Revolution And The European Experience 1789 1914:

Revolution and the European Experience 1789-1914 K. Post, 1999-08-12 This study argues that the Europe which is now being united was originally the product of the French revolution 1789 95 and then formed by the emergent industrial capitalism Given the prediction and fear that the new working class would launch another revolution which would spread the author investigates why that did not in fact prove to be the case Rather the new working classes were incorporated as part of the dynamics of capitalist development

Capital, Race and Space, Volume I Richard Saull, 2023-05-15 In this first volume of Capital Race and Space Richard Saull offers an international historical sociology of the European far right from its origins in the 1848 revolutions to fascism Providing a distinct and original explanation of the evolution and mutations of the far right Saull emphasizes its international causal dimensions through the prism of uneven and combined development Focusing on the twin political and economic transformations that dominated the second half of the nineteenth century the book discusses the connections between class race and geography in the evolution of far right movements and how the crises in the development of a liberal world order were central to the advance of the far right ultimately helping to produce fascism Volumes I and II of Capital Race and Space were shortlisted for the 2024 BISA IPEG book prize for best book published in the field of IPE in 2023 and subsequently recognised by the IPEG Book Prize Committee as Highly Commended The shortlisted books represent the very best of IPE scholarship cutting across disciplinary boundaries and addressing timely topics

The Scribner Library of Modern Europe John Merriman, 2006-08-01 The time

period between the onset of the French Revolution to the outbreak of World War I is one of the most studied periods in history. The heavily researched era is singled out in this exciting new five volume set covering the important people and the major events and developments in Europe. Broad in scope, the contributions of about 600 scholars across the globe are conveniently collected in a single encyclopedia that encompasses all areas of human endeavor. With a thoughtful index and accessible prose, readers can easily gather specific information or leisurely explore the period's scientific, social, and cultural history as well as its political, military, and economic developments. The collection of 868 articles illustrates the impact of the French Revolution and Napoleonic era on Europe and the transformation of its political, social, and cultural institutions by the forces of industrialization, nationalism, mass politics, imperialism, great power rivalries, and innovative cultural change. Each article includes a bibliography; some annotated. Enlivening the material are sidebars that clarify concepts and provide excerpts from primary source documents. Each volume also includes an 8 page color insert and numerous illustrations. A chronology and a thematic outline of the contents concisely frames the material in a larger context, helping readers build meaningful connections. This set links European experience to the history of the rest of the world, continuing the Charles Scribner's Sons award winning line from *Ancient Europe* and *Encyclopedia of the Renaissance* through *Europe 1450-1789* and *Encyclopedia of the Early Modern World*.

Communists and National Socialists Ken Post, 1997-06-11. A study of the Russian Revolution of 1917 and the coming to power of the Nazis in Germany in 1933 in light of the marxist proposition that revolution would come in advanced capitalist societies. The implications of the actual cases for the theory are drawn out and an original theorization of capitalist crisis combining economic and political factors is put forward.

The European Experience Jan Hansen, Jochen Hung, Jaroslav Ira, Judit Klement, Sylvain Lesage, Juan Luis Simal, Andrew Tompkins, 2023-02-21. The *European Experience* brings together the expertise of nearly a hundred historians from eight European universities to internationalise and diversify the study of modern European history, exploring a grand sweep of time from 1500 to 2000. Offering a valuable corrective to the Anglocentric narratives of previous English language textbooks, scholars from all over Europe have pooled their knowledge on comparative themes such as identities, cultural encounters, power, and citizenship and economic development to reflect the complexity and heterogeneous nature of the European experience. Rather than another grand narrative, the international author teams offer a multifaceted and rich perspective on the history of the continent of the past 500 years. Each major theme is dissected through three chronological sub-chapters, revealing how major social, political, and historical trends manifested themselves in different European settings during the early modern (1500-1800), modern (1800-1900), and contemporary period (1900-2000). This resource is of utmost relevance to today's history students in the light of ongoing internationalisation strategies for higher education curricula, as it delivers one of the first multi-perspective and truly European analyses of the continent's past. Beyond the provision of historical content, this textbook equips students with the intellectual tools to interrogate prevailing accounts of European history and enables them to seek out additional perspectives.

in a bid to further enrich the discipline The Standard of Living and Revolutions in Imperial Russia, 1700-1917 Boris Mironov, 2012-05-31 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and demography to draw conclusions on the dynamics in the standard of living over this long period of time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia Making Waves William G. Martin, 2015-12-03 Making Waves unearths the successive worldwide waves of revolts rebellions and revolutions that have shaken and remade the world from the eighteenth century to the present It challenges us to rethink not only our limited conceptions of social movements but the very character and possibilities of social movements The authors show how successive outbursts of global social protest have undermined world capitalist orders and through both their successes and their failures provided the basis for long periods of stable capitalist rule across all the zones of the world economy The surprises start in the Age of Revolution when the antisystemic wave of slave revolts that led to the Haitian Revolution is related to the systemic effects of their combination with the U S and French Revolutions The analysis comes up to the present when a wave of post 1989 movements points to quite divergent futures based as in the past on the search for alternatives to communities organized by capital accumulation nation states and the accelerating commodification and fragmentation of human needs identities and desires *Europe's Uncertain Path 1814-1914* R. S. Alexander, 2012-01-30 Europe s Uncertain Path is an introduction to Europe s turbulent history from 1814 to 1914 It presents a clear narrative of the major political events set against the backdrop of social economic and cultural change An introduction to Europe s turbulent history from 1814 to 1914 Provides students with a solid grounding in the main political events and social changes of the period Explains the causes and outcomes of major events the effect of the emergence of mass politics the evolution of political ideologies and the link between foreign and domestic policy Offers balanced coverage of Eastern Western and Central Europe Illustrations maps and figures enhance student understanding *Revolutionary Europe 1780-1850* Jonathan Sperber, 2017-04-21 Jonathan Sperber s Revolutionary Europe 1780 1850 is a history of Europe in the age of the French Revolution from the end of the old regime to the outcome of the revolutions of 1848 Fully revised and updated this second edition provides a continent wide history of the key political events and social transformation that took place within this turbulent period extending as far as their effects within the European colonial society of the Caribbean Key features include analyses of the movement from society s old regime of orders to a civil society of property owners the varied consequences of rapid population increase and the spread of market relations in the economy and the upshot of these changes for political life from violent revolutions and warfare to dramatic reforms and peaceful mass

movements a lively account of the events of the period and a thorough analysis of the political cultural and socioeconomic transformations that shaped them a look into the lives of ordinary people amidst the social and economic developments of the time a range of maps depicting the developments in Europe's geographic scope between 1789 and 1848 including for the 1820 1830 and 1848 revolutions Revolutionary Europe 1780 1850 is the perfect introduction for students of the history of the French Revolution and the history of Europe more broadly

History of Europe Rowan Allen & Denny Rose, 2018-03-28

History of Europe describes the history of humans inhabiting the European continent since it was first populated in prehistoric times to present with the first human settlement between 45 000 and 25 000 BC Europe is the world's second smallest continent by surface area covering about 10 180 000 square kilometers 3 930 000 sq mi or 2% of the Earth's surface and about 6.8% of its land area The history of Europe covers the peoples inhabiting Europe from prehistory to the present The period known as classical antiquity began with the emergence of the city states of ancient Greece Later the Roman Empire came to dominate the entire Mediterranean basin The fall of the Roman Empire in AD 476 traditionally marks the start of the middle ages Beginning in the 14th century a Renaissance of knowledge challenged traditional doctrines in science and theology Simultaneously the Protestant Reformation set up Protestant churches primarily in Germany Scandinavia and England After 1800 the Industrial Revolution brought prosperity to Britain and Western Europe The main powers set up colonies in most of the Americas and Africa and parts of Asia In the 20th century World War I and World War II resulted in massive numbers of deaths The Cold War dominated European geopolitics from 1947 to 1989 Unification into a European Union moved forward after 1950 with some setbacks This book is primarily designed to cater to the needs of the students of various levels It will also be of immense help to those who are preparing for various state and central level competitive examinations

Nietzsche and the Critique of Revolution Antonio Fontana, 2019-07-24

Revisiting over fifty years of post structuralist post modernist and Existentialist readings of Nietzsche this study offers an incisive scholarly deconstruction and critique of apolitical and individualist readings and interpretations of Nietzsche's philosophical corpus Specifically it views the German thinker as partaking of a larger intellectual tradition the 19th century Western European reactionary conservative and counter revolutionary tradition The work combines genealogical and historical investigation with analysis of Nietzsche's life long philosophical and ideological struggle against the forces of modernity as embodied by feminism socialism nationalism and democratic liberalism beginning with his implicit critique of the Paris Commune in his first work The Birth of Tragedy all the way to his scathing critiques of progress and socialism in his last works and his incipient formulation of a new anti revolutionary politics A synthesis and development of the few scholars of the past decade who have also seen Nietzsche as a conservative and deeply political thinker is also provided here whilst the book simultaneously argues for the revolutionary and anti Eurocentric implications of the German thinker's critique of historicism and of inevitable historical progress It is an excellent resource for both scholars and lay readers alike who want to learn

something new about Nietzsche and who are also critical of the apolitical conception of the great thinker that has prevailed in academia since the Second World War

E-learning History. Evaluating European Experiences Sirkku Anttonen, Henri Terho, 2006*

State-Making in an Age of Revolution, 1830-1880 Christos Aliprantis, Anna

Ross, 2025-07-02 How did states expand in the mid nineteenth century While scholars now associate the period after the 1848 revolutions with a striking increase in state activity few have demonstrated how new state building measures were put into practice From France to Hungary and Scandinavia to Spain State Making in An Age of Revolution shows how officials went about implementing reform With original contributions grounded in extensive archival research this volume casts light on the scale at which officials relied on elites professionals and technical experts both inside and outside of government and even from outside their own states to carry out their expanding work Together these findings help us to re think the reach and nature of growing states during these pivotal decades of change

Women, Migration and the Exchange of Knowledge from the Sixteenth to the Twenty-first Century Nicoleta Roman, Beatrice Zucca Micheletto, 2025-03-22

This book examines female migration between Eastern and Western Europe from the sixteenth to the twentieth century Bringing together contributions from scholars working in diverse disciplines the book focuses on the social economic and cultural exchanges between migrants and the inhabitants of their host countries arguing that women were central to these interactions due to their commercial artisanal and intellectual skills The chapters shed light on the various roles and professions that women undertook when migrating across Europe providing case studies of governesses domestic servants and caregivers traders and merchants doctors and scholars and emphasising how these roles shaped their identities The authors illustrate how social mobility was engendered by skilled migration and academic mobility whilst also illuminating the prejudices and challenges that faced women as they attempted to integrate into their new host societies alongside their families Taking a comparative approach to explore the experiences of migrants across a range of countries in Europe and over a vast period from the Habsburg Ottoman and Russian Empires up until today this collection provides insights into the long history of migration between Eastern and Western Europe Nicoleta Roman is a researcher at the Nicolae Iorga Institute of History of the Romanian Academy and at New Europe College Institute for Advanced Study both in Bucharest Romania Her research interests revolve around social and economic history gender and the history of women and children in pre modern Romania and Southeastern Europe Beatrice Zucca Micheletto is a researcher in the Department of Cultures Politics and Society at the University of Turin Italy where she teaches Economic History of Migration Her research focuses on economic and social history women and gender history migration history and labour history of early modern and modern Europe in Italy and France

Democracy and Dictatorship in Europe Sheri Berman, 2019-01-04 At the end of the twentieth century many believed the story of European political development had come to an end Modern democracy began in Europe but for hundreds of years it competed with various forms of dictatorship Now though the entire continent was in the

democratic camp for the first time in history But within a decade this story had already begun to unravel Some of the continent's newer democracies slid back towards dictatorship while citizens in many of its older democracies began questioning democracy's functioning and even its legitimacy And of course it is not merely in Europe where democracy is under siege Across the globe the immense optimism accompanying the post Cold War democratic wave has been replaced by pessimism Many new democracies in Latin America Africa and Asia began backsliding while the Arab Spring quickly turned into the Arab winter The victory of Donald Trump led many to wonder if it represented a threat to the future of liberal democracy in the United States Indeed it is increasingly common today for leaders intellectuals commentators and others to claim that rather than democracy some form dictatorship or illiberal democracy is the wave of the future

In *Democracy and Dictatorship in Europe* Sheri Berman traces the long history of democracy in its cradle Europe She explains that in fact just about every democratic wave in Europe initially failed either collapsing in upon itself or succumbing to the forces of reaction Yet even when democratic waves failed there were always some achievements that lasted Even the most virulently reactionary regimes could not suppress every element of democratic progress Panoramic in scope Berman takes readers through two centuries of turmoil revolution fascism civil war and finally the emergence of liberal democratic Europe in the postwar era A magisterial retelling of modern European political history *Democracy and Dictatorship in Europe* not only explains how democracy actually develops but how we should interpret the current wave of illiberalism sweeping Europe and the rest of the world

Nationalism R.J.B Bosworth, 2013-12-02 Why do many of us swell with pride at the sound of the national anthem or sight of the national flag Why do we use our nationalities to describe who we are Why do politicians claim to stand for national values above all else In his new critical study of nationalism R J B Bosworth explores the origins and purpose of the division of human kind into national groupings The book explores the history of nationalism arguing that the present is seeing a dangerous growth of what might be called national fundamentalism Bosworth suggests that nations work best when they possess the ability to criticize their nationalism They become menacing when they demand the nationalization of people's empathy lauding national values for example rather than humane or civilized ones Nationalism demonstrates how the globalizing world is seeing a renaissance and adaptation of ideas that were prevalent in the inter war period and challenges us to decide whether we should reject nationalist fundamentalism in a civilized world
