Turner,1996-09-01 **Creating Sustainable Results with Solution-Focused Applied Psychology** Louis

Cauffman,2023-04-05 This practical evidence based guide details how professional practitioners and change facilitators can integrate a solution focused approach into their daily work and practice While conventional therapeutic methods centre on the assumption that problems arise due to deficiencies and therefore focus on diagnosis and subsequent treatment the solution focused approach is resource based and operates on the assumption that human beings always have resources at their disposal to move forward Free from the burden of detailed problem analysis the solution focused approach prioritizes clients hope for change in their lives and taps into the opportunities and resources available to bring about such transformation The solution focused practitioner is able to design incisive interventions that are flexible enough to adapt to any situation clients might find themselves in and this book provides a practical formulation that is immediately applicable to all professional fields of applied psychology Creating Sustainable Results with Solution Focused Applied Psychology is important reading for therapists and coaches of all schools of thought as well as anyone who practices as a professional change facilitator including social workers mediators business leaders and educators The Origins Of Neuro Linguistic Programming John Grinder,2013-05-09

The Origins of NLP brings together the recollections and thoughts of some of the main protagonists from the very early days of NLP In 1971 Richard Bandler and Frank Pucelik were students at Kresge College at the University of California Santa Cruz They had a strong mutual interest in Gestalt Therapy Frank because of his traumatic time in Vietnam and because he had been working with some disaffected and drug addicted kids and Richard because he had been working with Science and Behavior Books on transcribing and editing Fritz Perls seminal work The Gestalt Approach and Eyewitness to Therapy They started a local Gestalt group and ran 2 3 sessions a week collaborating and experimenting with the language of therapy They started achieving some brilliant results but were having problems transferring their skills to others and so Richard invited one of their college professors John Grinder to observe what they were doing in order that he would hopefully be able to deconstruct what they were doing that was so effective John was a professor of Linguistics and was instantly impressed with the work that they were doing He was able to add more structure and in due course the three of them formalised what is now known as the Meta Model NLP or Meta as it was known then was born **The SAGE Encyclopedia of Marriage, Family, and Couples Counseling** Jon Carlson,Shannon B.
