World War II the forced repatriation of two million Russian POWs to certain doom The Times London At the end of the Second World War a secret Moscow agreement that was confirmed at the 1945 Yalta Conference ordered the forcible repatriation of millions of Soviet citizens that had fallen into German hands including prisoners of war refugees and forced laborers For many the order was a death sentence as citizens returned to find themselves executed or placed back in forced labor camps Tolstoy condemns the complicity of the British who ardently followed the repatriation orders **Heaven and Hell Are Full** Steve Canada,2014-02-28 The result of years of research the eight chapters in this book are excerpts from earlier unpublished books by the author They offer a collection of angels names from major religions found encoded in the Torah names not necessarily found in the surface text but found when a Bible code program is used to uncover some of the secrets buried deep in the sacred text **Returning to Eden** John Mazurk,2018-02-15 For thousands of years humankind questioned what happens when we die Philosophers and religious leaders searched for an answer Often the answer was after dying one s spirit goes to a paradise What happens when we no longer die Do we ever go to a paradise Returning to Eden is a story of what humankind needs to do when it achieves immortality in this existence It will be at least 250 years before humankind achieves immortality Preparing for that eventuality will be difficult The book addresses not only the scientific advancements required for immortality but also religion social mores and folkways economic science educational methods political science resources requirements and other factors affected by humankind s achievement The story takes place 100 years in the future when technical advancements provide a means for communication using artificial intelligence devices augmenting university professors lecturing from different locations on Earth and Moon for a universal symposium Unfortunately for humankind even 100 years in the future people will still be engaged in hostile conflicts These conflicts continually interrupt the symposium and it takes the efforts of government and university security personnel to resolve the situation How they do it is futuristic and not simple The Return of Eden Northrop Frye,1965-12-15 I am talking about Milton because I enjoy talking about Milton This statement made by Northrop Frye at the beginning of The Return of Eden sets the tone for the entire book Presented informally it is filled with the vast learning and demonstrates the imaginative magnitude we have come to expect of this distinguished critic the brilliant argument and the pleasantly witty presentation will inform and delight The first four essays in the volume deal with Paradise Lost Frye discusses the form and tradition of the epic the role of the Son of God a construction of the cosmology of the poem as a framework for its imagery the reasons for Milton s presentation of the behaviour of Adam and Eve and by analogy of human society before and after the fall He also deals with Milton as a revolutionary who disillusioned with the failure of the English people a free commonwealth was finally compelled to find the true revolution within the individual These four chapters are based on the Centennial Lecture Series which marked the one hundredth anniversary of Huron College University of Western Ontario The fifth essay in the book Revolt in the Desert discusses the structure and content of Paradise Regained **Return to Eden** Jason Reider,2018-10-23
