Retro Mas Importante:

Guyton & Hall. Tratado de fisiología médica John E. Hall, 2021-05-15 Se presenta la nueva edición del best seller en Fisiología que después de una trayectoria de más de 60 años se convierte en el texto de primera elección para los estudiantes del grado de Medicina garantizando el máximo aprendizaje y la comprensión de los aspectos más complejos de la disciplina. Presenta la información en capítulos cortos homólogos en los que siempre se intenta enfatizar la correlación clínica. En la mayor parte de los capítulos se incluyen cuadros de texto con fondo violeta en los que se presenta de forma detallada toda la información clínica relativa a los conceptos fisiológicos explicados. Contiene más de 1 000 ilustraciones y esquemas a todo color que confieren al texto un alto valor didáctico ya que facilitan en gran medida la comprensión de los conceptos y procesos fisiológicos explicados. La nueva edición ha sido revisada y actualizada por completo si bien cabe destacar la mayor cobertura de las enfermedades neurodegenerativas y especialmente el Alzheimer. Incluye acceso a la plataforma SC con contenido en inglés a través del cual puede accederse al e-book así como a un conjunto de recursos adicionales de gran valor didáctico: animaciones, preguntas de autoevaluación y otras herramientas de aprendizaje.

Cirugía oral Carlos Navarro

Vila, 2008 Escenas de la vida posmoderna Beatriz Sarlo, 2019-11-22 En los años noventa se instalaron a una velocidad de vertigo los grandes cambios culturales y urbanos de lo que se llamó posmodernidad que entonces tenía el atractivo de la novedad y ahora es parte de un paisaje conocido incluso familiar: los shoppings como modelo de consumo y de ocio, los cuerpos transformados por las cirugías para ajustarse al nuevo ideal de belleza, el pasaje hacia el mundo de las pantallas en los locales de videogames y en los hogares, el fast food televisivo y las posibilidades de libertad del zapping. *Escenas de la vida posmoderna* es el libro que supo ver y describir prácticas escenarios y objetos en el momento mismo en que tomaban forma y generaban desconcierto, rechazo o fascinación. Y supo abrir el debate sin caer en el optimismo banal ni en el pesimismo nostálgico. Ya entrado el siglo XXI, cuando todos repetimos que se vive en un mundo globalizado, las preguntas que plantea Beatriz Sarlo en este libro siguen siendo cruciales para entender la cultura argentina: qué consecuencias tiene en las culturas populares la generalización de las posibilidades tecnológicas; qué queda de esas culturas atravesadas por los medios masivos de comunicación; cuál es el lugar de los artistas y los intelectuales; qué tipo de práctica pueden ejercer sin caer en la soberbia y el aislamiento. Con un tono marcado por el asombro y a la vez por una capacidad reflexiva siempre en movimiento, Beatriz Sarlo explora sin preconceptos los albores de la globalización en un país que se modernizaba y se precarizaba al mismo tiempo. En el prólogo que abre esta nueva edición traza el arco que conecta este libro con el presente y explica el itinerario que siguió para indagar las transformaciones tecnológicas y estéticas de las últimas décadas. La potencia de sus análisis tiene el meritito de ayudarnos a descorrer el velo de la costumbre para volver a pensar cómo se articula el tejido social cultural y político en la Argentina contemporánea.

Esta nueva y prestigiosa aportación del eminente profesor de la Universidad de Deusto tiene muchos valores dignos de ser destacados pues se detiene en las definiciones de las distintas acepciones fijas la antigüedad de las palabras con el año de la primera documentación conocida recoge los elementos formales de acentuación y entonación pero lo más sobresaliente es que nos habla como si le estuvieramos viendo y oyendo del origen de las palabras de sus acepciones y derivaciones desde su primer significado llevándonos con la pasión e ilusión que pone en sus explicaciones a revelaciones sorprendentes y curiosas. Moda y visual merchandising Sarah Bailey,Jonathan Baker,2015-11-12 Por qué vamos a una determinada tienda de ropa y no a otra? Qué es lo que determina que se vendan los artículos de moda? Qué es lo primero que nos atrae de una marca? El visual merchandising es la especialidad que responde a este tipo de preguntas al hacer converger la marca, el consumidor, el producto y el entorno en una misma disciplina. Partiendo de los distintos enfoques de la exposición de producto en el punto de venta, este libro explica de forma clara y detallada la base teórica del merchandising visual en moda y desglosa todas las técnicas y aspectos clave de la profesión. Los autores abordan tanto aquellas cuestiones relacionadas con el planteamiento conceptual del diseño de displays como aquellas que afectan a su materialización final. Los estudiantes y profesionales encontrarán en este manual la información esencial sobre qué fuentes pueden servir de inspiración visual, cómo crear relatos o secuencias narrativas, cuáles son los puntos de toque y los umbrales en las tiendas o qué recorridos y orientaciones son los preferidos por el consumidor en el interior de las mismas, entre otras muchas cuestiones. El libro incluye además entrevistas y ejemplos ampliamente ilustrados de los trabajos más exitosos de algunos de los visual merchandisers más importantes en la actualidad.
