Paul Celan, 1998 A bibliography including works by and about Paul Celan **Beck'sche Reihe : eine Biographie** John Felstiner, 2000 **Holocaust Literature: Agosin to Lentin** S. Lillian Kremer, 2003 Review This encyclopedia offers an authoritative and comprehensive survey of the important writers and works that form the literature about the Holocaust and its consequences The collection is alphabetically arranged and consists of high quality biocritical essays on 309 writers who are first second and third generation survivors or important thinkers and spokespersons on the Holocaust An essential literary reference work this publication is an important addition to the genre and a solid value for public and academic libraries The Top 20 Reference Titles of the Year American Libraries May 2004 *Paul Celan's Encounters with Surrealism* Charlotte Ryland, 2017-12-02 Paul Celan 1920 1970 one of the most important and challenging poets in post war Europe was also a prolific and highly idiosyncratic translator His post Holocaust writing is inextricably linked to the specific experiences that have shaped contemporary European and American identity and at the same time has its roots in literary philosophical and scientific traditions that range across continents and centuries surrealism being a key example Celan's early works emerge from a fruitful period for surrealism and they bear the marks of that style not least because of the deep affinity he felt with the need to extend the boundaries of expression In this comparative and intertextual study Charlotte Ryland shows that this interaction continued throughout Celan's lifetime largely through translation of French surrealist poems and that Celan's great oeuvre can thus be understood fully only in the light of its interaction with surrealist texts and artworks which finally gives rise to a wholly new poetics of translation Charlotte Ryland is Lecturer in German at St Hughs College and The Queens College Oxford **Paul Celan, eine Bibliographie** Jerry Glenn, 1989 *Reference Guide to Holocaust Literature* Thomas Riggs, 2002 Covering the entire spectrum of the literature of the Holocaust era from the beginnings of Nazism through the concentration camp experience survivor syndrome and second generation response this detailed survey includes entries on more than 200 authors and 300 works Author entries include detailed biographical information as well as expert analytical interpretation Work entries discuss each work in detail and include a critical essay written by an expert in the field Value added features include chronologies further reading lists and nationality concentration camp and title indexes

Sonic Transformations of Literary Texts Siglind Bruhn, 2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny **BOOK JACKET** **Resettlers and Survivors** Gaëlle Fisher, 2020-04-09 Located on the border of present day Romania and Ukraine the historical region of Bukovina was the site of widespread displacement and violence as it passed from Romanian to Soviet hands and back again during World War II

This study focuses on two groups of Bukovinians ethnic Germans and German speaking Jews as they navigated dramatically changed political and social circumstances in and after 1945 Through comparisons of the narratives and self conceptions of these groups Resettlers and Survivors gives a nuanced account of how they dealt with the difficult legacies of World War II while exploring Bukovina s significance for them as both a geographical location and a place of memory

Poesis in Extremis Daniel Feldman,Efraim Sicher,2024-02-08 How can genocide be witnessed through imaginative literature How can the Holocaust affect readers who were not there Reading the work of major figures such as Elie Wiesel Paul Celan Avrom Sutzkever Ida Fink Wladyslaw Szlengel Itzhak Katzenelson and Czeslaw Milosz Poesis in Extremis poses fundamental questions about how prose and poetry are written under extreme conditions either in real time or immediately after the Holocaust Framed by discussion of literary testimony with Wiesel s literary memoir Night as an entry point this innovative study explores the blurred boundary of fact and fiction in Holocaust literature It asks whether there is a poetics of the Holocaust and what might be the criteria for literary witnessing Wartime writing in particular tests the limits of poesis in extremis when poets faced their own annihilation and wrote in the hope that their words like a message in a bottle would somehow reach readers Through Poesis in Extremis Daniel Feldman and Efraim Sicher probe the boundaries of Holocaust literature as well as the limits of representation

The Emprise of Poetry Michael Eskin,2024-11-14 The Emprise of Poetry analyzes the insidious entwinement of anti Americanism and antisemitism in modern and contemporary German culture through the writings of one of its most acclaimed literary figures Dresden native Durs Gr nbein 1962 Michael Eskin offers an unprecedented view of the American cum Jewish discontents at the heart of modern and present day German culture through the exemplary lens of the work of Durs Gr nbein the most widely translated and globally honored living German poet and the only one to have been hailed as the Berlin Republic s most qualified contemporary candidate for the office of German national poet Yet as Eskin outlines Gr nbein s work contains a paradoxical and tension filled twofold self construction as an idiosyncratically American poet and Ezra Pound s vociferously philosemitic heir who merely happens to be writing in German as it were conjoined with an avidly anti American German poet who writes emphatically and not always savorily as a German and a self proclaimed heir to the legacies of Celan and Kafka most notably on matters American and Jewish Against the foil of these tensions Eskin traces and documents postwar German high culture s persisting inability to purge itself of ideological toxins that leach into the mainstream from centuries old prejudices and antagonisms revolving around Germany s love hate bond with America as well as its ostensibly enduring suspicion and antipathy toward Jews Eskin s deep dive into the American Gr nbein s apparent philosemitism coupled with the German Gr

nein's antisemitically inflected anti Americanism reveals the fault lines underlying the complex and contradictory legacies and contexts of postwar German culture The Sense of Semblance: Philosophical Analyses of Holocaust Art Henry W. Pickford, 2013 Holocaust artworks intuitively must fulfill at least two criteria artistic lest they be merely historical documents and historical lest they distort the Holocaust or become merely artworks The Sense of Semblance locates this problematic within philosophical aesthetics as a version of the conflict between aesthetic autonomy and heteronomy and argues that Adorno's dialectic of aesthetic semblance describes the normative demand that artworks maintain a dynamic tension between the two The Sense of Semblance aims to move beyond familiar debates surrounding postmodernism by demonstrating the usefulness of contemporary theories of meaning and understanding including those from the analytic tradition Pickford shows how the causal theory of names the philosophy of tacit knowledge the analytic philosophy of quotation Sartre's theory of the imaginary the epistemology of testimony and Walter Benjamin's dialectical image can help explicate how individual artworks fulfill artistic and historical desiderata In close readings of Celan's poetry Holocaust memorials in Berlin the quotational artist Heimrad Becker Claude Lanzmann's film Shoah and Art Spiegelman's graphic novel Maus Pickford offers interpretations that in their precision specificity and clarity inaugurate a dialogue between contemporary analytic philosophy and contemporary art The Sense of Semblance is the first book to incorporate contemporary analytic philosophy in interpretations of art and architecture literature and film about the Holocaust

Stéphane Mosès ›Displacements‹ Ashraf Noor, 2024-05-06 Stéphane Mosès explores in Displacements the poetry of Paul Celan and the work of major German Jewish thinkers in the context of his distinction between normative and critical modernity The first part contains a translation of his book *Approches de Paul Celan* the third part a translation of his lecture series *Figures philosophiques de la modernité juive* and the central section contains alongside a text on Freud essays on Goethe and Benjamin that extend his analysis beyond the Jewish sphere while engaging with the questions of tradition and its fragmentation that he raises there Edited translated and with an Introduction by Ashraf Noor **Contemporary German Fiction Writers** Wolfgang Iser, James N. Hardin, 1988 Essays on West German East German and Swiss German authors who experienced Nazi rule and World War II as adults Entries examine these writers coming to terms with the experience of fascism and how they were often the conscience of a society that was inclined to forget its recent past The lives and works of these writers provide an insight not only into German literature but also into several decades of German history

Subverting Scriptures B. Benedix, 2009-10-26 This collection seeks to fill the interdisciplinary space that addresses when why and how writers strategically reference the Bible for subversive or re-evaluative purposes It explores the specific biblical pieces used this subversion and why they are used with reference to many contemporary sources **Arts of Incompletion** , 2021-07-19 Incompletion is an essential condition of cultural history and particularly the idea of the fragment became a central element of Romantic art Through its resistance to classicist ideals it continued being of high relevance to

Translation - Theory and Practice Daniel Weissbort, Astradur Eysteinnsson, 2006-08-04 Translation Theory and Practice A Historical Reader responds to the need for a collection of primary texts on translation in the English tradition from the earliest times to the present day Based on an exhaustive survey of the wealth of available materials the Reader demonstrates throughout the link between theory and practice with excerpts not only of significant theoretical writings but of actual translations as well as excerpts on translation from letters interviews autobiographies and fiction The collection is intended as a teaching tool but also as an encyclopaedia for the use of translators and writers on translation It presents the full panoply of approaches to translation without necessarily judging between them but showing clearly what is to be gained or lost in each case Translations of key texts such as the Bible and the Homeric epic are traced through the ages with the same passages excerpted making it possible for readers to construct their own map of the evolution of translation and to evaluate in their historical contexts the variety of approaches The passages in question are also accompanied by ad verbum versions to facilitate comparison The bibliographies are likewise comprehensive The editors have drawn on the expertise of leading scholars in the field including the late James S. Holmes Louis Kelly Jonathan Wilcox Jane Stevenson David Hopkins and many others In addition significant non-English texts such as Martin Luther's Circular Letter on Translation which may be said to have inaugurated the Reformation are included helping to set the English tradition in a wider context Related items such as the introductions to their work by Tudor and Jacobean translators or the work of women translators from the sixteenth to eighteenth centuries have been brought together in collages marking particularly important moments or developments in the history of translation This comprehensive reader provides an invaluable and illuminating resource for scholars and students of translation and English literature as well as poets cultural historians and professional translators
