Pauline Places In The Footsteps Of Paul Through Greece And Turkey:

Stones, Bones, and the Sacred Alan H. Cadwallader, 2016-12-16 A crucial text for any university course on the interaction of archaeology and the Bible The world of early Christians was not a world lived in texts it was a world saturated with material reality and concerns what where and when to eat or drink how to present oneself in the space of bodily life and that of death how to move from one place to another what impacted status or the adjudication of legal charges All these and more controlled so much of life in the ancient world The Christians were not immune from the impact of these realities Sometimes they absorbed their surrounds sometimes they quite explicitly rejected the material practices bearing in on them frequently they modified the practice and the rationale to create a significant Christian alternative The collection of essays in this volume come from a range of international scholars who for all their different interests and critical commitments are yet united in treasuring research into the Greek and Roman worlds in which Christians sought to make their way They offer these essays in honor of one who has made a lifetime's work in mining ancient material culture to extract nuggets of insight into early Christian dining practices Dennis E Smith Features Rich examples of method in the utilization of ancient material culture for biblical interpretation Thirteen essays with a response from Dennis E Smith Maps diagrams and plates
