Return from Berlin Robert Grilley, 2003-07-03 During the summer of 1944 the now legendary American Eighth Air Force was engaged in a ferocious air battle over Europe to bring the Allies victory over the German Third Reich This is the story of one B 17 navigator and his crewmates men who faced extraordinary danger with a maturity beyond their years This vivid and detailed account of combat flying and its psychological toll also recalls the beginning of Robert Grilley's development as a painter of international renown as he spends his off duty time drawing the peaceful Northamptonshire landscape around Deenethorpe airbase Wakened with flashlights on their faces in the predawn hours he and his crew repeatedly face the Luftwaffe in battles five miles high flying through flak so thick you could get out and walk on it Stretching their stamina to the limits they succeed time after time in their missions to bomb munitions works railyards the Le na synthetic oil plant at Merseburg in eastern Germany the V2 rocket research center at Peenemunde on the distant Baltic Coast and even to strike Hitler's capital city Berlin But Grilley finds interludes of unexpected grace and restoration on his days off making serious drawings from nature at the neighboring Yokehill Farm There he slowly cultivates a friendship with a curious eight year old the lively child Elizabeth who becomes for the combat flyer a symbol of survival

Flying against Fate S. P. MacKenzie, 2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers' superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking

with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers Flying against Fate expands our understanding of a major aspect of the psychology of war in the air and of World War II *September Hope* John C. McManus,2013-06-04 Acclaimed historian John C McManus author of *The Dead and Those About to Die* explores World War II s most ambitious invasion Operation Market Garden an immense daring offensive to defeat Nazi Germany before the end of 1944 A riveting and deeply moving story of uncommon courage Alex Kershaw New York Times bestselling author of *The First Wave* August 1944 saw the Allies achieve more significant victories than in any other month over the course of the war The Germans were in disarray overwhelmed on all fronts Rumors swirled that the war would soon be over On September 17 the largest airborne drop in military history commenced over Holland including two entire American divisions the 101st and the 82nd Their mission was to secure key bridges at such places as Son Eindhoven Grave and Nijmegen until British armored forces could relieve them The Germans however proved much stronger than the Allies anticipated In eight days of ferocious combat they mauled the airborne stymied the tanks and prevented the Allies from crossing the Rhine *September Hope* conveys the American perspective like never before through a vast array of new sources and countless personal interviews to create a truly revealing portrait of this searing human drama *Reflections of a Pragmatic Economist* Emery N. Bowman,2020-05-30 A fascinating look into the aircrews used and the effect on those who had to live through this constant bombing by the RAF during World War II UK Historian Berlin was bombed by four Allied air forces between 1940 and 1945 British bombers alone dropped 45 517 tons of bombs while the Americans a further 23 000 tons By 1944 some 1 2 million people 790 000 of them women and children about a quarter of Berlin s population had been evacuated to rural areas An effort was made to evacuate all children from Berlin but this was defeated by parents and many evacuees who soon made their way back to the city However by May 1945 1 7 million people 40% of the population had fled the city This fitting tribute to those who died in the relentless struggle to knock Berlin and hopefully Germany out of the war resonates with eyewitness

accounts and background information which the author has painstakingly investigated and researched The result is a hugely fascinating and highly readable narrative containing very real and unique observations by British and Commonwealth aircrew and equally importantly the long suffering citizens of Berlin and well as the capital s defenders Though not a defeat in absolute terms in the operational sense The Battle of Berlin was an offensive that Air Marshal Sir Arthur Harris and his aircrews could not win Berlin won concluded Sir Ralph Cochrane the Air Officer Commanding 5 Group RAF Bomber Command It was just too tough a nut An impressively informative deftly written exceptionally well documented and expertly organized history a seminal work of original scholarship Midwest Book Review **U.S. Air Services** ,1929 **Library of Universal Knowledge** ,1882 **The Nautical Magazine** ,1833 **Nautical Magazine** ,1833 **The Nautical Magazine a Journal of Papers on Subjects Connected with Maritime Affairs in General** ,1833
