Weed, 1923 **The Imperial Yeomanry Hospitals in South Africa, 1900-1902** Imperial Yeomanry Hospitals Committee, 1902 Chimborazo Carol C. Green, 2007-02 Chimborazo Hospital just outside Richmond Virginia served as the Confederacy s largest hospital for four years During this time it treated nearly eighty thousand patients boasting a mortality rate of just over 11 percent This book the first full length study of a facility that was vital to the Southern war effort tells the story of those who lived and worked at Chimborazo Organized by Dr James Brown McCaw Chimborazo was an innovative hospital with well trained physicians efficient stewards and a unique supply system Physicians had access to the latest medical knowledge and specialists in Richmond The hospital soon became a model for other facilities The hospital s clinical reputation grew as it established connections with the Medical College of Virginia and hosted several drug

and treatment trials requested by the Confederate Medical Department In fascinating detail Chimborazo recounts the issues trials and triumphs of a Civil War hospital Based on an extensive study of hospital and Confederate Medical Department records found at the National Archives along with other primary sources the study includes information on the patients hospital stewards matrons and slaves who served as support staff Since Chimborazo was designated as an independent army post the book discusses other features of its organization staff and supply system as well This careful examination describes the challenges facing the hospital and reveals the humanity of those who lived and worked there Medical Officers on the Infamous Burma Railway ,2022-02-24 In 1944 a compilation of medical reports from the main prisoner of war work camps along the infamous Thailand Burma railway was submitted to General Arimura Tsunemichi commander of the Japanese Prisoner of War Administration The authors stated that the reports were neither complaints nor protests but merely statements of fact The prisoners received only one reply that all copies of the documents must be destroyed As one officer later recalled Of course this was not done and copies of these reports survived stored away in dusty files for future generations to learn the truth Work on the railway began in June 1942 the Japanese using mainly forced civilian labour as well as some 12 000 British and Commonwealth PoWs Such is well known So are the stories of ill treatment and brutality many of which have been published The vast majority of these accounts however were written after the war colored by the sufferings the men had endured The reports presented here are quite unique for they were written by the medical officers in the camps as the events they describe were unfolding before their eyes The health and well being of the PoWs was the medical officers primary concern and these reports enable us to learn exactly how the men were treated fed and cared for in unprecedented detail There are no exaggerated tales or false memories here merely facts shocking and disturbing though they may be We learn how the medical officers organised their hospitals and dealt with the terrible diseases beatings and malnutrition the men endured As the compilers of the reports state 45 per cent of the men under their care died in the course of just twelve months But equally we find that the prisoners did have a voice and had the facilities and the courage to write and submit such reports to the Japanese perhaps contradicting some of the long held beliefs about conditions in the camps Through the words of the Medical Officers themselves some of the detail of what really happened on the Death Railway for good or ill is revealed here *In Memoriam.
