## **Revolution And The 20th Century Novel:**

Revolution and the 20th-century Novel Paul N. Siegel, 1979      *The Russian Revolutionary Novel* Richard Freeborn, 1985-02-28 Professor Freeborn's book is an attempt to identify and define the evolution of a particular kind of novel in Russian and Soviet literature the revolutionary novel This genre is a uniquely Russian phenomenon and one that is of central importance in Russian literature The study begins with a consideration of Turgenev's masterpiece *Fathers and Children* and traces the evolution of the revolutionary novel through to its most important development a century later in Pasternak's *Doctor Zhivago* and the emergence of a dissident literature in the Soviet Union Professor Freeborn examines the particular phases of the genre's development and in particular the development after 1917 the early fiction which explored the relationship between revolution and instinct such as Pilnyak's *The Naked Year* the first attempts at mythmaking in Leonov's *The Badgers* and Furmanov's *Chapayev* the next phase in which novelists turned to the investigation of ideas exemplified most notably by Zamyatin's *We* the resumption of the classical approach in such works as Olesha's *Envy* which explore the interaction between the individual and society and finally the appearance of the revolutionary epic in Gorky's *The Life of Klim Samgin* Sholokhov's *Quiet Flows the Don* and Alexey Tolstoy's *The Road to Calvary* Professor Freeborn also examines the way this kind of novel has undergone change in response to revolutionary change and he shows how an important feature of this process has been the implicit assumption that the revolutionary novel is distinguished by its right to pass an objective independent judgement on revolution and the revolutionary image of man This is a comprehensive and challenging study of a uniquely Russian tradition of writing which draws on a great range of novels many of them little known in the West As with other titles in this series all quotations have been translated      **A Reader's Guide to the**

**Twentieth-century Novel in Britain** Randall Stevenson, 1993-01-01 The novel is the major literary phenomenon of the twentieth century and its development in Britain since 1900 has reflected the tumultuous changes that have characterized modern society Randall Stevenson now presents an accessible and authoritative guide to the work of the century's leading novelists as well as many of its lesser known writers In this stimulating and wide ranging account Stevenson locates the work of individual writers from Conrad to Jeanette Winterson within an evolving literary history and the wider context of social political and cultural change Included are British writers working in exile and writers with origins elsewhere such as James and Rushdie who have chosen to work in Britain Women novelists are accorded their rightful prominence This clear and lively survey deals with a broad range of movements including modernism and postmodernism as well as the influence of other world literatures and the impact of two world wars An ideal text this is a guide in the best sense concise and lucid well informed and perceptive Readers new to the field will appreciate Stevenson's clear direction while the experienced will be delighted by newly revealed connections and fresh perspectives      **Library of Congress Subject Headings** Library of Congress.  This book explores the formative role of mobilities in the production of our close relationships proposing that the tracks both  
 literal and figurative we lay down in the process play a crucial role in generating and sustaining intimacy Working with  
 diaries journals and literary texts from the mid to late twentieth century the book pursues this thesis through three phases of  
 the lifecourse courtship broadly defined the middle years of long term relationships and bereavement Building upon the  
 author's recent research on automobility the text's case studies reveal the crucial role played by many different types of  
 transport including walking in defining our most enduring relationships Conceptually the book draws upon the writings of  
 the philosopher Henri Bergson the anthropologist Tim Ingold and the geographer David Seamon engaging with topical  
 debates in cultural and emotional geography especially work on landscape memory and mourning mobilities studies and  
 critical love studies      Interviews and Conversations with 20th-century Authors Writing in English Stan A. Vrana, 1982 To

Secularization of Ethics Dr Carol Stewart, 2013-04-28 Linking the decline in Church authority in the late seventeenth and  
 early eighteenth centuries with the increasing respectability of fiction Carol Stewart provides a new perspective on the rise  
 of the novel The resulting readings of novels by authors such as Samuel Richardson Sarah Fielding Frances Sheridan  
 Charlotte Lennox Tobias Smollett Laurence Sterne William Godwin and Jane Austen trace the translation of ethical debate  
 into secular and gendered terms Stewart argues that the seventeenth century debate about ethics that divided  
 Latitudinarians and Calvinists found its way into novels of the eighteenth century Her book explores the growing belief that  
 novels could do the work of moral reform more effectively than the Anglican Church with attention to related developments  
 including the promulgation of Anglican ethics in novels as a response to challenges to Anglican practice and authority An  
 increasingly legitimate genre she argues offered a forum both for investigating the situation of women and challenging  
 patriarchal authority and for challenging the dominant political ideology      DK Eyewitness Travel Guide: Beijing and
