**Beauty and the Good** Alice M. Ramos,2020-10-30 In the past twenty years or more there has been a growing interest among philosophers and theologians alike in the transcendentals and especially in the beautiful This seems fortuitous since so much of contemporary culture is fixated in many ways on beauty on what might be called a superficial or man made beauty intent on outward appearance with little or no concern for the human person s interiority and distinctive nature The Ancients and the Medievals on the contrary were sensitive not only to the beauty of nature and art but also to beauty as intelligible that is to the beauty of moral harmony and of metaphysical splendor While the question of whether the beautiful is in fact a transcendental aspect of being continues to be a subject of dispute in contemporary scholarship the relationship between the beautiful and the good has been accepted since ancient times and has been attended to in recent publications None of these publications however offers a systematic treatment of this relationship by drawing from the wisdom of both ancient and medieval thought in such a way as to bring together the work of scholars in this tradition Beauty and the Good intends therefore to make a singular contribution by presenting a richer alternative to the contemporary cult of beauty and appearance on the one hand and to the concomitant decline of real beauty on the other hand In addition to highlighting the centrality of beauty in the Aristotelian account of moral virtue where virtue is kalon and virtuous actions are done for the sake of kalon an account which is found echoed in the medieval notion of intrinsic goodness bonum honestum understood as intelligible or spiritual beauty this volume will provide the metaphysical and theological grounding for beauty as influenced in part by Plato and Neoplatonism together with a much needed account of how we know and judge beauty and how for the recognition of true good and real beauty we need to be properly disposed The integration of philosophical and theological reflection on the nature and relationship of beauty and the good on our perception and judgment of beauty and of the good as beautiful and on the motivational role of beauty in human action has as its goal to produce a coherent volume of essays

Practicing Christians, Practical Atheists Phil Davignon,2023-02-02 The task of living

faithfully within today's secular culture is one of the most important issues facing Christians. Yet many misunderstand what culture is and how it shapes their hearts, minds, and souls. This book extends the work of James K. A. Smith by revealing how the secularizing influence of modern culture is not only transmitted through cultural liturgies but has become embedded within the seemingly harmless practices, everyday practices of education, work, consumption, and leisure. As a result, even practicing Christians may become practical atheists who have thoroughly internalized secular dispositions of mind and heart. This deeper understanding of cultural formation calls into question many of the dominant approaches to ministry and formation. Rather than merely offering information and inspiration, congregations must become sites of counter-formation that enable their members to fully embody the Christian faith within everyday life.

new interpretive possibilities In these interpretations each human like figure opens up onto the world's matter as an interdependent part of it and matter is thoroughly mixed with divinity Such mythic readings complement our factual scientific understanding of the material world to engage wider kinds of knowing and affective attention particularly Wisdom's combination of care and delight
