Mazzotta, 2011-07-28 Major corporations are a part of world wide industry They keep the money flowing they keep the economy rolling But what is a corporation really To Detective Bruno Polidori of the Orlando Police Department a corporation is nothing but a name on paper The goings on of these money monsters have little to do with Bruno's everyday life that is until one night when everything goes wrong An unusual energy flows across the Florida peninsula one night and the corporations suddenly become living breathing human beings Not only are they now among the living but Bruno begins to suspect these newly formed humans are criminal psychopaths He's seen his share before working law enforcement but nothing like this These psychopaths don't just want to wreak havoc they want to bathe the city in greed As the police department struggles to stop the psychopaths by brute force Bruno struggles to understand the psychology of these corporate souls Each one has a unique personality and pathology and in order to stop them he must get close enough to ruin them from the inside Orlando is falling apart around him Detective Bruno Polidori is its only hope if the corporations don't kill him first      **Supreme Court**,

**Merchant Vessels of the United States...** United States. Coast Guard, 1989      **Spenser and the Discourses of Reformation England** Richard Mallette, 1997-01-01 *Spenser and the Discourses of Reformation England* is a wide ranging exploration of the relationships among literature religion and politics in Renaissance England Richard Mallette demonstrates how one of the great masterpieces of English literature Edmund Spenser's *The Faerie Queene* reproduces criticizes parodies and transforms the discourses of England during that remarkable political and literary era According to Mallette *The Faerie Queene* not only represents Reformation values but also challenges questions and frequently undermines Protestant assumptions Building upon recent scholarship particularly new historicism Protestant poetics feminism and gender theory this ambitious study traces *The Faerie Queene*'s linkage of religion to political and social realms Mallette's study expands traditional theological conceptions of Renaissance England showing how the poem incorporates and transmutes religious discourses and thereby tests appraises and questions their avowals and assurances The book's focus on religious discourses leads Mallette to examine how such matters as marriage gender the body revenge sexuality and foreign policy were represented in both traditional and subversive ways in Spenser's influential masterpiece A bold and finely argued

contribution to our understanding of Spenser Reformation thought and Renaissance literature and society Mallette's study will add to the ongoing reassessment of England during this important period      **The Casuistical Tradition in**

**Shakespeare, Donne, Herbert, and Milton** Camille Wells Slights, 2017-03-14 To show how the casuistical tradition illuminates the study of major literary works in the English Renaissance Camille Slights traces the emergence of casuistry in the sixteenth and seventeenth centuries and discusses its influence on the moral imaginations of Shakespeare Donne Herbert and Milton Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **Ladies in Arms** Teresa Hiergeist, Stefanie Schäfer, 2024-03-04 In contemporary popular culture armed women take center stage but how can they be read from a feminist perspective How do films comics and TV series depict the newly fashionable gunwomen between objectification and feminist empowerment The contributions to this volume ask this question from different vantage points in cultural and literary studies film and visual culture studies history and art history They examine military and civic gun cultures the rediscovery of historical armed women and revolutionaries cultural phenomena such as gangsta rap narcocultura and US politics Bollywood and French cinema and distinct genres such as the graphic novel the romance novel or the German police procedural Tatort      **The Peace In Between** Astri Suhrke, Mats Berdal, 2013-03-01 This volume examines the causes and purposes of post conflict violence The end of a war is generally expected to be followed by an end to collective violence as the term post conflict that came into general usage in the 1990s signifies In reality however various forms of deadly violence continue and sometimes even increase after the big guns have been silenced and a peace agreement signed Explanations for this and other kinds of violence fall roughly into two broad categories those that stress the legacies of the war and those that focus on the conditions of the peace There are significant gaps in the literature most importantly arising from the common premise that there is one predominant type of post war situation This post war state is often endowed with certain generic features that predispose it towards violence such as a weak state criminal elements generated by the war time economy demobilized but not demilitarized or reintegrated ex combatants impunity and rapid liberalization The premise of this volume differs It argues that features which constrain or encourage violence stack up in ways to create distinct and different types of post war environments Critical factors that shape the post war environment in this respect lie in the war to peace transition itself above all the outcome of the war in terms of military and political power and its relationship to social hierarchies of power normative understandings of the post war order and the international context This book will of much interest to students of war and conflict studies peacebuilding and IR Security Studies in general      **Shattered Voices** Teresa Godwin

Phelps, 2010-11-24 Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging revenge as a real and deep human need Shattered Voices explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful Shattered Voices contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions Shattered Voices offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed

Shahnama Studies I Charles Melville, 2024-02-12 The first volume in the series Studies in Persian Cultural History is the edited volume based on the papers from the Second Shahnama round table held in 2003 in Cambridge and published by Charles Melville in 2006 The Centre of Middle Eastern and Islamic Studies University of Cambridge The Shahnama or Book of Kings by the Persian poet Firdausi completed in 1010 A D is a verse epic that narrates the history of the Iranian people from the earliest times to the collapse of the Persian Empire in the early seventh century Based on orally transmitted legends and written sources now lost Firdausi's lifetime's work retells the myths and legends of ancient Iran interweaving stories of the successive dynasties and Shahs from the first king Kayumars down to the last ill fated Sasanian monarch Yazdagird III murdered by a miller in the Merv oasis with accounts of combats with monstrous beasts hunting exploits and gargantuan feasting The poem recounts the first ordering of society under Jamshid with the domestication of animals and the learning of crafts the glory and hubris of the Shahs tempted by their power to indulge in acts of tyranny and

folly the strained relations between the rulers and their champions the introduction of Zoroastrianism the legendary conquests of Alexander the Great and finally the contest between Persia and Byzantium for dominion in the Middle East The Shahnama is a defining work of Persian literature providing multi layered paradigms of Iran's experience of monarchical rule of her relations with her neighbours to East and West and of the traditional values of civilised society Although the arbitrary and often cruel workings of Fate frequently determine the course of events Firdausi persistently urges his heroes to take responsibility for their actions guided by the twin virtues of justice and wisdom This volume brings together a collection of papers exploring many different aspects of the Shahnama both as literature and as the object of royal patronage It focuses particularly on the manuscripts in which the poem has been preserved from the thirteenth century onwards and the relationships between Firdausi's text and the rich variety of the miniature paintings created to illustrate it
