Revolution In The Service Of The Marvelous:

Surrealist sabotage and the war on work Abigail Susik, 2021-10-12 In *Surrealist sabotage and the war on work* art historian Abigail Susik uncovers the expansive parameters of the international surrealist movement's ongoing engagement with an aesthetics of sabotage between the 1920s and the 1970s demonstrating how surrealists unceasingly sought to transform the work of art into a form of unmanageable anti-work. In four case studies devoted to surrealism's transatlantic war on work Susik analyses how artworks and texts by Man Ray, Andr  Breton, Simone Breton, Andr  Thirion, scar Dom nguez, Konrad Klapheck and the Chicago surrealists among others were pivotally impacted by the intransigent surrealist concepts of principled work refusal, permanent strike and autonomous pleasure. Underscoring surrealism's profound relevance for readers engaged in ongoing debates about gendered labour and the wage gap endemic over work and exploitation and the vicissitudes of knowledge work and the gig economy *Surrealist sabotage and the war on work* reveals that surrealism's creative work refusal retains immense relevance in our wired world.

Black, Brown, & Beige Franklin Rosemont, Robin D.G. Kelley, 2009-12-07 This collection documents the extensive participation of people of African descent in the international surrealist movement over the past 75 years.

Surrealist Women Penelope Rosemont, 2010-07-05 Beginning in Paris in the 1920s women poets, essayists, painters and artists in other media have actively collaborated in defining and refining surrealism's basic project, achieving a higher, open and dynamic consciousness from which no aspect of the real or the imaginary is rejected. Indeed, few artistic or social movements can boast as many women forebears, founders and participants, perhaps only feminism itself. Yet outside the movement women's contributions to surrealism have been largely ignored or simply unknown. This anthology, the first of its kind in any language, displays the range and significance of women's contributions to surrealism. Letting surrealist women speak for themselves, Penelope Rosemont has assembled nearly three hundred texts by ninety-six women from twenty-eight countries. She opens the book with a succinct summary of surrealism's basic aims and principles, followed by a discussion of the place of gender in the movement's origins. She then organizes the book into historical periods ranging from the 1920s to the present, with introductions that describe trends in the movement during each period. Rosemont also prefaces each surrealist's work with a brief biographical statement.

Revolution in the Service of the Marvelous Franklin Rosemont, 2004 20 essays by one of contemporary surrealism's major poets and theorists, Chicago Surrealist Group co-founder Franklin Rosemont. These essays focus on the ways in which surrealist perspectives have continued to evolve and expand since the movement's worldwide resurgence in the 1960s. This wide-ranging and well-illustrated collection includes prefaces to international surrealist exhibitions and texts concerning wilderness, the politics of humor, the black radical tradition and the critique of whiteness, documenting key developments in surrealism's collective evolution. Other essays explore the work of individual poets, painters, musicians and dancers whose creative activity exemplifies the movement's ongoing transformative project. Rosemont remarks in his Introduction: As a book about surrealism, this is also

inevitably a book about freedom desire surprise love play humor black music painting collage dance film ecology subversion revolt and revolution Above all it is concerned with the practice of poetry poetry as audacity and insubordination a source and method of knowledge a model for a better society an adventure and experience that makes all the difference in the world

The Impossible Community John P. Clark, 2013-06-06 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com The Impossible Community confronts a critical moment when social and ecological catastrophe loom the Left seems unable to articulate a response and the Right is monopolizing public debates This book offers a reformulation of anarchist social and political theory to develop a communitarian anarchist solution It argues that a free and just social order requires a radical transformation of the modes of domination exercised through social ideology and institutional structures Communitarian anarchism unites a universalist concern for social and ecological justice while recognizing the integrity and individuality of the person In fact anarchist principles of mutual aid and voluntary cooperation can already be seen in various contexts from the rebuilding of New Orleans after Katrina to social movements in India This work offers both a theoretical framework and concrete case studies to show how contemporary anarchist practice continues a long tradition of successfully synthesizing personal and communal liberation This significant contribution will appeal not only to students in anarchism and political theory but also to activists and anyone interested in making the world a better place
