## **Revolucion Cuban Poster Art:**

**Revolucion!** Lincoln Cushing, 2003 The poster was the popular art form in Cuba following the Cuban Revolution when the government sponsored some 10 000 public posters on a fascinating range of cultural social and political themes Revolucion produced with unprecedented access to Cuban national archives assembles nearly 150 of these powerful but little seen works of popular art From the 1960s through the 1980s the posters rallied the Cuban people to the huge task of building a new society promoting massive sugar harvests and national literacy campaigns opposing the U S war in Vietnam celebrating films music dance and baseball with a unique graphic wit and exuberant colorful style With an introduction illuminating the rich social and artistic history of the posters and rare biographical information on the artists themselves this striking volume offers a window into the story of Cuba and a truly revolutionary chapter in graphic design Collecting Prints, Posters, and Ephemera Ruth E. Iskin, Britany Salsbury, 2019-12-12 Why did collectors seek out posters and collect ephemera during the late nineteenth and the twentieth centuries How have such materials been integrated into institutional collections today What inspired collectors to build significant holdings of works from cultures other than their own And what are the issues facing curators and collectors of digital ephemera today These are among the questions tackled in this volume the first to examine the practices of collecting prints posters and ephemera during the modern and contemporary periods A wide range of case studies feature collections of printed materials from the United States Latin America France Germany Great Britain China Japan Russia Iran and Cuba Fourteen essays and one roundtable discussion all specially commissioned from art historians curators and collectors for this volume explore key issues such as the roles of class politics and gender and address historical contexts social roles value and national and transnational aspects of collecting practices The global scope highlights cross cultural connections and contributes to a new understanding of the place of prints posters and ephemera within an increasingly international art world **South-South Solidarity and the Latin American Left** Jessica Stites Mor, 2022-03-08 Transnational solidarity movements often play an important role in reshaping structures of global power Jessica Stites Mor looks at four in depth case studies in the Global South which act as a much needed road map to navigate our current political climate and show us how solidarity movements might approach future struggles **Culture and the Cuban State** Yvon Grenier, 2017-11-08 Culture and the Cuban State examines the politics of culture in communist Cuba It focuses on cultural policy censorship and the political participation of artists writers and academics such as Tania Bruguera Jes s D az Rafael Hern ndez Kcho Reynier Leyva Novo Leonardo Padura and Jos Toirac The cultural field is important for the reproduction of the regime in place given its pretense and ambition to be eternally revolutionary and to lead a genuine cultural revolution Cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy This book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in Cuba the curator state The curator state is also a gatekeeper state

arbitrarily and selectively opening and closing the space for public expression and for access to foreign currencies and the global market The time when everything was either mandatory or forbidden is over in Cuba The regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics In a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere

**Posters for Peace** Thomas W. Benson, 2015-06-18 By the spring of 1970 Americans were frustrated by continuing war in Vietnam and turmoil in the inner cities Students on American college campuses opposed the war in growing numbers and joined with other citizens in ever larger public demonstrations against the war Some politicians including Ronald Reagan Spiro Agnew and Richard Nixon exploited the situation to cultivate anger against students At the University of California at Berkeley student leaders devoted themselves along with many sympathetic faculty to studying the war and working for peace A group of art students designed produced and freely distributed thousands of antiwar posters Posters for Peace tells the story of those posters bringing to life their rhetorical iconography and restoring them to their place in the history of poster art and political street art The posters are vivid simple direct ironic and often graphically beautiful Thomas Benson shows that the student posters from Berkeley appealed to core patriotic values and to the legitimacy of democratic deliberation in a democracy even in a time of war

**Art and Revolution in Latin America, 1910-1990** David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating

from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico, Cuba, and Nicaragua with a tradition of the fine arts made newly accessible through social transformation. Craven considers how each revolution dealt with the pressing problem of creating a dialogical art, one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were. In addition, the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire. The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art, ideology, and class within a revolutionary process.
