Revolution Through Peace:

The Reading and Preaching of the Scriptures in the Worship of the Christian Church, Vol. 7 Hughes Oliphant Old, 2010 The Reading and Preaching of the Scriptures in the Worship of the Christian Church is a multivolume study by Hughes Oliphant Old that canvasses the history of preaching from the words of Moses at Mount Sinai through modern times In Volume 1 The Biblical Period Old begins his survey by discussing the roots of the Christian ministry of the Word in the worship of Israel He then examines the preaching of Christ and the Apostles Finally Old looks at the development and practice of Christian preaching in the second and third centuries concluding with the ministry of Origen *From Revolution to War* Patrick J. Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J Conge is Assistant Professor of Political Science University of Arkansas **Elements of Peacemaking Revolutions** Sapir Handelman, 2021-09-24 Intractable conflict is a protracted violent and long time struggle wherein generation after generation is socially conditioned to continue fighting To break the chain of destruction a revolutionary peacemaking process is required This book serves as an introduction to the study of peacemaking revolutions which are necessary to build a peaceful and well functioning society in desperate intractable conflict situations The challenge of peacemaking revolution is to turn opposing parties into a peacemaking community A peacemaking community offers political platforms to involve the different societal elements of the opposing parties in the struggle for change It offers a consensus building process that approaches the conflict from different sides dimensions and directions This book provides a fresh perspective to the study of destructive social conflicts their transformation and resolution It will serve to provoke a
