Hilton Kramer

Revenge Of The Philistines Art And Culture 1972 1984:

The Revenge of the Philistines Hilton Kramer, 1985 Kramer former New York Times art critic has assembled a collection of his reviews along with a smattering of essays In his hymn to New York's renovated Museum of Modern Art he notes that its formalist outlook tends to lead to a false sense of orthodoxy Yet these reviews which rigorously apply his own formalist standards of what constitutes modern art miss out on much of what is vital and meaningful in today's highly variegated art scene Kramer is appalled by political art most of which he argues lacks artistic merit he doubts whether any great art can be political In surveying the 80s rebirth of realism he reassures us that many new realists are not antimodernist or antiabstractionist One piece agonizes over whether Saul Steinberg should be considered an artist A somewhat condescending essay on Max Ernst sets him above the muddled narcissism said to mar many other surrealists Other subjects range from Rodin to Walker Evans selections were culled from the New York Times New Criterion which Kramer edits

The Postmodernist Turn J. David Hoeveler, Jr., 2004-10-05 During the 1970s the United States became the world's preeminent postindustrial society The new conditions changed the way Americans lived and worked and even their perceptions of reality Americans struggled to find their place in a world where symbol became more important than fact appearance more important than reality where image supplanted essence In this reassessment of a little studied decade J David Hoeveler Jr finds that the sense of detachment and dislocation that characterizes the postindustrial society serves as a paradigm for American thought and culture in the 1970s The book examines major developments in literary theory philosophy architecture and painting as expressions of a 1970s consciousness Hoeveler also explores the rival political readings of these subjects and considers the postmodernist phenomenon as it became an ideological battleground in the decade Clear and engaging the work will be of great interest to historians theorists and everyone who wants to further explore the 1970s **The Comic Worlds of Peter Arno, William Steig, Charles Addams, and Saul Steinberg** Iain Topliss, 2005 Iain Topliss presents a scholarly study of the drawings by Peter Arno William Steig Charles Addams Saul Steinberg that have graced the pages of the New Yorker magazine

self portrait to advertise its credit cards we have borne witness to a new sort of patronage in which the marriage of individual talent with multinational marketing is beginning to blur the comfortable old distinctions between public and private. Chin tau Wu's book is the first concerted attempt to detail the various ways in which business values and the free market ethos have come to permeate the sphere of the visual arts since the 1980s. Charting the various shifts in public policy which first facilitated the entry of major corporations into the cultural sphere it analyses the roles of governments in injecting the principles of the free market into public arts agencies in particular the Arts Council in Great Britain and the National Endowment for the Arts in the USA. It goes on to study the corporate take over of art museums highlighting the ways in which cultural capital can be garnered by various social and business elites through commercial involvement in the arts and shows how corporations have succeeded in integrating themselves into the infrastructure of the art world itself by showcasing contemporary art in their own corporate premises. Mapping for the first time the increasingly hegemonic position that corporations and corporate elites have come to occupy in the cultural arena this is a provocative contribution to the debate on public culture in Britain and America.
