Baron, Francis Ludwig Carsten, 1962 The Marxist Conception of Ideology Martin Seliger, 1979-12-06 A comprehensive and systematic account of Marx and Engel s ideology and the propositions intimately connected with it *Karl Marx and Friedrich Engels (RLE Marxism)* Cecil L. Eubanks, 2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels **Dictatorship, State Planning, and Social Theory in the German Democratic Republic** Peter C. Caldwell, 2003-03-27 The introduction of state planning and party dictatorship dramatically altered the environment for social theory in the German Democratic Republic But social thought did not disappear By the mid 1950s East German social theorists discovered the basic contradictions of state socialism that would eventually lead to its collapse the inability of the

plan to function without markets and its inability to permit markets the inability of the party state to guarantee the rule of law and yet also the need for a regular system of rules in a modern industrial society and the contradictory philosophical claims of a Marxist Leninist philosophy that rejected idealism and Marxist Leninist dogma with its idealistic claim to know the laws of social modernization Making use of archival sources Caldwell examines the articulation of these analyses their subsequent suppression by party authorities in the late 1950s and their return under the guise of cybernetics in the 1960s

Praxis and Method (RLE: Gramsci) Richard

Kilminster, 2014-04-24 This sociological critique of the philosophy of praxis looks at the importance of the concept in the social theory of leading influential Western Marxists such as Lukács Gramsci Korsch Horkheimer Marcuse and Adorno in the inter war period It offers a detailed critique of Marx and Hegel and explores the validity and implications for sociology of two of Marx's ideas which the later theorists made the centre piece of their social theory first that true theory is authenticated by praxis and second its corollary that certain major social transformations should and would in practice render sociology redundant

*Marx's Proletariat (RLE Marxism)* David W. Lovell, 2015-04-24 George Orwell wrote in Nineteen Eighty Four that If there is hope it lies in the proles A century earlier Marx was unequivocal the future belonged to the proletariat Today such confidence might seem misplaced The proletariat has not yet fulfilled Marx's expectations and seems unlikely ever to do so How could Marx have entertained the notion that the proletariat would emancipate humanity from capitalism and from class rule itself This book first published in 1988 attempts an explanation by examining the sources and development of Marx's concept of the proletariat It contends that this was not only a crucial element in Marx's theory but a significant departure in socialist thought By examining this concept in detail the book uncovers a major contradiction in Marxian thought although the proletariat is assigned a momentous task it is chiefly depicted as the class of suffering which is why historically it has preferred security to enterprise

Philosophical Sovietology Helmut Dahm, J.E. Blakeley, George L. Kline, 2012-12-06 On February 24 25 1956 in a closed session of the 20th Congress of the Communist Party of the Soviet Union Nikita S Khrushchev made his now famous speech on the crimes of the Stalin era That speech marked a break with the past and it marked the end of what J M Bochenski dubbed the dead period of Soviet philosophy Soviet philosophy changed abruptly after 1956 especially in the area of dialectical materialism Yet most philosophers in the West neither noticed nor cared For them the resurrection of Soviet philosophy even if believable was of little interest The reasons for the lack of belief and interest were multiple Soviet philosophy had been dull for so long that subtle differences made little difference The Cold War was in a frigid period and reinforced the attitude of avoiding anything Soviet Phenomenology and existentialism were booming in Europe and analytic philosophy was king on the Anglo American philosophical scene Moreover not many philosophers in the West knew or could read Russian or were motivated to learn it to be able to read Soviet philosophical works The launching of Sputnik awakened the West from its self complacent slumbers Academic interest in the Soviet Union grew
