Returning to Reality Phillip M. Thompson, 2012-11-14 This book synthesizes the diverse reflections on technology by monk and spiritual writer Thomas Merton to develop a compelling contemplative critique of the threats and challenges of nuclear war communication technologies and biotechnologies that may alter what it means to be human At the core of his critique Merton opposes a technological mentality that favors processes of efficiency and utility at the expense of our ultimate purpose a quest for the wisdom to guide us to the divine source of our being and reality To counter this modern idolatry Merton s insights offer a path of reflection balance and community More specifically Merton offers some constructive approaches and healing possibilities through a balanced approach to work a careful and intentional managing of technology and an accessing of the recuperative dimensions of nature In its conclusion the book brings the insights of these chapters together for a final reflection on how to maintain our humanity and our spiritual integrity in a technological world

Values of Our Times Deshun Li,2013-06-01 Philosophers have gradually accepted axiology as one branch of philosophy As a basic category belonging to axiology and philosophy value is the general abstraction of concrete value formation in various fields including utility ethics and appreciation of the beauty The problem of value is essentially a problem of historical activities of practice in human society The axiology based on the scientific practice view insists on the principle of unification between theory and practice truth and value In research of axiology the relation between subjectivity and objectivity of values is a problem that must be solved in the first place The modern conversation of value philosophy is the academic and practical demands of the value philosophy research in China Value evaluation is an important part of the axiology In order to deepen the research of value philosophy and to promote the development of current value philosophy we must have scientific mode of thinking suitable for the nature of value It is the base of value relation the origin of value needs the process of value creation and actualization and the fundamental way to proving ones value as a human being **Making Affordable Housing a Reality** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Housing and Community Development,1984 *A Theology of the Jewish-Christian Reality* Paul Matthews Van Buren,1995

This is the first and most referred to Christian systemic theology to make clear for the Church the relevance of the continuing existence of the Jewish people to every aspect of its theology. The three volumes set out to correct a major and central deficiency in the field that the continuing existence of Israel the people of God and the people of Jesus whose ancestors produced by far the largest part of the Church's Bible and who have lived by the covenant of those Scriptures through the ages has been either ignored or treated negatively. A Theology of the Jewish Christian Reality continues to stimulate fresh thinking about the foundations for responsible theological reflection. This second volume makes an original contribution to the Church's theology by drawing on the insights and discoveries of Jewish thought and life. Van Buren argues that God's election of the Jewish people as his witnesses remains in force and calls the Church to listen to that witness. Animals in Heaven- Fantasy or Reality Arch Stanton, 2006-06-02

Animals have been with us since the state of existence or being. The bible tells us God created the animal kingdom for his pleasure. When God created the heaven and earth and all life that exist he obviously saw a need for animals or they would not be here. Why God created them in the shapes and forms as they were we do not know the choice was his and as I mentioned He chose to do so in a way that pleases him. Animals have a mind that gives them the ability to think and have feelings. Animals have a certain intelligence we do not possess such as an internal guidance system. Both dogs and cats have this ability and I would imagine there are other animals as well. God created everything with a purpose and a need. The animal kingdom is one such example. Many people believe God's purpose for animals is to serve humankind and upon death they are to perish with no possible chance for eternal life. However does the bible teach this? In the first chapter of the book of Genesis the bible tells us God considered the animals a creation that was very good he was pleased with them. Many people consider the life of an animal as having a very small worth. To them an animal just lives and dies. Many people have the attitude of so what. The bible tells us God doesn't care for an attitude such as this because he values the life of his animals very much. Throughout the entire bible the information found pertaining to the animal kingdom is very precise. The bible tells us the animals are to be forever. God had this intention when he created them and this application of thought remains today and forever. The bible never mentions mankind alone is to receive eternal life. How different would our lives be without animals. There would be no pets for those who are lonely and without family. There would be no zoos for family outings. There would be no circus acts with animals. There would be no dog as a best friend. There would be no Seeing Eye dogs. There would be no animals to alert their owners of an ever present danger during the night such as fires burglars etc. I believe we simply overlook the fact there is a purpose for all of God's creatures. The purpose for this book is to reveal the truth in what the bible tells about the animal kingdom. We need to know God's purpose for them. The bible explains in detail God's plan for his animals even after death. God wants us to know about them or he would never have emphasized their importance in his word. Many people are reluctant to discuss the animal kingdom from a biblical point of view. I find this strange to say the least. God

has included them in his written word but many ministers will say very little if anything about them The scriptures in this book are from the King James Bible What the bible tells us is 100% accurate and lest we never forget God simply made no mistakes in his word The bible is never contradictory We will read scriptures that clearly explain that animals will be in heaven and why God wants them to be there with us If we had the power to give our pet s eternal life would we want the life of our animals to be temporal If God loves his animals more than we could ever love them shouldn t this type of love indicate his love for them is tremendous Since we know God can give animal s eternal life could be there any single reason to give them life that would be only temporary First we should know the bible is not dull dismal or neutral The bible is not an area between two extremes having mingled characteristics of both of them a situation in which there are no clear cut distinctions The interpretations of scriptures have been defined several ways over the years and this has cause confusion in many churches We will read scriptures about the animal kingdom that many of you may not know are in the bible We will read scriptures that are clearly stated to mean one thing and one thing only and that is Animals are to be in heaven By the time you have finished this book you will have a better understanding for the purpose of the animal kingdom You may then decide if the scriptures do indeed tell us animals have a soul do they have a spirit did God create them with a purpose in this life is he going to give them eternal life With God s help you will decide For more information please visit www.dutchman3d.com
