## **Return To Still Point Transcending The Modern Separate Self:**

*Return to Still Point* Jeff Beaudoin, 2005-01 In *Return to Still Point Transcending the Modern Separate Self* Jeff Beaudoin Ph D addresses our potential for achieving an authentic sense of inner peace while living in today's increasingly polarized world. Writing from the perspective of Transpersonal Psychology he provides unique insight into how certain aspects of modern culture and society combine with various personal expressions of false pretense to effectively hinder an authentic life. Without apology Dr Beaudoin suggests that to effectively transcend these obstacles we need to first get out of our own way. More importantly his book provides practical guidelines for actually doing so along the transformative path to authentic Self realization. He begins by offering the reader the following directive: There is in every child a noble level of resistance to the suffocation of his or her light and within every imprisoned adult an innocent child who longs to be free. Choose to consider the possibilities, expand your awareness. The entire universe is within you, you belong to it and it to you. To whatever degree your memory serves you identify with the essence of your being that still flickers inside; however starved it may seem. By adding fuel to that fire you can, beyond all doubt, reclaim the indescribable sense of peace and love that lies dormant in your heart. Your life is God's gift to you; your salvation lies in the decision to make it your gift to God. Heuvel, 2018-11-28 This open access book brings together works by specialists from different disciplines and continents to reflect on the nexus between leadership, spirituality and discernment, particularly with regard to a world that is increasingly volatile, uncertain, complex and ambiguous (VUCA). The book spells out first of all what our VUCA world entails and how it affects businesses, organizations and societies as a whole. Secondly, the book develops new perspectives on the processes of leadership, spirituality and discernment, particularly in this VUCA context. These perspectives are interdisciplinary in nature and are informed by, e.g., management studies, leadership theory, philosophy and theology. **Towards a New Dharma of**

**Peace Building** Ananta Kumar Giri, Saji Varghese, 2024-03-08 This volume deals with a new Dharma of peacebuilding and conflict transformations, drawing on the world's philosophical, religious and spiritual traditions and many recent initiatives and experiments with peace. It deals with issues of sustainable peace, Dharma and Ubuntu of peace from African traditions, neurological insights of peacebuilding traditions, conscientious objection, Satyagraha, possibilities of Gandhian Ahimsa and moral and ethical limits of conflict and conflict resolution. It also presents the works of peace thinkers and activists such as Spinoza, Abhinavagupta, Tolstoy, Gandhi, Ulrich Beck and others. It offers new initiatives and experiments in peace in different parts of the world: Palestine, Israel, Colombia, the Middle East, India and South Africa. This pioneering and handy book is of interest to students, scholars, teachers and activists working in peace and conflict studies, development studies, cultural studies and religious studies, as well as in different civil society organizations around the world. Confronting Confucian Understandings of the Christian Doctrine of Salvation Paulos Zhanzhu Huang, 2009 A complete exploration is the first

systematic analysis ever comparing the central religious doctrinal aspects of Christianity with those in Confucianism Huang's work carefully covers the whole history of the Confucian Christian tradition and ends up with genuinely new insights He elaborates on the idea of transcendence in the Confucian tradition in a manner which enables an interpretation of the Christian means of salvation His explanation of transcendence and its connection with the means of salvation is new and unique offering a clue to the special understanding of salvation germane to the specifically Chinese intellectual history Huang's book is a must for anyone interested in the Sino Western cultural encounter Thinking Faith Anthony J. Kelly, 2017-11-01 The title of this collection of essays is Thinking Faith Moods Methods and Mystery and it might need a word of explanation The aim is to suggest something of what is involved in thinking faith while indicating examples of my modest contribution over all these years Given the exuberant data of faith beliefs doctrines and tradition the task of the theologian is always to reflect on what is so richly given and to communicate in the most telling fashion its meaning There are certainly moods that colour the way we think even though theological writing must show an intellectual concentration of some kind That is quite compatible with a great variety of approaches sometimes more hopeful sometimes more sober defensive and argumentative There is also the question of methods The strange thing about a particular theological method or style of thought is that it is seldom an explicit series of procedures It is something more spontaneous and formed through the practices of many years Quite clearly in this collection of writings a number of methods is implied Whatever the mood whatever the method the mystery remains of God Christ and who we are in that light To this degree theology is a way of thinking within mystery not outside it In this respect doing theology is humbling for us theologians when confronted with the limited span of our knowledge and our poor capacities to express it There always remain infinite expanses of what is not yet given us to see so to leave theologians inarticulate in splendid defeat And yet so much has been given even in the most routine life of the Church in its Scriptures its sacraments and in the luminous witness of the many who have gone before us and live now in the light

**Mystery Hidden Yet Revealed** Marie Theresa Coombs, 2003-09-02 This work focuses on a reality central to each human life and basic to every branch of theology namely the immanent transcendence of God This study begins by exploring that theme of mystery hidden yet revealed from the perspective of the interrelationship of transcendence self actualization and creative expression The book goes on to describe the interplay of those three elements in the lives and the works of Thomas Merton monk and writer and Georgia O Keeffe artist People from a wide variety of backgrounds and traditions will find this study a stimulating source of insight for their spiritual quest **Religious Thought and the Modern Psychologies** Don S. Browning, Terry D. Cooper, Religious Thought and the Modern Psychologies has pioneered the broader and deeper critique of psychological theories and practice Informed by hermeneutical theory Browning's widely acclaimed work drew much needed attention to the ethical and metaphysical even religious assumptions that underlie present day psychology It has been deeply influential in many social sciences in addition to the fields of pastoral counseling and practical theology In this much needed

second edition Browning and his new co author show how the field of social science has indeed grasped and appropriated the hermeneutical approach though with only slight appreciation of the religious dimensions of the social scientific endeavor Browning and Cooper provide a completely new first chapter newly situating the discussion and update the core chapters of the book They also add two new chapters carrying the dialogue on with three new psychotherapeutic theorists then with new evangelical writers on the relation of theology and psychology This new edition like its predecessor will set the stage for the religion psychology dialogue for years to come

**Ethics and the Between** William Desmond, 2001-01-01 Articulates the necessity for a comprehensive reconstructive thinking about the meaning of being good

Returning to Tillich Russell Re Manning, Samuel Andrew Shearn, 2017-12-04 Fifty years after his death in 1965 the essays in this collection return to Paul Tillich to investigate his theology and its legacy with a focus on contemporary British scholarship Originating in a conference held in Oxford in 2014 the book contains 16 original contributions from a mixture of junior and more established scholars most of whom have a connection to Britain The contributions are diverse but four themes emerge throughout the volume Several essays are concerning with a characterisation of Tillich's theology In dialogue with recent emphases on the radical Tillich some essays suggest a more conservative estimation of Tillich's theology rooted in the Idealist and classical Christian platonic traditions whilst in constant engagement with changing existential situations Secondly and perhaps reflecting the context of religious diversity and theories of religious pluralism in Britain many essays engage Tillich's approach to non Christian religions Thirdly some essays address the importance of existentialist philosophy for Tillich notably via an engagement with Sartre Finally a number of essays take up the diagnostic potential of Tillich's theology as a resource for engaging contemporary challenges

**Moral Creativity** John Wall, 2005-08-11 Wall argues that moral life is inherently creative In arguing his case he places the work of Paul Ricoeur in the larger context of historical contemporary conversations about moral transformation drawing connections between sin tragedy ethics poetics between the moral life religious mythology

Art, Origins, Otherness William Desmond, 2012-02-01 Though our time is often said to be post religious and post metaphysical many continue to seek some encounter with otherness and transcendence in art This book deals diversely with the issues of art origins and otherness both in themselves and in philosophical engagements with the works of Plato Kant Hegel Schopenhauer Nietzsche and Heidegger Addressing themes such as eros and mania genius and the sublime transcendence and the saving power of art William Desmond tries to make sense of the paradox that too much has been asked of art that now almost nothing is asked of it He argues that there is more to be said philosophically of art and claims that art has the power to open up mindfulness beyond objectifying knowledge as well as beyond thinking that claims to be entirely self determining

**God and the Between** William Desmond, 2008-04-15 An original work which rethinks the question of God in a constructive spirit drawing its conclusions by considering ideas received from both philosophy and religion Makes an important new contribution to the ongoing scholarly debates surrounding the intersection of philosophy

and religion Suggests that this junction is not just dictated by religion having to prove its credentials to rational philosophy but that it is also a matter of philosophy wondering if religion is the ultimate partner in dialogue Includes discussion of a wide range of significant thinkers both traditional and contemporary such as Plotinus Spinoza Kant Hegel and Nietzsche and his successors Completes a trilogy of works by William Desmond complementing its companion volumes Being and the Between and Ethics and the Between *The Cambridge Handbook of Comparative Law* Mathias Siems, Po Jen Yap, 2024-02-01 Comparative law is a common subject matter of research and teaching in many universities around the world and the twenty first century has aptly been termed the era of comparative law This Cambridge Handbook of Comparative Law presents a truly global perspective of comparative law today The contributors are drawn from all parts of the world to provide different perspectives on how we understand the law and how it operates in practice In substance the Handbook contains 36 chapters covering a broad range of topics divided under the following headings Methods of Comparative Law Part I Legal Families and Geographical Comparisons Part II Central Themes in Comparative Law Part III and Comparative Law beyond the State Part IV **Nietzsche and the Rhetoric of Nihilism** Tom Darby, Bela Egyed, Ben Jones, 1989-07-15 New readings and perspectives on Nietzsche s work are brought together in this collection of essays by prominent scholars from North America and Europe They question whether Nietzsche s work and the conventional interpretation of it is rhetorical and nihilistic **Transcending the Levels of Consciousness** David R. elegantly blends spirituality psychology and philosophy to create a comprehensive roadmap to unlock the divine potential within you so that you can step into a higher consciousness      Sex, Ecology, Spirituality Ken Wilber,2001-01-02 Hailed as one of the most significant books ever published this work of far reaching vision is a comprehensive exploration of the evolution of human consciousness In this tour de force of scholarship and vision Ken Wilber traces the course of evolution from matter to life to mind and describes the common patterns that evolution takes in all three of these domains From the emergence of mind he traces the evolution of human consciousness through its major stages of growth and development Wilber particularly focuses on modernity and postmodernity what they mean how they impact gender issues psychotherapy ecological concerns and various liberation movements and how the modern and postmodern world conceive of Spirit This second edition features forty pages of new material new diagrams and extensively revised notes      *Eastern Belief Systems and Classical Homeopathy* Jeaneane Fowler,2023-04-01 The many correlations between philosophical concepts in Eastern belief systems and the thought and practice of classical homeopathy have never been thoroughly explored The homeopathy content of the arguments presented is mainly though not exclusively classical homeopathy that is to say the method that emerges from the original founder Samuel Hahnemann and proceeds to the present day with a belief where possible in one single similimum remedy for the treatment of disease The Eastern belief systems addressed are Hinduism Buddhism Taoism and Jainism Relevant detours include the mystical aspects of Islam as expressed in Sufism and points of contact with Christian faith Chapters include Fundamental concepts The vital force The interrelated Universe Holism The pathological self Imbalance disease and its symptoms Miasmatic pathology Remedies Potentization Cure The purification of consciousness Homeopathy and the Coronavirus      A New Exploration of Hegel's Dialectics II Deng Xiaomang,2022-05-10 Focusing on the self negation and reflective forms of Hegel s dialectics and representing the spirit of nous and logos respectively this volume explores core functions in the subjectivity free spirit and practicality of Hegelian dialectics As the second volume of a three volume set that gives insights into Hegel s dialectics and thereby his overall philosophical thought the book proposes and discusses the soul and form of Hegelian dialectics As the soul of Hegel s dialectics which represents the spirit of nous self negation plays a fundamental role in Hegel s philosophy and all other dialectical laws derive from this core principle with which the subjectivity and free spirit of Hegel s dialectics take shape along with their essential practicality The form of expression belonging to this negative dialectic as such is the reflective mode of thinking that represents the spirit of logos and it is this reflective mode of thinking that follows the logical procedure of reflecting on reflection rendering the progression of Hegel s dialectical subject lawful rational and logical The title will appeal to scholars and students interested in Hegel s and Marx s philosophy German classical philosophy and Western philosophy      **Another Finitude** Agata Bielik-Robson,2019-05-30 Beginning from the notion of finite life Another Finitude takes this staple subject from post Heideggerian philosophy and opposes it to the onto theological concept of infinity represented by an eternal absolute

Although critical of Heidegger and his definition of finitude as being towards death this book does not revert to the ontological idea of infinity secured in the sacred image of immortality But it also does not want to give up on infinity altogether the infinite is transposed so it can become a necessary moment of the finite life A theological framework for the new elaboration of the concept of finitude is crucial but instead of following the Lutheran formula Agata Bielik Robson turns to the sources of Judaism Taking inspiration from the Jewish idea of *torat hayim* the principle of finite life which found the best expression in the biblical sentence *love strong as death* love emerges as the alternative marker of finitude allowing to us redefine it in an affirmative way By tracing the avatars of love in the group of 20th century thinkers or messianic vitalists Benjamin Rosenzweig Arendt Derrida and deeply revised Freud the book attempts to demonstrate the possibility of such affirmation Love becomes the new infinite in the finite love in all its forms from the original libidinal endowment of the human psyche to the last metamorphoses of *agape* the Greco Christian divine love
