Lukensmeyer,2012-11-07 This important resource offers seven field tested strategies for public managers to help them maximize citizen engagement as they implement the President s

Lees-Marshment, 2015-01-13 As political leaders acknowledge the limits of their power they increasingly integrate constructive input from inside and outside government into their decision making A Ministry or Commission of Public Input is necessary to collect process and communicate input more effectively and politicians need to work with the public to identify solutions **Public Happiness** Seung Jong Lee, 2021-11-18 We all strive for personal happiness in one way or another but what about public happiness What does public happiness mean and what role can governments and public policies play The current COVID 19 pandemic has highlighted the inadequacies of old governance paradigms and even before this pandemic increasing inequalities and frustration with the old GDP centric growth paradigm have fueled dissatisfaction with and distrust of governments This book suggests a new path towards public happiness as a potential solution The book builds a theory of public happiness as a distinct concept from individual happiness borrowing especially from Eastern philosophy It provides an overview of the efforts so far to go beyond GDP including measurement and exploration of the determinants of happiness and how these efforts have fallen short of expectation Lastly the book sketches out what a public happiness policy might look like and identifies the factors of a successful happiness policy **Carole Pateman** Terrell Carver, Samuel Chambers, 2013-03 Carole Pateman's writings have been innovative precisely for their qualities of engagement pursued at the height of intellectual rigour This book draws from her vast output of articles chapters books and speeches to provide a thematic yet integrated account of her innovations in political theory and contributions to the politics of policy making The editors have focused on work in three key areas Democracy Pateman's perspective is rooted in a practical perspective enquiring into and speculating about forms of participation over and above the traditional exclusions through which representative systems have been variously constructed over time Her work pushes hard on theorists and politicians who make easy assumptions about apathy and public opinion who bracket off the workplace and the home and who see politics only in partisan activity voter behaviour and governmental policy Women Pateman's innovative and still cited work on participation antedates the feminist revolution in political theory and many of the practical struggles that developed through the later 1970s While woman centred her concerns were always worked through larger conceptions of social class economic advantage power differentials liberal individualism and contracts including marriage Her feminism

was innovative in political theory and within feminism itself As a feminist Pateman defies categorization and her concepts of the sexual contract and Wollstonecraft's dilemma are canonical Welfare Pateman's innovation here is an integration of welfare issues in particular the proposals for a basic income or for a capital stake into her broad but always rigorous conception of democracy This is argued through in terms of citizenship taken as the result of a social contract In that way Pateman puts liberalism itself through an imminent critique drawing in the practicalities and risks of life in late capitalist societies Her theory as always is political taking in neo liberal attacks on welfare states and the stark realities of international inequalities Pateman's career achievements in democratic and feminist theory are brought productively to bear on debates that would otherwise occur in more limited and less provocative academic and political contexts
