Paul Claudels Le Soulier De Satin:

Le soulier de satin Paul Claudel, 1929 Le soulier de satin Paul Claudel, 1944 **Le soulier de satin** Paul Claudel, 1978 **Paul Claudel's Le Soulier de Satin** Joan S. Freilich, 1973 Paul Claudel's 'Le Soulier de satin' Joan S. Freilich, 1973-12-15 Claudel's most important work *Le Soulier de satin* has confused and puzzled readers since it first appeared. Joan S. Freilich's intensive examination of Claudel's imagery combined stylistic, structuralist, and psychoanalytic analyses. These are new methods that have been developed over the past two decades and are based on an examination of the text from the reader's point of view. This is a radical break with conventional literary studies which examine literature biographically or comparatively, i.e. focusing on the relationship of the text to other works written by the same or different authors, to the author's life and historical setting, or to various linguistic norms. Recent stylistic studies have as their point of departure the reader's perception of certain elements of style as unpredictable and thus marked in an otherwise unmarked context; such studies seek to determine which of these stylistic devices are present within a given text and what their effect is on the reader's response to the work. Structuralist analyses involve the identification and description of the basic system of concepts around which the literary text is constructed. This fundamental system or structure is the source of the reader's sense that the text is a coherent whole, but it is itself an abstraction and can be perceived only through one or more of the variants through which it is actualized in the text. Finally, the psychoanalytic interpretation of a literary work attempts to elucidate the most fundamental, effective concepts conveyed through the text: concepts which evoke corresponding emotional responses in the reader and which, although often unrecognized, are thus responsible for much of his interest in and appreciation of the work. Stylistic and structuralist methods have been used together in recent years, but this study of *Le Soulier de satin* represents the first time that psychoanalytic interpretation has been included as part of a stylistic and structuralist analysis in which the focus throughout is on the relationship of the text to the reader and the point of departure is the reader's response to the work. Furthermore, most Claudelian criticism has been vague and general in nature, but this work is specific and represents an unusual and unique contribution. Paul Claudel's "Le Soulier de Satin". A Stylistic, Structuralist, and Psychoanalytic Interpretation Joan S. Freilich, 1973 Claudel's most important work *Le Soulier de satin* has confused and puzzled readers since it first appeared. Joan S. Freilich's intensive examination of Claudel's imagery combined stylistic, structuralist, and psychoanalytic analyses. **Claudel Goes to the Theater** Judith Salome Zollinger, 1999 Le Soulier de Satin [vol. 1] Paul Claudel, 1929 **Le soulier de satin** Paul Claudel, 1929 **The Possibility of Philosophy** Maurice Merleau-Ponty, 2022-01-15 *The Possibility of Philosophy* presents the notes that Maurice Merleau-Ponty prepared for three courses he taught at the Collège de France. *The Possibility of Philosophy* Today given in the spring semester of 1959 and *Cartesian Ontology and Ontology Today* and *Philosophy and Nonphilosophy* since Hegel both given in the spring semester of 1961. The last two courses remain incomplete due to Merleau-Ponty's unexpected death on May 3, 1961. Nonetheless, they

provide indications of the new ontology that informed *The Visible and the Invisible* a posthumously published work that was under way at the same time These courses offer readers of Merleau Ponty's late thought a wealth of references to painting literature and psychoanalysis and to the works of Husserl Heidegger Descartes Hegel and Marx that fill in some of the missing pieces of *The Visible and the Invisible* especially its often terse and sometimes cryptic working notes We see more clearly how Merleau Ponty's attempt to bring forth a new ontology indicates a fundamental revision in what it means to think an attempt to reimagine the possibility of philosophy

The Drama of Fallen France Kenneth Krauss, 2012-02-01 The Drama of Fallen France examines various dramatic works written and or produced in Paris during the four years of Nazi occupation and explains what they may have meant to their original audiences Because of widespread financial support from the new French government at Vichy the former French capital underwent a renaissance of theatre during this period and both the public playhouses and the private theatres provided an amazing array of new productions and revivals Some of the plays considered here are well known Anouilh's *Antigone* Sartre's *The Flies* Claudel's *The Satin Slipper* Others have remained obscure such as Cocteau's *The Typewriter* Giraudoux's *The Apollo of Marsac* and Montherlant's *Nobody's Son* and two Andr   Obey's *Eight Hundred Meters* and Simone Jollivet's *The Princess of Ursins* have remained virtually unread since the early 1940s In examining French culture under the Vichy regime and the Nazis Kenneth Krauss links the politics of gender and sexuality with the more traditional political concepts of collaboration and resistance A final chapter on Truffaut's 1980 film *The Last Metro* demonstrates how the present manages to rewrite and revision the complex and seemingly contradictory reality of the past
