Review Of Contemporary Fiction Spring 04:

Masculinity in Contemporary New York Fiction Peter Ferry, 2014-08-21 *Masculinity in Contemporary New York Fiction* is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction. This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives. Gendering canonical New York writers namely Paul Auster, Bret Easton Ellis, and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning. The themes that feature in this study include the role of the novel in American society, the individual and urban society, the journey from innocence to awareness of masculinity, the archetypal image of the absent and/or patriarchal father, the impact of homosocial relations on the everyday performance of masculinity, male sexuality, and the male individual and globalization. What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature, the flâneur. These authors take the flâneur from the shadows of the Manhattan streets and elevate this figure to the role of self-reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity. This book is an essential reference for those with an interest in gender studies and contemporary American fiction.

Visual Devices in Contemporary Prose Fiction Simon Barton, 2016-01-26 This book acknowledges that the reader of a novel looks at and sees the page before they begin to read any text placed upon it. Thus any disruptions to how a traditional page should look can have a large impact on the reading process. The book critically engages with the visual appearance of graphically innovative contemporary prose fiction.

Literary Memory, Consciousness, and the Group Oulipo Peter Consenstein, 2021-11-08 The question of memory intrigues us more and more as industrialized societies move further and further away from the written word. In the past, the role of memory was integral to literary history; precise mnemonics served as the support systems for erudition, and Mnemosyne was mother of the Muses. The group Oulipo, born in reaction to the Surrealists, proposes invents and applies novel literary constraints. Using memory and best of all, conscious memory as a theoretical starting point, the implications of writing under constraint are analyzed. First, writing under constraint is viewed as a new mnemonics; second, the spiritual component of such a practice is shown to redefine a notion of inspiration; third, constraints and their relationship with games and society is highlighted; finally, the manner in which they build a literary consciousness is studied through the lenspiece of contemporary neurobiological research. For the first time, the work of the group Oulipo and the member's emphasis on the function of literature is placed in historical, cultural, and philosophical context.

Julian Barnes Sebastian Groes, Peter Childs, 2011-06-30 Julian Barnes is one of the most refined British writers and distinguished intellectuals of his generation, whose rich body of work has been awarded many literary prizes both in the UK and abroad. This critical guide provides a wide range of current critical perspectives on Barnes' work.

Paul Auster Mark Brown, 2013-07-19 Paul Auster provides the first extended

analysis of Auster's essays, poetry, fiction, films, and collaborative projects. It explores his key themes of identity, language, and writing, metropolitan living, and community, and storytelling and illusion. By tracing how Auster's representations of New York and city life have matured from a position of urban nihilism to qualified optimism, the book shows how the variety of forms he works in influences the treatment of his central concerns. The chapters are organised around gradually extending spaces to reflect the way in which Auster's work broadens its focus, beginning with the poet's room and finishing with the global metropolis of New York, his home city and often his muse. The book uses Auster's published and unpublished literary essays to explain the shifts from the dense and introspective poems of the 70s through the metropolitan fictions of the 80s and early 90s to the relatively optimistic and critically acclaimed films and his return to fiction in recent years. *Peter Carey* Mary Ellen Snodgrass, 2010-03-10 Peter Carey, writer of such celebrated works as *Oscar and Lucinda* and *True History of the Kelly Gang*, and *His Illegal Self* is one of Australia's most critically acclaimed novelists. Deeply concerned with South Pacific culture, especially the lives of its most downtrodden citizens, Carey uses popular art as a tool for raising the consciousness of readers. This book provides an introduction to the author's life as well as a guided overview of his body of work. Designed for the fan and scholar alike, this text features an alphabetized, fully annotated listing of major terms in the Carey canon, including fictional characters, motifs, historical events, and themes. Additional features include a listing of headwords, a Carey history, 44 reading and writing topics, and bibliographies of primary and secondary sources. A comprehensive index is included.
