Skepticism, Relativism, and Religious Knowledge Michael G. Harvey,2013-11-06 Skepticism Relativism and Religious Knowledge examines the challenges of skepticism and relativism to religious knowledge after the demise of classical foundationalism Whereas skepticism doubts our capacity to know truth relativism doubts whether we can find a sufficiently objective perspective to adjudicate strong disagreement about truth Thus relativism involves skepticism about rationality rather than truth In developing a critique of responses to these challenges by Karl Barth and Reformed epistemology Michael G Harvey develops a Kierkegaardian perspective on religious knowledge informed by Wittgenstein s philosophy This perspective is based on a hermeneutical model of rationality that appeals to what we hold in common rather than private and parochial foundations in order to settle disagreement Although doubt is necessary to produce more truth preserving beliefs we must scrutinize our doubts as well as beliefs in order to prevent the belief forming mechanism of doubt from degenerating into a general mood of skepticism about rationality and truth More fundamentally we must realize that skepticism and relativism are rooted in attitudes of alienation Whereas epistemology aims at a non alienated view of the world Christianity aims at a non alienated way of living through faith that enables both our beliefs and lives to correspond with the truth
