Revolution Of 1917 2:

The Revolutions of 1917 VI Lenin, 2024-09-30 Lenin's writings from 1917 are a marvellous insight into the Bolshevik leader's thinking in this crucial year 1917 witnessed a series of dramatic turns that propelled the Bolsheviks the most revolutionary party in history from some 8 000 members to a mass force of 400 000 in just nine months Following the February Revolution Lenin was forced to rearm the Bolsheviks with a new perspective of socialist revolution With skilful tactics and a bold approach he presided over the growth of the party Although the Bolsheviks were driven underground in July and Lenin branded a state criminal by the Provisional Government the failed coup by General Kornilov in August transformed the situation By fighting in a united front against Kornilov the Bolsheviks succeeded in winning a majority in the Soviets Under Lenin's guidance outlined in this volume this victory prepared the way for the October Revolution These selected writings draw out the invaluable role of the revolutionary party and its leadership They are an essential guide for those fighting for socialist revolution today

A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

The History of the Russian Revolution Vol. I Leon Trotsky, 2018-03-02 THE HISTORY OF THE RUSSIAN REVOLUTION Vol I The overthrow of Tzarism This book offers an unparalleled account of one of the most pivotal and hotly debated events in world history It reveals from the perspective of one of its central actors the revolution's profoundly democratic emancipatory character In this first part Trotsky analyzes the social and political characteristics of Russia preceding the Revolution and presents the events of 1917 till July It is an exciting chronicle and at the same time a historical document of extraordinary value Bi Classics also published part 2 and 3 of this fundamental political and historical work During the first two months of 1917 Russia was still a Romanov monarchy Eight months later the Bolsheviks stood at the helm They were little known to anybody when the year began and their leaders were still under indictment for state treason when they came to power You will not find another such sharp turn in history especially if you remember that it involves a nation of 150 million people It is clear that the events of 1917 whatever you think of them deserve study L Trotsky

Reinterpreting Revolution in Twentieth-Century Europe Moira Donald, Tim Rees, 2017-03-14 Until the dramatic fall of Communist regimes in the East placed the possibility of revolution on the agenda once again sudden and decisive political change had appeared a largely anachronistic phenomenon in Europe Looking back over the twentieth century it is plausible to argue that the twentieth rather than the nineteenth has been the most revolutionary of centuries In this volume leading specialists from a variety of disciplines examine the changing and conflicting meanings of revolution in modern and contemporary Europe Contributions include both broad essays on the global and historical context of European revolution and specific case studies reinterpreting a variety of revolutionary experiences New York State Education Department Bulletin, 1920

Defenders of the Motherland Matthew Rendle, 2010 Matthew Rendle studies how the most powerful social groups in tsarist Russia reacted to the challenges of 1917 He argues that the alienation of elites from the tsar and their support for the Provisional Government secured the initial success of the revolution but the threat they posed laid the foundations of the repressive Soviet regime

Telling October Frederick Corney, 2018-08-06 All revolutionary regimes seek to legitimize themselves through foundation narratives that told and retold become constituent parts of the social fabric erasing or pushing aside alternative histories Frederick C Corney draws on a wide range of sources archives published works films to explore the potent foundation narrative of Russia's Great October Socialist Revolution He shows that even as it fought a bloody civil war with the forces that sought to displace it the Bolshevik regime set about creating a new historical genealogy of which the October Revolution was the only possible culmination This new narrative was forged through a complex process that included the sacralization of October through ritualized celebrations its institutionalization in museums and professional institutes devoted to its study and ambitious campaigns to persuade the masses that their lives were an inextricable part of this historical process By the late 1920s the Bolshevik regime had transformed its representation of what had occurred in 1917 into a new orthodoxy the October Revolution Corney investigates efforts to convey the dramatic essence of 1917 as a Bolshevik story through the increasingly elaborate anniversary celebrations of 1918 1919 and 1920 He also describes how official commissions during the 1920s sought to institutionalize this new foundation narrative as history and memory In the book's final chapter the author assesses the state of the October narrative at its tenth anniversary paying particular attention to the versions presented in the celebratory films by Eisenstein and Pudovkin A brief epilogue assesses October's fate in the years since the collapse of the Soviet Union

Dynasty Divided Fabian Baumann, 2023-08-15 Winner of the W Bruce Lincoln Book Prize *Dynasty Divided* uses the story of a prominent Kievan family of journalists scholars and politicians to analyze the emergence of rivaling nationalisms in nineteenth century Ukraine the most pivotal borderland of the Russian Empire The Shulgins identified as Russians and defended the tsarist autocracy the

Shul hyns identified as Ukrainians and supported peasant oriented socialism Fabian Baumann shows how these men and women consciously chose a political position and only then began their self fashioning as members of a national community defying the notion of nationalism as a direct consequence of ethnicity Baumann asks what made individuals into determined nationalists in the first place revealing the close link to private lives including intimate family dramas and scandals He looks at how nationalism emerged from domestic spaces and how women played an important if often invisible role in fin de si cle politics Dynasty Divided explains how nineteenth century Kievans cultivated their national self images and how by the twentieth century Ukraine steered away from Russia The two branches of this family of Russian nationalists and Ukrainian nationalists epitomize the struggles for modern Ukraine

Politics and International Relations in Eurasia Stylianos A. Sotiriou,2019-03-28 Eurasia has long been characterized by intense competition among populations and among States The collapse of the Soviet Union constituted a critical juncture in the region s course since informal and formal norms subsided giving rise to a hardly regulated socio political environment where survival and security considerations ranked atop In this context populations first and foremost sought to have their existence guaranteed within nation states While in most cases that transition was accomplished without major impediments in the cases of Moldova Ukraine Georgia and Azerbaijan major challenges have been encountered leaving their mark deep in the post soviet course of the newly independent republics Moldova has been rattled by the conflict in Transdnistria Ukraine by the conflict in Crimea Georgia by the conflict in South Ossetia and Abkhazia and Azerbaijan by the conflict in Nagorno Karabakh In fact these conflicts have been classified as frozen conflicts given their unsettled nature and the smoldering fire between opposing populations within the respective republics This intense competition however has not been constrained only to the domestic level and only to the issue of frozen conflicts Eurasia s energy prospects have also been the cause of a constant power struggle among the States of the region With the Caspian Sea to constitute a rich in natural resources hub a clash of interests has taken place among the littoral States Moreover this competition has acquired a much broader geopolitical dimension extending to Eurasia s two ends the European Union and China As a result Eurasia s underbelly has become an area where the maximization of power

figures as the best guarantee of survival and security in a fully unregulated environment Taken together frozen conflicts domestic level and energy politics international level stand out as the two main features of Eurasia both unfolding in comparable conditions Therefore the book presents them as a two level game aiming at offering better substantiated explanations that draw on the very fundamentals of political science and at building a bridge of communication between the two levels that allows for well informed and widely applicable policy implications

An Outline of Modern History

Edward Mead Earle,1921 *The Russian Revolution, 1905-1921* Mark D. Steinberg,2017 A new history of the Russian Revolution exploring how people experienced it in their own lives from Bloody Sunday in 1905 to the final shots of the civil war in 1921 The Russian Revolution 1905 1921 focuses on human experience to address key issues of inequality power and violence and ideas of justice and freedom *Russia in Revolution* S. A. Smith,2017-01-19 The Russian Revolution of 1917 transformed the face of the Russian empire politically economically socially and culturally and also profoundly affected the course of world history for the rest of the twentieth century Historian S A Smith presents a panoramic account of the history of the Russian empire from the last years of the nineteenth century through the First World War and the revolutions of 1917 and the establishment of the Bolshevik regime to the end of the 1920s when Stalin simultaneously unleashed violent collectivization of agriculture and crash industrialization upon Russian society Drawing on recent archivally based scholarship *Russia in Revolution* pays particular attention to the varying impact of the Revolution on the various groups that made up society peasants workers non Russian nationalities the army women and the family young people and the Church In doing so it provides a fresh way into the big perennial questions about the Revolution and its consequences why did the attempt by the tsarist government to implement political reform after the 1905 Revolution fail why did the First World War bring about the collapse of the tsarist system why did the attempt to create a democratic system after the February Revolution of 1917 not get off the ground why did the Bolsheviks succeed in seizing and holding on to power why did they come out victorious from a punishing civil war why did the New Economic Policy they introduced in 1921 fail and why did Stalin come out on top in the power struggle inside the Bolshevik party after Lenin s death in 1924 A final chapter then reflects on the larger significance of 1917 for the history of the twentieth century and for all its terrible flaws what the promise of the Revolution might mean for us today

Stalin Stephen Kotkin,2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin s psychological makeup showing us instead how Stalin s near paranoia was fundamentally political and closely tracks the Bolshevik revolution s structural paranoia the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin s momentous decisions outside of the context of the history of imperial Russia
