Scribes, Motives, and Manuscripts Alan Mugridge, 2024-08-02 In this volume Alan Mugridge reviews claims that scribes of New Testament manuscripts altered the text of their copies to further their own beliefs to stop people using them to support opposing beliefs or for some other purpose He discusses the New Testament passages about which these claims are made in detail noting their context exegesis and supporting manuscripts He concludes that while a small number of such claims are valid most are doubtful because unless a scribe's habits are clear in one manuscript we cannot know how the changes came about why they were made who made them and when they were made He argues that the bulk of the erroneous readings in New Testament manuscripts reviewed were made by scribal slips during the copying process and not in order to further anyone's personal agenda adding strength to the reliability of the Greek New Testament text available

In FED We Trust David Wessel,2010-08-03 Whatever it takes That was Federal Reserve Chairman Ben Bernanke's vow as the worst financial panic in more than fifty years gripped the world and he struggled to avoid the once unthinkable a repeat of the Great Depression Brilliant but temperamentally cautious Bernanke researched and wrote about the causes of the Depression during his career as an academic Then when thrust into a role as one of the most important people in the world he was compelled to boldness by circumstances he never anticipated The president of the United States can respond instantly to a missile attack with America's military might but he cannot respond to a financial crisis with real money unless Congress acts The Fed chairman can Bernanke did Under his leadership the Fed spearheaded the biggest government intervention in more than half a century and effectively became the fourth branch of government with no direct accountability to the nation's voters Believing that the economic catastrophe of the 1930s was largely the fault of a sluggish and wrongheaded Federal Reserve Bernanke was determined not to repeat that epic mistake In this penetrating look inside the most powerful economic institution in the world David Wessel illuminates its opaque and undemocratic inner workings while revealing how the Bernanke Fed led the desperate effort to prevent the world's financial engine from grinding to a halt In piecing together the fullest most authoritative and alarming picture yet of this decisive moment in our nation's history In Fed We Trust answers the most critical questions Among them What did Bernanke and his team at the Fed know and what took them by surprise Which of their actions stretched or even ripped through the Fed's legal authority Which chilling numbers and indicators made them feel they had no choice What were they thinking at pivotal moments during the race to sell Bear Stearns the unsuccessful quest to save Lehman Brothers and the virtual nationalization of AIG Fannie Mae and Freddie Mac What were they saying to one another when as Bernanke put it to Wessel We came very close to Depression 2 0 How well did Bernanke former treasury secretary Hank Paulson and then New York Fed president Tim Geithner perform under intense pressure How did the crisis prompt a reappraisal of the once impregnable reputation of Alan Greenspan In Fed We Trust is a breathtaking and singularly perceptive look at a historic episode in American and global economic history

Masters of Audacity and Deceit William E. Been, 2011-10 The American people will never knowingly adopt Socialism but under the name of liberalism they will adopt every fragment of the socialist program until one day America will be a socialist nation without ever knowing how it happened Norman Thomas With the GDP growing to its peak in June 2008 why did the Lehman Brothers bankruptcy of September 15 2008 help spark a recession that grew to be the Great Recession How is it possible that American financial leadership was so negligent and uninformed as to not foresee an economic situation that would be described as being so severe that it would require trillions of dollars to avoid a Great Depression Are we so incapable from a financial management perspective or are we so paralyzed by political forces that necessary corrections were either not foreseen or not allowed Through meticulous research Masters of Audacity and Deceit answers these questions and connects the dots that link the myriad factors that have led this country to its current state
