Revisiting Universalism:

Revisiting Universalism A. Assiter, 2003-10-09 This book begins from the premise which it seeks to elaborate that the poorest human being shares with the richest a natural nature This it is claimed is not the trivial thesis it is sometimes represented as being Rather significant moral consequences flow from the assumption that all human beings share a set of natural needs Using this starting point the book also seeks to defend an objectivist epistemology

Re-visioning Gender in Philosophy of Religion Pamela Sue Anderson, 2017-10-24 A passion for justice and truth motivates the bold challenge of Revisioning Gender in Philosophy of Religion Unearthing the ways in which the myths of Christian patriarchy have historically inhibited and prohibited women from thinking and writing their own ideas this book lays fresh ground for re visioning the epistemic practices of philosophers Pamela Sue Anderson seeks both to draw out the salient threads in the gendering of philosophy of religion as it has been practiced and to re vision gender for philosophy today The arguments put forth by contemporary philosophers of religion concerning human and divine attributes are epistemically located yet the motivation to recognize this locatedness has to come from a concern for justice This book presents invaluable new perspectives on the philosopher s ever increasing awareness of his or her own locatedness on the gender often unwittingly given to God the ineffability in both analytic and Continental philosophy the still critical role of reason in the field the aims of a feminist philosophy of religion the roles of beauty and justice the vision of love and reason and a gendering which opens philosophy of religion up to diversity

The Right Not to Stay Valeria Ottonelli, Tiziana Torresi, 2022 This book s innovative focus on the right not to stay is prompted instead by the realization that increasing numbers of migrants throughout the world conceive and plan their migratory experience as circumscribed in time and instrumental to goals and projects that they will pursue once back in their country of origin These temporary migration projects are worthy of being accommodated by the receiving states as much as the migratory plans of those who resolve or aim to immigrate on a permanent basis Accommodating them entails setting up the appropriate welfare measures and programs in the host country and through bi lateral agreements in the country of return

Radical Intellectuals and the Subversion of Progressive Politics Michael J. Thompson, Gregory Smulewicz-Zucker, 2015-09-09 Radical Intellectuals and the Subversion of Progressive Politics is a challenge to contemporary radical politics and political thought This collection of essays critiques the dominant trends and figures on the left that have distorted the legacy of progressive politics arguing that they have moved politics away from issues of class and economic power toward a preoccupation with culture and identity The contributors discuss this new radicalism from the perspective of a more rational form of leftism capable of reviving interest in a more politically relevant form of politics

The Force of the Example Alessandro Ferrara, 2008 During the twentieth century the view that assertions and norms are valid insofar as they respond to principles independent of all local and temporal contexts came under attack from two perspectives the partiality of translation and the intersubjective constitution of the self understood as

responsive to recognition Defenses of universalism have by and large taken the form of a thinning out of substantive universalism into various forms of proceduralism Alessandro Ferrara instead launches an entirely different strategy for transcending the particularity of context without contradicting our pluralistic intuitions a strategy centered on the exemplary universalism of judgment Whereas exemplarity has long been thought to belong to the domain of aesthetics this book explores the other uses to which it can be put in our philosophical predicament especially in the field of politics After defining exemplarity and describing how something unique can possess universal significance Ferrara addresses the force exerted by exemplarity the nature of the judgment that discloses exemplarity and the way in which the force of the example can bridge the difference between various contexts Drawing not only on Kant's Critique of the Power of Judgment but also on the work of Hannah Arendt John Rawls Ronald Dworkin and Jürgen Habermas Ferrara outlines a view of exemplary validity that is applicable to today's central philosophical issues including public reason human rights radical evil sovereignty republicanism and liberalism and religion in the public sphere

Snodgrass,2024-03-19 The United States is witnessing a rise in the religiously unaffiliated Participation in traditional religious settings is in decline But everyone inhabits a location relative to religion whether or not they practice or identify with a religious tradition People engage in religious encounters and relationships in myriad ways and their religious location is one part of their intersecting identities This shifting religious landscape challenges spiritual caregivers to provide competent care and counsel that honors how persons religious locations intersect Jill Snodgrass argues that without a theoretical understanding of religious location chaplains counselors and other spiritual caregivers are left without sufficient tools to navigate this relational terrain In The Art of Spiritual Care across Religious Difference she gathers practices and

insights from experienced spiritual caregivers and scholars to explore the concept of religious location a term initially coined by pastoral theologian Kathleen Greider as an aspect of an individual's intersecting identity Snodgrass presents a compilation of essays that help spiritual caregivers think reflexively about their own religious locations and how these locations influence relational dynamics with care seekers within a diversity of cultural contexts This vigorous compilation advances the fields of pastoral and practical theology as well as spiritual care and counseling by developing a robust interreligious theory of religious difference grounded in insights from Christianity Buddhism Confucianism and Islam As such *The Art of Spiritual Care across Religious Difference* presents a well timed resource for the training of religiously competent caregivers to serve in hospitals prisons places of worship community mental health centers offices of campus ministry and more Scholars and practitioners will quickly discover that this book will serve as an enduring resource to meet the training needs for spiritual caregivers in ways that will help them to build enduring competencies **Free Trade and Cultural**

Diversity in International Law Jingxia Shi, 2013-04-30 This book attempts to reconcile the concept of free trade with a key non trade social value cultural diversity in an era of economic globalisation It first shows how we can look at culture in many different ways and explains why we should care about cultural diversity The book then examines the challenges that policymakers are faced with in formulating cultural measures in the new media environment and analyses UNESCO's theories and approaches to cultural diversity This is followed by a comprehensive examination of the treatment of culture in global and regional trade agreements including the framework of the GATT WTO system the WTO's judicial practice involving cultural products and the treatment of culture under the EC EU and NAFTA This identifies the challenges trade norms encounter in dealing with cultural products The author seeks to formulate a balanced view of the challenge of protecting and promoting cultural diversity while also recognising the important goal of trade liberalisation To this end Professor Shi proposes a dual method through which the norms found in WTO agreements and in UNESCO cultural instruments may be brought into alignment the first highlighting the compatibility of cultural policy measures with trade obligations on a domestic level the second suggesting potential linkages between the WTO rules and the UNESCO Convention from the perspectives of treaty interpretation *Revisiting the Colonial Question in Latin America* Mabel

Moraña, Carlos A. Jáuregui, 2008 From the configuration of Empire in the colonial period to the multiple facets of modern coloniality this book offers a challenging approach to the developments and effects of imperial domination and neocolonial rule in Latin America Defending Objectivity Margaret Archer, William Outhwaite, 2004-07-31 Andrew Collier is the boldest defender of objectivity in science knowledge thought action politics morality and religion The diverse contributions range from social and political thought to philosophy **Anti-Semitism Revisited** Delphine Horvilleur, 2021-02-11 Anti-Semitism revisited in a wholly original way Philippe Sands Rippling with ideas on every page Jewish Chronicle Tackles the issue of anti semitism from the perspective of a country where its manifestations have been more vicious and deadly

Financial Times Rabbi Delphine Horvilleur analyses the phenomenon of anti semitism as it is viewed by those who endure it and who through narration and literature succeed in overcoming it Jewish texts are replete with treatments of anti semitism of this endlessly paradoxical hatred and of the ways in which Jews are perceived by others But here the focus is inverted Anti Semitism Revisited explores the hatred of Jews as seen through the lens of the sacred texts rabbinical tradition and Jewish lore Delphine Horvilleur gives a voice to those who are too often deprived of one examining resilience in the face of adversity and the legacy of an ancient hatred that is often misunderstood An engaging hopeful and very original examination of anti semitism what it means where it comes from what are the ancient myths and tropes that are weaponised against Jewish people and how do we take them apart Translated from the French by David Bellos
