Campaign Major James R. Smith,2014-08-15 This study evaluates Confederate cavalry operations 12 June to 3 July 1862 as a
prelude to and as a part of the Seven Days Campaign General Robert E Lee s Seven Days Campaign succeeded in defeating a
Union offensive aimed at Richmond Virginia and served as an important turning point in the American Civil War The thesis
seeks to determine the substantive contributions General J E B Stuart s cavalry brigade made to this Confederate victory as
well as to assess the strengths and shortcomings of his particular style of mounted employment Stuart launched an armed
reconnaissance 12 15 June 1862 known thereafter as the Chickahominy Raid that provided intelligence vital to General Lee s
success in the campaign and helped to bolster sagging Confederate morale This was the first of the Confederate cavalry
leader s renowned raids a style of operation that would be adopted by other Confederate mounted units and the Union
cavalry as well Stuart also attempted to strike out independently during the Seven Days Campaign itself but his activities in
this regard were not well synchronized with the rest of Lee s army As a result Stuart missed opportunities to play a more
decisive role in the battles outside Richmond *Amherst Graduates' Quarterly* ,1921 **The writers directory** [Anonymus
