Return Of The King The Intellectual Warfare Over Democratic Athens:

The Return of the King Victorino Tejera, 1998 Contents Introduction on the Intellectual History of Democratic Athens A Modern Defense of Xenophon s Oligarchic Socrates The Prelude to the Timaeus and the Atlantis Story On the Ambivalence and Ideology of the Aristotelian Politics In Search of the Unplatonized Prescholastic Aristotle Philosophic Historiography and the Reception History of Plato and Aristotle References and Bibliography **Two Metaphysical Naturalisms** Victorino Tejera, 2014-11-12 Two Metaphysical Naturalisms Aristotle and Justus Buchler provides an American naturalist reading of Aristotle s Metaphysics with extensive literary philological considerations of the original Greek text Victorino Tejera defines and evaluates the underpinnings of the systematic metaphysics of Justus Buchler through the American tradition of reading Aristotle The book expands on classical Greek thought and develops a matured stance on Aristotle s modes of knowing and Justus Buchler s systematic metaphysics Tejera extracts from the Aristotelian Peripatetic metaphysics the core of Aristotle s discussion of existence as existence by keeping track of the Peripatetic and Platonist interpolations of the editors who brought the text into being The book also summarizes Buchler s Metaphysics of Natural Complexes in less technical terms to make it more accessible With the help of Justus Buchler Tejera reintroduces the concept of metaphysics as coordinative analysis Finally bridging the classical with the modern Tejera reveals a cohesive revitalization of metaphysical naturalism for contemporary scholars and students of both ancient and modern philosophy **The Third Way** Francisco J. González, Francisco J. Gonzalez, 1995 The study of Plato s dialogues has traditionally oscillated between two paradigms one that portrays the dialogues as treatises expounding doctrines and one that sees them as purely skeptical rhetorical or literary This collection of new essays by twelve noted Plato scholars illustrates the fruitfulness of breaking away from those paradigms which have divided Platonic scholarship and led it to a number of dead ends While the essays are diverse in their approaches each seeks to find a third way to understand Plato reading him as neither a dogmatist nor a skeptic but as a philosopher capable of reconciling the content and form of his writings **Democracy as the Political Empowerment of the People** Majid Behrouzi, 2005-01-01 This book along with its companion volume Democracy as the Political Empowerment of the Citizen relates the democratic potential of the latest electronic technologies to the idea of direct participatory democracy Taking a critical look at the past and present theories of democracy this volume clarifies the original meaning of the idea of democracy and explains the distortions it has suffered throughout its long history **Speculation** Gayle Rogers, 2021-07-06 In the modern world why do we still resort to speculation Advances in scientific and statistical reasoning are supposed to have provided greater certainty in making claims about the future Yet we constantly spin out scenarios about tomorrow for ourselves or for entire societies with flimsy or no evidence Insubstantial speculations from utopian thinking to high risk stock gambles often provoke fierce backlash even when they prove prophetic for the world we come to inhabit Why does this hypothetical way of thinking generate such controversy In this cultural literary and intellectual history Gayle

Rogers traces debates over speculation from antiquity to the present Celebrated by Boethius as the height of humanity's mental powers but denigrated as sinful by John Calvin speculation eventually became central to the scientific revolution's new methods of seeing the natural world In the nineteenth century writers such as Jane Austen used the concept to diagnose the marriage market redefining speculation for the purpose of social critique Speculation fueled the development of modern capitalism spurring booms busts and bubbles and recently artificial intelligence has automated the speculation previously done by humans with uncertain and troubling consequences Unraveling these histories and many other disputes Rogers argues that what has always been at stake in arguments over speculation and why it so often appears so threatening is the authority to produce and control knowledge about the future Recasting centuries of contests over the power to anticipate tomorrow this book reveals the crucial role speculation has played in how we create and potentially destroy the future

Rewriting the History of Ancient Greek Philosophy Victorino Tejera, 1997-11-20 This book examines what we can reliably know about Plato and the historical Socrates It shows how pervasively the sources of information were biased by Pythagoreanism Platonism and Neoplatonism It gives a source critical account of how the climate of opinion in fourth century Athens was captured by the Pythagoreans and how Speusippos's Academy also came to be pythagorized adding definitional idealism to Pythagorean number idealism and elevating Plato to a divine level that makes him into a coequal of Pythagoras thus capturing Plato for Pythagoreanism By showing how Plato's dialogues were dedramatized dedialogized and read or understood as if they were works expounding pythagorizing doctrine Tejera has created a provocative reappraisal for scholars of ancient Greek philosophy **American Book Publishing Record**, 1997-09 **Plato's Dialogues One by One** Victorino Tejera, 1999-05-13 Plato's Dialogues One by One interprets and contextualizes each of Plato's dialogues Victorino Tejera analyzes and explains the content and intellectual quality of the dialogues highlighting their dramatic aliveness and historico political allusiveness He treats each dialogue according to its own integrity not imposing any system outside of their individual composition and with an even handedness that does not place too much emphasis on any aspect or neglect any included concept With this approach Tejera seeks to free Plato from the constraints constructed by Academia and to treat him as the open minded intellectual son of Socrates releasing the free flying swan that in the myth became the home of the soul of the master **Choice**, 2006-03 **Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004

Forthcoming Books Rose Army, 1997-12 Political Dissent in Democratic Athens Josiah Ober, 2011-11-28 How and why did the Western tradition of political theorizing arise in Athens during the late fifth and fourth centuries B C By interweaving intellectual history with political philosophy and literary analysis Josiah Ober argues that the tradition originated in a high stakes debate about democracy Since elite Greek intellectuals tended to assume that ordinary men were incapable of ruling themselves the longevity and resilience of Athenian popular rule presented a problem how to explain the apparent success of a regime irrationally based on the inherent wisdom and practical efficacy of decisions made by non elite citizens The problem

became acute after two oligarchic coups d'état in the late fifth century B.C. The generosity and statesmanship that democrats showed after regaining political power contrasted starkly with the oligarchs' violence and corruption. Since it was no longer self-evident that better men meant better government, critics of democracy sought new arguments to explain the relationship among politics, ethics, and morality. Ober offers fresh readings of the political works of Thucydides, Plato, and Aristotle among others by placing them in the context of a competitive community of dissident writers. These thinkers struggled against both democratic ideology and intellectual rivals to articulate the best and most influential criticism of popular rule. The competitive Athenian environment stimulated a century of brilliant literary and conceptual innovation. Through Ober's recreation of an ancient intellectual milieu, early Western political thought emerges not just as a footnote to Plato but as a dissident commentary on the first Western democracy.

Subject Guide to Books in Print, 1991 *Daimōn*, 1995 *The Unrivalled History of the World, Containing a Full and Complete Record of the Human Race from the Earliest Historical Period to the Present Time, Embracing a General Survey of the Progress of Mankind in National and Social Life, Civil Government, Religion, Literature, Science and Art* Israel Smith Clare, 1893 Ancient oriental nations and Greece, 1897

Ancient Greece and Rome Israel Smith Clare, 1889 **Science in the Ancient World** Russell M. Lawson, 2021-09-23

Science in the Ancient World presents a worldwide history of science from prehistoric times through the medieval period. It covers Europe, Africa, Asia, and the Americas and includes topics ranging from alchemy and astrology to psychology and physics. This work spans prehistory to 1500 CE, examining thousands of years of history in four world regions: Asia, Africa, Europe, and the Americas. Highlights of this period include the onset of civilization and science in Mesopotamia and Egypt; the accomplishments of the ancient Greeks between 700 BCE and 100 CE; the adaptation of Greek science by the Romans; the spread of Greek science during the Hellenistic Age; the expansion of Islamic power and commensurate scientific knowledge; and the development of science and philosophy in ancient China and India. Focusing on the history of the science that blossomed in the above regions, scientific disciplines covered include alchemy, astronomy, astrology, agriculture, architecture, biology, botany, chemistry, engineering, exploration, geography, hydraulics, institutions of science, marine science, mathematics, medicine, meteorology, military science, myth and religion, philosophy, philosophy of science, psychology, physics, and social sciences. In all of these fields, theory and application are explored, as are leading individuals and schools of thought, centers of intellectual activity, and notable accomplishments and inventions.

The Encyclopaedia Britannica, 1911 **The Encyclopaedia Britannica** Hugh Chisholm, 1911

This book delves into Return Of The King The Intellectual Warfare Over Democratic Athens. Return Of The King The Intellectual Warfare Over Democratic Athens is an essential topic that must be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Return Of The King The Intellectual Warfare Over Democratic Athens, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Return Of The King The Intellectual Warfare Over Democratic Athens
 - Chapter 2: Essential Elements of Return Of The King The Intellectual Warfare Over Democratic Athens
 - Chapter 3: Return Of The King The Intellectual Warfare Over Democratic Athens in Everyday Life
 - Chapter 4: Return Of The King The Intellectual Warfare Over Democratic Athens in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of Return Of The King The Intellectual Warfare Over Democratic Athens. The first chapter will explore what Return Of The King The Intellectual Warfare Over Democratic Athens is, why Return Of The King The Intellectual Warfare Over Democratic Athens is vital, and how to effectively learn about Return Of The King The Intellectual Warfare Over Democratic Athens.
 3. In chapter 2, this book will delve into the foundational concepts of Return Of The King The Intellectual Warfare Over Democratic Athens. This chapter will elucidate the essential principles that need to be understood to grasp Return Of The King The Intellectual Warfare Over Democratic Athens in its entirety.
 4. In chapter 3, this book will examine the practical applications of Return Of The King The Intellectual Warfare Over Democratic Athens in daily life. The third chapter will showcase real-world examples of how Return Of The King The Intellectual Warfare Over Democratic Athens can be effectively utilized in everyday scenarios.
 5. In chapter 4, the author will scrutinize the relevance of Return Of The King The Intellectual Warfare Over Democratic Athens in specific contexts. The fourth chapter will explore how Return Of The King The Intellectual Warfare Over Democratic Athens is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, the author will draw a conclusion about Return Of The King The Intellectual Warfare Over Democratic Athens. This chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Return Of The King The Intellectual Warfare Over Democratic Athens.
