War Story Longarm, 2004 WAR STORY is the story of a war It is a personal observation from 1964 of how the American War in Vietnam came to be It is also my first covert mission We flew through six unfriendly countries and came back alive by a combination of accident and design Nobody noticed The real events of my time have today become things that never were Media fiction has become history This is not a surprise It is the normal course of covert war I am reversing that normal course This is a message from the real world It is probably not the world in which you think you live Maybe something very important to you is not there at all I know that feeling How you deal with it is up to you This is not useless ancient history The rules of this conflict are a part of human nature They are always the same If you understand Vietnam in 1964 you will also understand the world around you You will be hard to control And that is my intention

The Trouble with Canada ... Still William D. Gairdner,2011-11-14 Two decades ago *The Trouble with Canada* sparked a conservative renewal and inspired a generation Now in this completely revised update William D Gairdner rejoins the battle showing that Canada suffered a disturbing regime change in the last quarter of the twentieth century and is now caught between two irreconcilable styles of government top down collectivism and bottom up individualism The result is a regime besotted with high taxation and big government a welfare culture that rewards laziness and a hug a thug mentality that betrays justice In *The Trouble with Canada Still* Gairdner puts familiar topics under a searing new light and recent issues such as immigration diversity and corruption of the law are confronted head on yielding many startling and sure to be controversial conclusions This book is a clarion call to arms for Canada to examine and renew itself before it is too late

Communication and National Identity Richard Collins,1990-10-01 There can be no political sovereignty without culture sovereignty So argued the CBC in 1985 in its evidence to the Caplan Sauvageau Task Force on Broadcasting Policy Richard Collins challenges this assumption He argues in this study of nationalism and Canadian television policy that Canada s political sovereignty depends much less on Canadian content in television than has generally been accepted His analysis focuses on television drama at the centre of television policy in the 1980s Collins questions the conventional image of Canada as a weak national entity undermined by its population s predilection for foreign television Rather he argues Canada is held

together not by a shared repertoire of symbols a national culture but by other social forces notably political institutions Collins maintains that important advantages actually and potentially flow from Canada's wear national symbolic culture Rethinking the relationships between television and society in Canada may yield a more successful broadcasting policy more popular television programming and a better understanding of the links between culture and the body politic As the European Community moves closer to political unity the Canadian case may become more relevant to Europe which Collins suggests already fears the Canadianization of its television He maintains that a European multilingual society without a shared culture or common European audio visual sphere and with viewers watching foreign television can survive successfully as a political entity just as Canada has
