## **Retrieving Experience Subjectivity And Recognition In Feminist Politics:**

**Retrieving Experience** Sonia Kruks, 2018-09-05 In *Retrieving Experience* Sonia Kruks engages critically with the postmodern turn in feminist and social theory. She contends that although postmodern analyses yield important insights about the place of discourse in constituting subjectivity, they lack the ability to examine how experience often exceeds the limits of discourse. To address this lack and explain why it matters for feminist politics, Kruks retrieves and employs aspects of postwar French existential theory, a tradition that she argues postmodernism has obscured by militantly rejecting its own genealogy. Kruks seeks to refocus our attention on the importance for feminism of embodied and lived experiences. Through her original readings of Simone de Beauvoir and other existential thinkers including Sartre, Fanon, and Merleau-Ponty and her own analyses inspired by their work, Kruks sheds new light on central problems in feminist theory and politics. These include debates about subjectivity and individual agency, questions about recognition and identity politics, and discussion of whether embodied experiences may sometimes facilitate solidarity among groups of different women.

**Retrieving Experience** Sonia Kruks, 2001 *Situating the subject: Panopticism and shame*. Foucault, Beauvoir, and feminism. The politics of recognition. Sartre, Fanon, and identity politics. Identity politics and dialectical reason beyond an epistemology of provenance. Going beyond discourse. Feminism, phenomenology, and women's experience. Phenomenology and difference on the possibility of feminist world travelling.

**Gender History in Practice** Kathleen Canning, 2006 The eight essays collected in this volume examine the practice of gender history and its impact on our understanding of European history. Each essay takes up a major methodological or theoretical issue in feminist history and illustrates the necessity of critiquing and redefining the concepts of body, citizenship, class, and experience through historical case studies. Kathleen Canning opens the book with a new overview of the state of the art in European gender history. She considers how gender history has revised the master narratives in some fields within modern European history, such as the French Revolution, but has had a lesser impact in others, Weimar and Nazi Germany. *Gender History in Practice* includes two essays now regarded as classics: *Feminist History after the Linguistic Turn* and *The Body as Method*, as well as new chapters on experience, citizenship, and subjectivity. Other essays in the book draw on Canning's work at the intersection of labor history, the history of the welfare state, and the history of the body, showing how the gendered social body was shaped in Imperial Germany. The book concludes with a pair of essays on the concepts of class and citizenship in German history, offering critical perspectives on feminist understandings of citizenship. Featuring an extensive thematic bibliography of influential works in gender history and theory that will prove invaluable to students and scholars, *Gender History in Practice* offers new insights into the history of Germany and Central Europe, as well as a timely assessment of gender history's accomplishments and challenges.

**On Female Body Experience** Iris Marion Young, 2005-01-27 Written over a span of more than two decades, the essays by Iris Marion Young collected in this volume describe diverse aspects of women's lived body experience in modern Western societies. Drawing on

the ideas of several twentieth century continental philosophers including Simone de Beauvoir Martin Heidegger Luce Irigaray Julia Kristeva and Maurice Merleau Ponty Young constructs rigorous analytic categories for interpreting embodied subjectivity The essays combine theoretical description of experience with normative evaluation of the unjust constraints on their freedom and opportunity that continue to burden many women The lead essay rethinks the purpose of the category of gender for feminist theory after important debates have questioned its usefulness Other essays include reflection on the meaning of being at home and the need for privacy in old age residences as well as essays that analyze aspects of the experience of women and girls that have received little attention even in feminist theory such as the sexuality of breasts or menstruation as punctuation in a woman s life story Young describes the phenomenology of moving in a pregnant body and the tactile pleasures of clothing While academically rigorous the essays are also written with engaging style incorporating vivid imagery and autobiographical narrative On Female Body Experience raises issues and takes positions that speak to scholars and students in philosophy sociology geography medicine nursing and education

Global Babel Samir Dayal, Margueritte Murphy, 2021-02-10 Globalization as we know it today would be unimaginable without the revolution in information and communication technologies of the last thirty years. Yet have we achieved one world as the promotional hype for cellular and digital networks would have it? This collection of essays Global Babel: Questions of Discourse and Communication in a Time of Globalization explores the current state of communication and discourse in a globalized environment. The essays are united by an awareness that whether understood technologically, economically, epistemologically or culturally, globalization is a discursive field with discrepant assumptions, categories and conclusions. As such, globalization is double edged and complex. It can certainly enable the exploitation of the powerless by the powerful in different contexts or at different moments; it can also facilitate individual and collective agency. It is this doubleness, this complexity that this collection seeks to bring into focus. This volume offers an interdisciplinary forum where technological, aesthetic and ethical issues relating to globalization inhabit the same conceptual frame. Together the essays address the central issue of how the new knowledges of globalization are being articulated and explore the cultural consequences and success of such communication and knowledge exchange.

**Of Irony and Empire** Laura Rice, 2012-02-01 Of Irony and Empire is a dynamic thorough examination of Muslim writers from former European colonies in Africa who have increasingly entered into critical conversations with the metropole. Focusing on the period between World War I and the present, the age of irony, this book explores the political and symbolic invention of Muslim Africa and its often contradictory representations. Through a critical analysis of irony and resistance in works by writers who come from nomadic areas around the Sahara: Mustapha Tlili (Tunisia), Malika Mokeddem (Algeria), Cheikh Hamidou Kane (Senegal) and Tayeb Salih (Sudan), Laura Rice offers a fresh perspective that accounts for both the influence of the Western instrumental imaginary and the Islamic holistic one.

A Companion to Simone de Beauvoir Laura Hengehold, Nancy Bauer, 2017-07-27 Winner of the 2018 Choice award for Outstanding Academic Title. The work of Simone de Beauvoir has endured and flowered in the last two decades thanks primarily to the lasting influence of *The Second Sex* on the rise of academic discussions of gender, sexuality and old age. Now in this new Companion dedicated to her life and writings, an international assembly of prominent scholars, essayists and leading interpreters reflect upon the range of Beauvoir's contribution to philosophy as one of the great authors, thinkers and public intellectuals of the twentieth century. The

Companion examines Beauvoir's rich intellectual life from a variety of angles including literary, historical, and anthropological perspectives and situates her in relation to her forbears and contemporaries in the philosophical canon. Essays in each of four thematic sections reveal the breadth and acuity of her insight from the significance of *The Second Sex* and her work on the metaphysics of gender to her plentiful contributions in ethics and political philosophy. Later chapters trace the relationship between Beauvoir's philosophical and literary work and open up her scholarship to global issues, questions of race, and the legacy of colonialism and sexism. The volume concludes by considering her impact on contemporary feminist thought, writes large, and features pioneering work from a new generation of Beauvoir scholars. Ambitious and unprecedented in scope, *A Companion to Simone de Beauvoir* is an accessible and interdisciplinary resource for students, teachers, and researchers across the humanities and social sciences.

**Beauvoir and Sartre** Christine Daigle, Jacob Golomb, 2009-01-19 Christine Daigle, Jacob Golomb, and an international group of scholars explore the philosophical and literary relationship between Beauvoir and Sartre in this penetrating volume. **Feminism and Method** Nancy A. Naples, 2013-10-16 Naples draws on different research topics such as welfare, poverty, sexual identity, and sexual abuse to illustrate some of the most salient dilemmas of feminist research: the debate over objectivity, the paradox of discourse, the dilemma of standpoint, and the challenges of activist research. By linking important feminist theoretical debates with case studies, Naples illustrates the strategies she developed for resolving the challenges posed by postmodern, Third World, postcolonial, and queer studies.

**Women and Welfare Conditionality** Sharon Wright, 2023-10-30 Drawing on a wealth of qualitative longitudinal evidence, this book casts light on women's lived experiences of welfare and work. It uncovers the hidden, gendered bias of conditional welfare reforms to challenge dominant political discourses, policy design, and practice norms. **Feminist**

**Interpretations of Maurice Merleau-Ponty** Dorothea Olkowski, Gail Weiss, 2010-11-01 *Bodies of Knowledge* Wendy Kline, 2010-10-15 Throughout the 1970s and 80s, women argued that unless they gained access to information about their own bodies, there would be no equality. In *Bodies of Knowledge*, Wendy Kline considers the ways in which ordinary women worked to position the female body at the center of women's liberation. As Kline shows, the struggle to attain this knowledge unified women but also divided them according to race, class, sexuality, or level of professionalization. Each of the five chapters of *Bodies of Knowledge* examines a distinct moment or setting of the women's movement in order to give life to the ideas, expectations, and pitfalls encountered by the advocates of women's health: the making of *Our Bodies, Ourselves* (1973), the conflicts surrounding the training and practice of women's pelvic exams, the emergence of abortion as a feminist issue, the battles over contraceptive regulation at the 1983 Depo-Provera FDA hearings, and the rise of the profession of midwifery. Including an epilogue that considers the experiences of the daughters of 1970s feminists, *Bodies of Knowledge* is an important contribution to the study of the bodies that marked the lives of feminism's second wave. *'Everyday health', embodiment, and selfhood since 1950* Tracey Loughran, Hannah Froom, Kate Mahoney, Daisy Payling, 2024-10-22 What is the

history of everyday health in the postwar world and where might we find it This volume moves away from top down histories of health and medicine that focus on states medical professionals and other experts Instead it centres the day to day lives of people in diverse contexts from 1950 to the present Chapters explore how gender class race sexuality disability and age mediated experiences of health and wellbeing in historical context The volume foregrounds methodologies for writing bottom up histories of health subjectivity and embodiment offering insights applicable to scholars of times and places beyond those represented in the case studies presented here Drawing together cutting edge scholarship the volume establishes and critically interrogates everyday health as a crucial concept that will shape future histories of health and medicine **The**

**Location of Experience** Adela Pinch, 2024-10-15 We tend to feel that works of fiction give us special access to lived experience But how do novels cultivate that feeling Where exactly does experience reside The Location of Experience argues that paradoxically novels create experience for us not by bringing reality up close but by engineering environments in which we feel constrained from acting By excavating the history of the rise of experience as an important category of Victorian intellectual life this book reveals how experience was surprisingly tied to emotions of remorse and regret for some of the era's great women novelists the Brontës George Eliot Margaret Oliphant and Elizabeth Gaskell It shows how these writers passed ideas about experience and experiences themselves among each other Drawing on intellectual history psychology and moral philosophy The Location of Experience shows that through manipulating the psychological dimensions of fiction's formal features Victorian women novelists produced a philosophical account of experience that rivaled and complemented that of the male philosophers of the period
