Paul Valéry's Album des Vers Anciens Suzanne Nash, 2014-07-14 Questioning the view that the work is not representative of the poet's mature accomplishment Suzanne Nash argues that the revisionary process involved in its creation led Valéry to reflect on problems fundamental to poetic production and thus provided inspiration for all his later poetry Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Anchor Anthology of French Poetry** Angel Flores, 2000-04-18 First published in 1958 this collection introduced an indispensable corpus of western poetry to countless American students Francophiles and would be poets among them Patti Smith whose Introduction to this edition testifies to its epochal impact on her own career The poetic and cultural tradition forged by the symbolist poets featured herein Baudelaire Rimbaud Verlaine Apollinaire and others reverberated throughout the avant garde and countercultures of the twentieth century Surrealism modernism abstract impressionism and the Beat movement all find their roots in the examples of these poets and their theories of art With translations by Richmond Lattimore W S Merwin Richard Wilbur and Louise Varese this rediscovered gem is sure to inspire a new generation **Encyclopedia of Modern French Thought** Christopher John Murray, 2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more *An Anthology of French Poetry from Nerval to Valéry in English Translation* Angel Flores, 1962 **The Ironic Vision in Modern Literature** Charles I. Civilization Régis Debray, 2019-03-05 Civilisation a hard term to define But while every society has a distinctive culture authentic civilisations must offer those they subjugate an attractive way of life Their imprint outlasts their imperium A century ago Debray argues there was a European civilisation of which America was an outlying culture but today the relationship is reversed In 1900 an American of taste was a European in exile in 2000 a trendy European is a frustrated American or one waiting for a visa Characteristic of American civilization is its three overarching fetishes space image and happiness America is a civilization of space and image whereas Europe was one of time and writing And its kitsch infantilism blinds itself to the tragic complexities of human life A measure of America's success is how its globish jargon has so successfully infiltrated European languages For Debray the dominance of American civilisation is a historical fait accompli yet he sees a model for Europe in Vienna after its exclusion from the German Reich For decades to come Europe can still offer a rich cultural seedbed Some will call it decadence others liberation Why not both

Eliot's Objective Correlative Flemming Olsen, 2012 Eliot's dictum about the objective correlative has often been quoted but rarely analysed This book traces the maxim to some of its sources and places it in a contemporary context Eliot agreed with Locke about the necessity of sensory input but for a poet to be able to create poetry the input has to be processed by the poet's intellect Respect for control of feelings and order of presentation were central to Eliot's conception of literary criticism The result the objective correlative is not one word but a scene or a chain of events Eliot's thinking was also inspired by late 19th century French critics like Gautier and Gourmont whose terminology he not infrequently borrowed But he chose the term objective out of respect for the prestige that still surrounded the Positivist paradigm In its break away from Positivist dogmas criticism of art in the early 20th century was very much preoccupied with form In poetry that meant focus on the use and function of the word That focus is perceptible everywhere in Eliot's criticism Even though the idea of the objective correlative was not an original one Eliot's treatment of it is interesting because he sees a seeming truism the right word in the right place in a new light He never developed the theory but the thought is traceable in several of his critical essays On account of its categorical and rudimentary form the theory is not unproblematic whose fault is it if the reader's response does not square with the poet's intention And indeed Eliot's own practice belies his theory witness the multifarious legitimate interpretations of his poems

Islam G E von Grunebaum, 2013-10-16 The essays in this volume deal with three fundamental problems in Islamic civilization the growth among Muslims of a consciousness of belonging to a culture the unity of Muslim civilization as expressed in literature political thought attitude to science and urban structure and the interaction of Islam with other civilizations

In Search of the Classic Steven Shankman, 2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape

of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman s study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Val ry poem *Le Cimetière marin* and the classic qualities it shares with Pindar s third Pythian ode from which Val ry derives the epigraph for his poem
