*Revolution unending : Afghanistan: 1979 to the present* Gilles Dorronsoro,2005      *Revolution Unending* Gilles Dorronsoro,2005-03-02 Having traveled and researched in Afghanistan since 1988 Gilles Dorronsoro has developed a rich and nuanced understanding of the country s history and people In *Revolution Unending* he draws on his extensive firsthand experience to consider the political historical economic and ethnic factors that will influence Afghanistan s future He argues that U S optimism about Afghanistan following Western intervention and recent elections fails to appreciate the divisions that continue to define the country While not underestimating the oft cited ethnic factor in Afghan politics especially Pashtun dominance Dorronsoro argues that class and the competition for employment and education are key factors in explaining the country s recent past The 1990s saw the triumph of religious authorities the ulema and the marginalization of the traditional elites With coalition intervention in 2001 and the subsequent deposition of the ulema dominated Taliban the educated elites are back in power However as Dorronsoro argues patching up the country by means of short term ethnic alliances and a new division of the spoils will only perpetuate the schisms in society The Afghan civil war Dorronsoro suggests is set to continue and perhaps worsen over time      **War and State-Building in Afghanistan** Scott Gates,Kaushik Roy,2014-11-20 The Mughals British and Soviets all failed to subjugate Afghanistan failures which offer valuable lessons for today Taking a long historical perspective from 1520 to 2012 this volume examines the Mughal British Soviet and NATO efforts in Afghanistan drawing on new archives and a synthesis of previous counter insurgency experiences Special emphasis is given to ecology terrain and logistics to explain sub conventional operations and state building in Afghanistan *War and State Building in Modern Afghanistan* provides an overall synthesis of British Russian American and NATO military activities in Afghanistan which directly links past experiences to the current challenges These timely essays are particularly relevant to contemporary debates about NATO s role in Afghanistan do the war and state building policies currently employed by NATO forces undercut or enhance a political solution The essays in this volume introduce new historical perspectives on this debate and will prove illuminating reading for students and scholars interested in military history the history of warfare international relations and comparative politics      *The Elgar Companion to Post-Conflict Transition* Hans-Joachim Giessmann,Roger Mac Ginty,Beatrix Austin,Christine Seifert,2018-08-31 What are the main drivers of political transition and regime change And to what extent do these apparently seismic political changes result in real change These questions are the focus of this comparative study written by a mix of scholars and practitioners This state of the art volume identifies patterns in political transitions but is largely unconvinced that these transitions bring about real change to the underlying structures of society Patriarchy land tenure and economic systems often remain immune to change despite the headlines      [The Afghan Intel Crisis](#) Musa Khan Jalalzai,2017      **Afghanistan's Islam** Nile Green,2017 This book provides the first ever overview of the history and development of Islam in Afghanistan It covers every era from the conversion of Afghanistan through the medieval

and early modern periods to the present day Based on primary sources in Arabic Persian Pashto Urdu and Uzbek its depth and scope of coverage is unrivalled by any existing publication on Afghanistan As well as state sponsored religion the chapters cover such issues as the rise of Sufism Sharia women s religiosity transnational Islamism and the Taliban Islam has been one of the most influential social and political forces in Afghan history Providing idioms and organizations for both anti state and anti foreign mobilization Islam has proven to be a vital socio political resource in modern Afghanistan Even as it has been deployed as the national cement of a multi ethnic Emirate and then Islamic Republic Islam has been no less a destabilizing force in dividing Afghan society Yet despite the universal scholarly recognition of the centrality of Islam to Afghan history its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements To help develop a more comprehensive comparative and developmental picture of Afghanistan s Islam from the eighth century to the present this edited volume brings together specialists on different periods regions and languages Each chapter forms a case study snapshot of the Islamic beliefs practices institutions and authorities of a particular time and place in Afghanistan Provided by publishe

**Afghanistan** Niamatullah Ibrahim, William Maley, 2019-11-28 This book offers an overview of the formation of the Afghan state and of the political economic challenges and international relations of contemporary Afghanistan. It opens with an account of some of the key features that make Afghanistan unique and proceeds to discuss how the Afghan state acquired a distinctive character as a rentier state. In addition, the authors outline a complex range of domestic and external factors that led to the breakdown of the state and how that breakdown gave rise to a set of challenges with which Afghan political and social actors have been struggling to deal since the 2001 international intervention that overthrew the anti-modernist Taliban regime. It then presents the different types of politics that Afghanistan has witnessed over the last two decades, examines some of the most important features of the Afghan economy, and demonstrates how Afghanistan's geopolitical location and international relations more broadly have complicated the task of promoting stability in the post-2001 period. It concludes with some reflections on the factors that are likely to shape Afghanistan's future trajectory and notes that if there are hopes for a better future, they largely rest on the shoulders of a globalised generation of younger Afghans. This book will be of interest to students and scholars in the fields of Middle East and Central Asian studies, international relations, politics, development studies, and history.

**Islam and Modernity** Muhammad Khalid Masud, 2009-08-18 Recent events have focused attention on the perceived differences and tensions between the Muslim world and the modern West. As a major strand of Western public discourse has it, Islam appears resistant to internal development and remains inherently pre-modern. However, Muslim societies have experienced most of the same structural changes that have impacted upon all societies: massive urbanisation, mass education, dramatically increased communication, the emergence of new types of institutions and associations, some measure of political mobilisation, and major transformations

of the economy These developments are accompanied by a wide range of social movements and by complex and varied religious and ideological debates This textbook is a pioneering study providing an introduction to and overview of the debates and questions that have emerged regarding Islam and modernity Key issues are selected to give readers an understanding of the complexity of the phenomenon from a variety of disciplinary perspectives The various manifestations of modernity in Muslim life discussed include social change and the transformation of political and religious institutions gender politics changing legal regimes devotional practices and forms of religious association shifts in religious authority and modern developments in Muslim religious thought
