Emergence of Feminism in India, 1850-1920 Padma Anagol,2017-03-02 Grounded in a variety of rich and diverse source materials such as periodicals meant for women and edited by women song and cookbooks book reviews and court records the author of this pioneering study mobilises claims for the existence of an Indian feminism in the nineteenth century Anagol traces the ways in which Indian women engaged with the power structures both colonialist and patriarchal which sought to define them Through her analysis of Indian male reactions to movements of assertion by women Anagol shows that the development of feminist consciousness in India from the late nineteenth century to the coming of Gandhi was not one of uninterrupted unilinear progression The book illustrates the ways in which such movements were based upon a consciousness of the inequalities in gender relations and highlights the determination of an emerging female intelligentsia to remedy it The author s innovative study of women and crime challenges the notion of passivity by uncovering instances of individual resistance in the domestic sphere Her study of women s perspectives and participation in the Age of Consent Bill debates clearly demonstrates how the rebellion of wives and their assertion in the colonial courts had resulted in male reaction to reform rather than the current historiographical claims that it was a response purely to threats posed by colonial masculinity Anagol s investigation of the growth of the women s press their writings and participation in the wider vernacular press highlights the relationship between symbolic or hidden resistance and open assertion by women **The**

Hulas Singh,2024-10-16 This book is a critical comparative study of Jotirao Phule and Bhimrao Ramji Ambedkar modern India s two most prominent dalit leaders Although they were not close contemporaries they came to construct a firm structure of not only dalit ideology but also dalit methodology to emancipate the oppressed and depressed sections of society The book deals with their ideas in a new light highlighting aspects of convergence and contrast in their respective approach to philosophy religion society and culture It argues that deep down in his philosophic orientation Phule was quintessentially closer to Gandhi than to Ambedkar The author also contends that the usage of the term dalit exclusively in the caste communitarian sense is essentially a product of post independence political appropriation rather than social evolution The

book specifically brings to light the dynamics of humanism and nationalism on the one hand and that of communitarianism on the other in the context of twentieth century colonial India. Notably Gandhi is brought in the narrative to complete the triumvirate. Comprehensive and deeply grounded in primary research, this thought provoking book will be indispensable for students and researchers of modern Indian history, sociology, political science, political thought, exclusion studies, dalit and subaltern studies and South Asian studies. It will also appeal to those interested in the writings of Ambedkar and Phule.
