Gangs, Fraud, and Sexual Predators United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources, 2006 **Madder Red** Robert Chenciner, 2003-09-02 Madder red is an ancient dyestuff extracted from the root of the madder plant growing in many countries around the world The secret and devilishly complex Oriental dyeing process to obtain the lustrous colour known as Turkey Red was avidly sought by Europeans from the time before the fall of Ancient Rome It was finally cracked by the French about 1760 who were able to dye wool silk and cotton bright red After the lowlands of the Caspian Caucasus had been subdued by the Russians in the early 1800s madder was cultivated there and rapidly became the main crop The quest for Turkey Red went hand in hand with an avalanche of scientific research which not only improved the yield of dyestuff from the roots but led to its chemical synthesis and in 1870 the collapse of the world wide madder industry Many of the nascent dye companies grew into chemical giants of our time Further regional and cultural background may be found in Chenciner s *Daghestan Tradition and Survival* also published in the *Caucasus World series* **Agriculture and Human Values** ,1999 Bulletin National Association of Wool Manufacturers, 1903 A bibliography of wool and the woolen manufacture v 21 1891 p 118 134 Future Perfect Steven Johnson, 2012-09-18 From the New York Times bestselling author of *How We Got To Now* Farsighted and *Extra Life* Combining the deft social analysis of *Where Good Ideas Come From* with the optimistic arguments of *Everything Bad Is Good For You* New York Times bestselling author Steven Johnson s *Future Perfect* makes the case that a new model of political change is on the rise transforming everything from local governments to classrooms from protest movements to health care Johnson paints a compelling portrait of this new political worldview influenced by the success and interconnectedness of the Internet by peer networks but not dependent on high tech solutions that breaks with the conventional categories of liberal or conservative public vs private thinking With his acclaimed gift for multi disciplinary storytelling and big idea books Johnson explores this new vision of progress through a series of fascinating narratives from the miracle on the Hudson to the planning of the French railway system from the battle against malnutrition in Vietnam to a mysterious outbreak of strange smells in downtown Manhattan from underground music video artists to the invention of the Internet itself At a time when the conventional wisdom holds that the political system is hopelessly gridlocked with old ideas *Future Perfect* makes the timely and inspiring case that progress is still possible and that innovative strategies are on the rise This is a hopeful affirmative outlook for the future from one of the most brilliant and inspiring visionaries of contemporary culture Bulletin of the National Association of Wool Manufacturers National Association of Wool Manufacturers, 1903 Turkey Red Julie Wertz, 2024-01-25 This multi disciplinary study examines the exceptional Turkey red textile dyeing process and product Prized for its brilliant colour and durability yet notoriously difficult to produce the textile was consumed locally and exported around the world Considered one of the first instances of industrial espionage the expansion of the Turkey red industry is

closely linked to the Industrial Revolution and the emergence of a new global economy Significant technological advances in chemistry and dyeing were motivated by the demands of Turkey red dyers and printers who were located primarily in the west of Scotland the north of England and around Mulhouse Switzerland This book explores the arc of the Turkey red industry the evolution of the process through key producers and technical developments the complicated printing process and finishes with an examination of significant Turkey red collections and a selection of object case studies The chemistry of the process is described in an accessible contextual manner highlighting the significance of the distinctive technique that yielded the best red attainable on cotton Drawing on both historical and contemporary study Turkey Red presents significant new research on the material characterisation of this fascinating eye catching textile and offers an in depth historical example of the global effect of textile consumption

The Carpetbaggers of Kabul and Other American-Afghan Entanglements Jennifer L. Fluri, Rachel Lehr, 2017-01-15 The 2001 invasion of Afghanistan by United States and coalition forces was followed by a flood of aid and development dollars and experts representing well over two thousand organizations each with separate policy initiatives geopolitical agendas and socioeconomic interests This book examines the everyday actions of people associated with this international effort with a special emphasis on small players individuals and groups who charted alternative paths outside the existing networks of aid and development This focus highlights the complexities complications and contradictions at the intersection of the everyday and the geopolitical showing how dominant geopolitical narratives influence daily life in places like Afghanistan and what happens when the goals of aid workers or the needs of aid recipients do not fit the narrative Specifically this book examines the use of gender need and grief as drivers for both common and exceptional responses to geopolitical interventions Throughout this work Jennifer L. Fluri and Rachel Lehr describe intimate encounters at a microscale to complicate and dispute the ways in which Afghans and their country have been imagined described fetishized politicized vilified and rescued The authors identify the ways in which Afghan men and women have been narrowly categorized as perpetrators and victims respectively They discuss several projects to show how gender and grief became forms of currency that were exchanged for different social economic and political opportunities Such entanglements suggest

the power and influence of the United States while illustrating the ways in which individuals and groups have attempted to chart alternative avenues of interaction intervention and interpretation

Competitive Authoritarianism Steven Levitsky, Lucan A. Way, 2010-08-16 Based on a detailed study of 35 cases in Africa Asia Latin America and post communist Eurasia this book explores the fate of competitive authoritarian regimes between 1990 and 2008 It finds that where social economic and technocratic ties to the West were extensive as in Eastern Europe and the Americas the external cost of abuse led incumbents to cede power rather than crack down which led to democratization Where ties to the West were limited external democratizing pressure was weaker and countries rarely democratized In these cases regime outcomes hinged on the character of state and ruling party organizations Where incumbents possessed developed and cohesive coercive party structures they could thwart opposition challenges and competitive authoritarian regimes survived where incumbents lacked such organizational tools regimes were unstable but rarely democratized

Ong'wen: Stronger than Faith, 2023-06-27 Few events in Kenya's recent history have captured the imagination of the nation as those of the period from the late 1970s Between the pages of this memoir is a history of that period which is hardly taught in our schools and is fast receding into the holes of the insignificant as a younger generation takes over The history of that era like that of all the eras that have made this country needs to be preserved by those who witnessed and participated in it In Stronger Than Faith Oduor Ong wen adds clarity to the politics of an important but dark era of our history It adds clarity to why that era is not entirely gone
