

# How do I revise GCSE geography?

## PLC

Revisit the specification to assess your strengths and areas for development (and ensure you don't miss anything when revising!). Use a personal learning checklist (PLC) to help identify areas you need to focus on.

## BLANK PAGE

For the area you are revising, write down everything you can remember on a blank piece of paper. This active revision technique makes you think about what you have studied, what you can remember and helps you organise your knowledge and understanding.

## RECAP

Compare your blank page to your PLC. Identify the gaps and spend time recapping the topic content. You could read about the topic or watch revision videos covering the areas you feel less confident about.

## REVISION

Use an active technique to produce a revision resource covering the topic you are revising. Active revision techniques include revision cards, mind maps, sketch notes and revision clocks. Do not copy or highlight text; these techniques have little impact on learning.

## REVIEW

Review your learning. Start by completing quizzes to check your knowledge and understanding. Next, attempt past exam questions to practice applying your knowledge and understanding. Finally, revisit your PLC and update it. Still got gaps? Do more revision!
