Reverence For The Soul:

Reverence for the Soul Richard Schain, 2001-05-15 This is a philosophical work dressed out in journal form It requires readers receptive to a point of view transcending the current intellectually dominant scientific monism The writer develops his conviction that Homo sapiens needs and wants to develop his metaphysical self the soul in traditional terminology The contemporary scientific world view is predicated on an opposite viewpoint which is that there is no such thing as a soul there is only a network of neurons within the brain resulting in physical activities affecting a physical world and creating a physical self Amidst the description of the writer's conflicts with this prevailing world view are interspersed discussions about brain mind relationships about the question of the soul about dualism versus monism and the nature of the real world about purposes in writing and about personal values arising from all these matters Reverence for one's own soul is the ultimate value arrived at by the writer This is not a religious work it may in fact be regarded as anti religious even blasphemous by those disposed to such judgements Nevertheless the writer believes in the value of an intellectual conscience and is not inclined to offend it through deference to superannuated or self serving societal entities offering opiates for metaphysical needs It is well known by now that all genuine philosophy represents the personality and experiences of a philosopher however much it may be covered over with a scholarly style The philosopher wishing to pose in the white coat of the scientific investigator is a ridiculous figure who should be confined to circus entertainment Meaningful value oriented philosophy and what other kind is there is subjective in nature albeit requiring knowledge experience and intellect in its formulation An unpublished monograph of the writer available to those interested is entitled The Subjective Will to Metaphysical Existence This title makes explicit what is presented in more personalized and literary form in Reverence for the Soul

timeless wisdom deep within you **Soul Economy** Rudolf Steiner, 2003-03 13 lectures Nuremberg June 17 30 1908 CW 104 Initiation enables a person to see understand and communicate what may be observed with spiritual eyes St John's text arises from such an initiation It addresses the fundamental questions of existence that every human being asks Where are we Where have we come from Where are we going And because it arises from esoteric Christian vision it emphasizes the task of the individual What am I and what is my purpose now in this era of cosmic and human evolution These talks by Rudolf Steiner unveil the mysteries of John's vision and show it to be a profound description of Christian initiation As Rudolf Steiner says The deepest truths of Christianity may be considered quite naturally in connection with this document for it contains a great part of the mysteries of Christianity that is the profoundest part of what may be described as esoteric Christianity Steiner shows that the messages to the seven churches and the unsealing of the seven seals must be understood as an initiation text Based on his initiation and on spiritual science Steiner interprets John's insights into cosmic and human history In this way the spiritual images of John's writing the twenty four elders the sea of glass the woman clothed with the sun the vials of wrath the lamb and the dragon the new heaven and the new earth and the number of the beast all take on new meaning Since the previous painful century has closed these important words have even greater meaning and significance Readers interested in contributing their moral will to future generations cannot afford to pass them by Includes images of the seven apocalyptic seals painted by G Rettich in 1907 following sketches by Rudolf Steiner This volume is a translation from German of *Die Apokalypse des Johannes* GA 104 **Onward** ,1911 The Last Rites in Sikhism , **Soul Tending** Anita Amstutz, 2018-05-08 We live in hungry times There is economic uncertainty fear violence division and social chaos What is needed for times such as these is a heart full of courage and wisdom grounded in compassion and resilience For this we can turn to one of the practices that for so many centuries nourished people of faith through incredibly difficult life circumstances and service Traditionally it was a communal gathering time of rest ritual and prayer It is Sabbath keeping In *Soul Tending* Anita Amstutz offers field notes and a road map from her own Sabbath keeping practice for the 21st century a practice rooted in tradition but whose tenets can be applied to practices fit for our present hectic and troubling world Anita has written the book in such a way that it can easily be adapted as a study guide Each chapter ends with a list of questions for reflection that are perfect for use by full congregations independent readers and every kind of group in between This provides an accessible and engaging method to a shared understanding of Sabbath keeping in the modern day *An Image of the Soul in Speech* David N. McNeill, 2009-01-01 In this book David McNeill illuminates Plato's distinctive approach to philosophy by examining how his literary portrayal of Socrates manifests an essential interdependence between philosophic and ethical inquiry In particular McNeill demonstrates how Socrates's confrontation with profound ethical questions about his public philosophic activity is the key to understanding the distinctively mimetic dialogic and reflexive character of Socratic philosophy Taking a cue from Nietzsche's account of the problem of Socrates McNeill shows how the questions

Nietzsche raises are questions that in Plato's depiction Socrates was aware of and responded to McNeill also shows how the Republic provides a view of Socratic moral psychology that resembles Nietzsche's account of human psychology it deals with the internalized ethical narratives and justificatory schemes through which human beings orient themselves to their world McNeill argues that this moral psychology not only determines Socrates's explicit account of different character types and political regimes but also crucially informs his dialectical engagements with his various interlocutors in the dialogues In addition to contributing a unique perspective to current debates about Socrates's philosophic methods and the significance of the literary character of Plato's dialogues the book offers a far reaching interpretation of Plato's presentation of the theoretical and practical activities of the fifth century Sophists And in showing how Plato responds to modern theoretical challenges McNeill provides new evidence to question standard views of the differences between ancient and modern conceptions of the self society and nature
