**On Revolutions** Colin J. Beck, Mlada Bukovansky, George Lawson, Erica Chenoweth, Sharon Erickson Nepstad, Daniel P. Ritter, 2022 A cutting edge appraisal of revolution and its future *On Revolutions* co authored by six prominent scholars of revolutions reinvigorates revolutionary studies for the twenty first century Integrating insights from diverse fields including civil resistance studies international relations social movements and terrorism they offer new ways of thinking about persistent problems in the study of revolution This book outlines an approach that reaches beyond the common categorical distinctions As the authors argue revolutions are not just political or social but they feature many types of change Structure and agency are not mutually distinct they are mutually reinforcing processes Contention is not just violent or nonviolent but it is usually a mix of both Revolutions do not just succeed or fail but they achieve and simultaneously fall short And causal conditions are not just domestic or international but instead they are dependent on the interplay of each Demonstrating the merits of this approach through a wide range of cases the authors explore new opportunities for conceptual thinking about revolution provide methodological advice and engage with the ethical issues that exist at the nexus of scholarship and activism

*Principles And Laws In World Politics: Classical Chinese Perspectives On Global Conflict* Walter Wan Fai Lee, 2021-12-02 The search for universal principles and laws in world politics is a colossal common task for all civilisations It should not be monopolised by the Western liberal paradigm Thirty years after the end of the Cold War global conflicts have been satisfactorily resolved neither by communism nor liberalism Humanitarian intervention now under the cover of the responsibility to protect R2P has destabilised many societies leaving justice undone This inspiring book invites debates on the post liberal imagination of

emancipated Leviathan an almighty political authority which exercises awe and force to restore order as well as enshrines globally negotiated values of common conscience and reinvented cosmopolitanism Human well being will truly become reality when we synergise pre modern and pre liberal ways of thinking worldviews ethics and aesthetic styles by means of cross civilisational cross disciplinary fundamental research and let an emancipated Leviathan exercises principles and laws of virtue derived from the study The starting point of such intellectual innovation is China This book explores the application of classical Chinese resources to the innovation of thoughts in contemporary Chinese international relations IR It examines whether Knowledge Archaeology of Chinese International Relations KACIR coined by the author responds sensibly to today s issues of international ethics and global justice The book contends that emancipative hermeneutics holds the key to the Chinese soft power puzzle A bottom up non nationalistic and non ethnocentric approach to the Chinese civilisation will reinvent intellectual pluralism and cosmopolitan elements in the Chinese tradition that interact constructively with and ultimately transcend the liberal Western model Strolling from contemporary IR back to ancient Chinese philosophy then striding into the future searching for common principles and laws this insightful book is a must read for those who want to reflect on global conflicts in this era of great uncertainty and transformation as well as those who love to make our world a better place to live in *Harold D. **Total Cold War** Kenneth Osgood, 2006-02-23 When President Dwight Eisenhower spoke of waging total cold war he was proposing nothing less than a global all embracing battle for hearts and minds His wide ranging propaganda campaign challenged world communism at every turn and left a lasting mark on the American psyche Kenneth Osgood now chronicles the secret psychological warfare programs America developed at the height of the Cold War These programs which were often indistinguishable from CIA covert operations went well beyond campaigns to foment unrest behind the Iron Curtain The effort was global U S propaganda campaigns targeted virtually every country in the free world Total Cold War also shows that Eisenhower waged his propaganda war not just abroad but also at home U S psychological warfare programs blurred the lines between foreign and domestic propaganda with campaigns that both targeted the American people and enlisted them as active participants in global contest for public opinion Osgood focuses on major campaigns such as Atoms for Peace People to People and cultural exchange programs Drawing on recently declassified documents that record U S psychological operations in some three dozen countries he tells how U S propaganda agencies presented everyday life in America to the world its citizens living full happy lives in a classless society where economic bounty was shared by all Osgood further

investigates the ways in which superpower disarmament negotiations were used as propaganda maneuvers in the battle for international public opinion. He also reexamines the early years of the space race focusing especially on the challenge to American propagandists posed by the Soviet launch of Sputnik. Perhaps most telling, Osgood takes a new look at President Eisenhower's leadership. Believing that psychological warfare was a potent weapon in America's arsenal, Ike appears in these pages not as a disinterested figurehead as he's often been portrayed but as an activist president who left a profound mark on national security affairs. Osgood's distinctive interpretation places Cold War propaganda campaigns in the context of an international arena drastically changed by the communications revolution and the age of mass politics and total war. It provides a new perspective on the conduct of public diplomacy even as Americans today continue to grapple with the challenges of winning other hearts and minds in another global struggle.

**Politicizing Political Liberalism** Gabriele Badano, Alasia Nuti, 2024-07-12 How should broadly liberal democratic societies stop illiberal and antidemocratic views from gaining influence while honouring liberal democratic values? This question has become particularly pressing after the recent successes of right wing populist leaders and parties across Europe in the US and beyond. This book develops a normative account of liberal democratic self defence that denounces the failures of real world societies without excusing those supporting illiberal and antidemocratic political actors. This account is innovative in focusing not only on the role of the state but also on the duties of nonstate actors including citizens, partisans and municipalities. Consequently it also addresses cases where the central government has at least been partly captured by illiberal and antidemocratic agents. Gabriele Badano and Alasia Nuti's approach builds on John Rawls's treatment of political liberalism and his awareness of the need to contain unreasonable views that is, views denying that society should treat every person as free and equal through a mutually acceptable system of social cooperation where pluralism is to be expected. The authors offer original solutions to vexed problems within political liberalism by putting forward a new account of the relation between ideal and non ideal theory explaining why it is justifiable to exclude unreasonable persons from the constituency of public reason and showing that the strictures of public reason do not apply to those suffering from severe injustice. In doing so, the book further politicizes political liberalism and turns it into a framework that can insightfully respond to the challenges of real politics.

Holmes,2021-06-01 The clash between scholarship and politics between truth and propaganda was ruthless for historians in Istpart the Russian Communist Central Committee s official historical department Istpart was tasked with preserving the documentary record compiling memoirs and upholding ideological conformism within the national narrative of the 1917 revolution In *Revising the Revolution* Larry E Holmes examines the role of Istpart s historians in both the Moscow office and a regional branch in Viatka who initially believed they could adhere to the traditional standards of research and simultaneously provide a history useful to the party However they quickly realized that the party rejected any version of history that suggested nonideological or nonpolitical sources of truth By 1928 Istpart had largely abandoned its mission to promote scholarly work on the 1917 revolution and instead advanced the party s master narrative *Revising the Revolution* explores the battle for the Russian national narrative and the ways in which history can be used to centralize power
