolt of the mainland colonies was the product of a crisis that afflicted the imperial states of Europe generally and how the history of the American republic between 1783 and 1865 was a response not to the termination of British influence but to its continued expansion He traces how the creation of a U S industrial nation state after the Civil War paralleled developments in Western Europe fostered similar destabilizing influences and found an outlet in imperialism through the acquisition of an insular empire in the Caribbean and Pacific The period of colonial rule that followed reflected the history of the European empires in its ideological justifications economic relations and administrative principles After 1945 a profound shift in the character of globalization brought the age of the great territorial empires to an end American Empire goes beyond the myth of American exceptionalism to place the United States within the wider context of the global historical forces that shaped the Western empires and the world **Political Development Theory** Richard Higgott,2005-06-28 This book examines development theory from a political perspective It considers modernisation theory and public policy as well as Marxism the state and the third world **Corruption and Post-Conflict Peacebuilding** Dominik Zaum,Christine Cheng,2011-08-19 This volume brings together leading international scholars and practitioners to develop a framework for thinking about character and impact of corruption in peacebuilding environments and examines them in the context of different case studies [African Social Studies](#) C W Gutkind,Peter Waterman,1977 African Social Studies A Radical Reader is an essential and wide ranging collection of essays by some of the world's finest social scientists known and lesser known This impressive collection covers issues such as the legacy of colonialism imperialism problems in the field of African Studies national liberation movements and more No student of Africa should be without this volume [Corporatism In Africa](#) Julius E. N. Sangmpam,2017-03-08

This book proposes new avenues for understanding tribal allegiance in Sub Saharan Africa Much research on ethnicity and cultural pluralism in Sub Saharan Africa falsely equates the term tribe with ethnicity and obscures the differences between Sub Saharan Africa and other regions It also puts too much emphasis on the role of the colonial state in fostering tribal allegiance This book challenges these claims and offers an alternate way of understanding tribal allegiance in Sub Saharan Africa

The Two Logics of Autocratic Rule Johannes Gerschewski, 2023-04-13 In *The Two Logics of Autocratic Rule* Gerschewski argues that all autocracies must fulfil three conditions to survive the co optation of key elites into their inner sanctum the repression of potential dissent and popular legitimation Yet how these conditions complement each other depends on alternative logics over politicization and de politicization While the former aims at mobilizing people via inflating a friend foe distinction the latter renders the people passive and apathetic relying instead on performance driven forms of legitimation Gerschewski supports this two logics theory with the empirical analysis of forty five autocratic regime episodes in East Asia since the end of World War II In simultaneously synthesizing and extending existing research on non democracies this book proposes an innovative way to understand autocratic rule that goes beyond the classic distinction between totalitarian and authoritarian regimes It will be of interest to scholars and students of comparative politics political theory and East Asian politics
