Revolutionaries Monarchists And Chinatowns Chinese Politics In The Americas And The 1911 Revolution:

Revolutionaries, Monarchists, and Chinatowns L. Eve Armentrout Ma, 1990 Examines the role Chinese living abroad played in the revolution of 1911 and asserts that the structure and orientation of America's Chinese communities were permanently changed by those involvements *Revolutionaries, Monarchists, and Chinatowns* L. Eve Ma, 1990 *Shaping and Reshaping Chinese American Identity* Jingyi Song, 2010-04-12 Shaping and Reshaping Chinese American Identity New York's Chinese in the Years of the Depression and World War II explores the role played by Chinese Americans in New York in the 1930s who laid the foundation for future generations to fight for civil rights as American citizens The stories of Chinese Americans during the Depression years and World War II are underrepresented in the existing literature that has been confined to the early days of the settlement of Chinese Americans on the west coast of the United States They were usually depicted as passive victims of exclusion as a result of Chinese Exclusion Laws This book focuses on the active participation of the Chinese American in New York City in mainstream political economic and social life that helped them to forge new identity as Chinese Americans Their active participation in federal and local elections as a means of claiming their rights as American citizens demonstrated their growing political consciousness Chinese New Yorkers support of both China and United States during the war reflected their dual identity as both Chinese and Americans Their contributions to the war front and to the home front after Pearl Harbor eventually forced the reconsideration of the Chinese Exclusion Laws The book concludes by relating the active participation of the Chinese in New York during the war years to the national movement for racial equality that resulted in new federal civil rights legislation *Chinese American Voices* Judy Yung, Gordon Chang, Him Mark Lai, 2006-03-20 Offering a textured history of the Chinese in America since their arrival during the California Gold Rush this work includes letters speeches testimonies oral histories personal memoirs poems essays and folksongs It provides an insight into immigration work family and social life and the longstanding fight for equality and inclusion **The Oxford Handbook of Asian American History** David K. Yoo, Eiichiro Azuma, 2016-01-04 After emerging from the tumult of social movements of the 1960s and 1970s the field of Asian American studies has enjoyed rapid and extraordinary growth Nonetheless many aspects of Asian American history still remain open to debate The Oxford Handbook of Asian American History offers the first comprehensive commentary on the state of the field simultaneously assessing where Asian American studies came from and what the future holds In this volume thirty leading scholars offer original essays on a wide range of topics The chapters trace Asian American history from the beginning of the migration flows toward the Pacific Islands and the American continent to Japanese American incarceration and Asian American participation in World War II from the experience of exclusion violence and racism to the social and political activism of the late twentieth century The authors explore many of the key aspects of the Asian American experience including politics economy intellectual life the arts education religion labor gender family urban development and legal history The Oxford Handbook of Asian American History

demonstrates how the roots of Asian American history are linked to visions of a nation marked by justice and equity and to a deep effort to participate in a global project aimed at liberation The contributors to this volume attest to the ongoing importance of these ideals showing how the mass politics creative expressions and the imagination that emerged during the 1960s are still relevant today It is an unprecedentedly detailed portrait of Asian Americans and how they have helped change the face of the United States *Ambition and Identity* Andrew R. Wilson, 2004-02-28 What binds overseas Chinese communities together Traditionally scholars have stressed the interplay of external factors discrimination local hostility and internal forces shared language native place ties family to account for the cohesion and Chineseness of these overseas groups Andrew Wilson challenges this Manichean explanation of identity by introducing a third factor the ambitions of the Chinese merchant elite which played an equal if not greater role in the formation of ethnic identity among the Chinese in colonial Manila Drawing on Chinese Spanish and American sources and applying a broad range of historiographical approaches this volume dissects the structures of authority and identity within Manila's Chinese community over a period of dramatic socioeconomic change and political upheaval It reveals the ways in which wealthy Chinese merchants dealt in not only goods and services but also political influence and the movement of human talent from China to the Philippines Their influence and status extended across the physical and political divide between China and the Philippines from the villages of southern China to the streets of Manila making them a truly transnational elite Control of community institutions and especially migration networks accounts for the cohesiveness of Manila's Chinese enclave argues Wilson and the most successful members of the elite self consciously chose to identify themselves and their progenies as Chinese **Sun Yatsen, Robert Wilcox and Their Failed Revolutions, Honolulu and Canton 1895** Patrick Anderson, 2021-06-27 Dynamite on the Tropic of Cancer is the radical explosive retelling of the first decade of the Father of Modern China Dr Sun Yatsen's globally shaped formation as a professional revolutionist and of the impact of the adult Sun's revolutionary relationship with Hawai'i and with his varied communities of supporters there during its own most turbulent political decade the 1890s years in which this remote island nation transformed from native monarchy via sovereign independent republic to become the USA's first overseas territory Drawn from neglected primary sources Dynamite reveals the hitherto untold story of the secret revolutionary alliance forged in Honolulu's backstreets between Sun's Xingzhonghui and the idiosyncratic Italophile soldier Robert Wilcox Hawai'i's Garibaldi and leader of the Kanaka Native Hawaiian counterrevolution of January 1895 This failed uprising to restore Hawai'i's tragic last Queen witnessed firsthand by Sun Yatsen became the archetype upon which ten months later Sun would base his own first attempt at armed insurrection in China the Canton uprising of 26 October 1895 With an epic sweep across the Pacific's Tropic of Cancer Dynamite is the most important study yet written on the origins of Sun Yatsen's Chinese Revolution and its dynamic interface with Hawaiian history *Sinophone Studies* Shu-mei Shih, 2013-01-15 This definitive anthology casts Sinophone studies as the study of Sinitic language cultures born of colonial

and postcolonial influences Essays by such authors as Rey Chow Ha Jin Leo Ou fan Lee Ien Ang Wei ming Tu and David Wang address debates concerning the nature of Chineseness while introducing readers to essential readings in Tibetan Malaysian Taiwanese French Caribbean and American Sinophone literatures By placing Sinophone cultures at the crossroads of multiple empires this anthology richly demonstrates the transformative power of multiculturalism and multilingualism and by examining the place based cultural and social practices of Sinitic language communities in their historical contexts beyond China proper it effectively refutes the diasporic framework It is an invaluable companion for courses in Asian postcolonial empire and ethnic studies as well as world and comparative literature Rethinking Revolutions from 1905 to 1934 Stefan

Berger, Klaus Weinbauer, 2022-12-13 This edited collection offers a timely and original perspective on the many upheavals and revolutions that broke out across the world during the early twentieth century With previous research tending to confine revolutions within national borders this book sets out to place them within a broader global sphere of thought and action The authors explore the time phase between the Russian Revolution of 1905 and the Asturian Revolution of 1934 including cases from South Africa Australia China the Middle East and Latin America Providing insights from leading scholars in the field this collection highlights the interconnectedness and transnationalism of upheavals and revolutions offering a new approach which integrates political social and cultural history Chapter 8 is available open access under a Creative Commons Attribution 4.0 International License via [Link springer.com](https://link.springer.com) **Contesting White Supremacy** Timothy J.

Stanley, 2011-01-17 In 1922-23 Chinese students in Victoria British Columbia went on strike to protest a school board's attempt to impose segregation Their resistance was unexpected at the time and runs against the grain of mainstream accounts of Asian exclusion which tend to ignore the agency of the excluded *Contesting White Supremacy* offers an alternative reading of racism in British Columbia Drawing on Chinese sources and perspectives and an innovative theory of racism and anti racism to explain the strike Timothy Stanley demonstrates that by the 1920s migrants from China and their BC born children actively resisted policy makers efforts to organize white supremacy into the very texture of life The education system served as an arena where white supremacy confronted Chinese nationalist schooling and where parents and students rejected the idea of being either Chinese or Canadian and instead invented a new category Chinese Canadian to define their identity *Anglo-Chinese Encounters Since 1800* Wang Gungwu, 2003-04-07 A penetrating and sophisticated 2003 account of the relationship between China and imperial Britain *Chinatown Film Culture* Kim K.

Fahlstedt, 2020-08-14 *Chinatown Film Culture* provides the first comprehensive account of the emergence of film and moviegoing in the transpacific hub of San Francisco in the early twentieth century Working with materials previously left in the margins of grand narratives of history Kim K Fahlstedt uncovers the complexity of a local entertainment culture that offered spaces where marginalized Chinese Americans experienced and participated in local iterations of modernity At the same time this space also fostered a powerful Orientalist aesthetic that would eventually be exported to Hollywood by San

Francisco showmen such as Sid Grauman Instead of primarily focusing on the screen spectator relationship Fahlstedt suggests that immigrant audiences role in the proliferation of cinema as public entertainment in the United States saturated the whole moviegoing experience from outside on the street to inside the movie theater By highlighting San Francisco and Chinatown as featured participants rather than bit players Chinatown Film Culture provides an historical account from the margins alternative to the more dominant narratives of U S film history

In Pursuit of Gold Sue Fawn Chung, 2011-08-01 Both a history of an overlooked community and a well rounded reassessment of prevailing assumptions about Chinese miners in the American West In Pursuit of Gold brings to life in rich detail the world of turn of the century mining towns in the Northwest Sue Fawn Chung meticulously recreates the lives of Chinese immigrants miners merchants and others who populated these towns and interacted amicably with their white and Native American neighbors defying the common perception of nineteenth century Chinese communities as insular enclaves subject to increasing prejudice and violence While most research has focused on Chinese miners in California this book is the first extensive study of Chinese experiences in the towns of John Day in Oregon and Tuscarora Island Mountain and Gold Creek in Nevada Chung illustrates the relationships between miners and merchants within the communities and in the larger context of immigration arguing that the leaders of the Chinese and non Chinese communities worked together to create economic interdependence and to short circuit many of the hostilities and tensions that plagued other mining towns Peppered with fascinating details about these communities from the intricacies of Chinese gambling games to the techniques of hydraulic mining In Pursuit of Gold draws on a wealth of historical materials including immigration records census manuscripts legal documents newspapers memoirs and manuscript collections Chung supplements this historical research with invaluable first hand observations of artifacts that she experienced in archaeological digs and restoration efforts at several of the sites of the former booming mining towns In clear analytical prose Chung expertly characterizes the movement of Chinese miners into Oregon and Nevada the heyday of their mining efforts in the region and the decline of the communities due to changes in the mining industry Highlighting the positive experiences and friendships many of the immigrants had in these relatively isolated mining communities In Pursuit of Gold

Chinese Cubans Kathleen López, 2013 In the mid nineteenth century Cuba s infamous coolie trade brought well over 100 000 Chinese indentured laborers to its shores Though subjected to abominable conditions they were followed during subsequent decades by smaller numbers of merchants craftsmen and free migrants searching for better lives far from home In a comprehensive vibrant history that draws deeply on Chinese and Spanish language sources in both China and Cuba Kathleen Lopez explores the transition of the Chinese from indentured to free migrants the formation of transnational communities and the eventual incorporation of the Chinese into the Cuban citizenry during the first half of the twentieth century Chinese Cubans shows how Chinese migration intermarriage and assimilation are central to Cuban history and national identity during a key period of transition from slave to wage labor and from colony to nation On a broader level Lopez draws out implications for issues of race national identity and transnational migration especially along the Pacific rim

Republicanism, Communism, Islam John T. Sidel, 2021-05-15 In Republicanism Communism Islam John T Sidel provides an alternate vantage point for understanding the variegated forms and trajectories of revolution across the Philippines Indonesia and Vietnam a perspective that is de nationalized internationalized and transnationalized Sidel positions this new vantage point against the conventional framing of revolutions in modern Southeast Asian history in terms of a nationalist template on the one hand and distinctive local cultures and forms of consciousness on the other Sidel s comparative analysis shows how in very different decisive and often surprising ways the Philippine Indonesian and Vietnamese revolutions were informed enabled and impelled by diverse cosmopolitan connections and international conjunctures Sidel addresses the role of Freemasonry in the making of the Philippine revolution the importance of Communism and Islam in Indonesia s Revolusi and the influence that shifting political currents in China and anticolonial movements in Africa had on Vietnamese revolutionaries Through this assessment Republicanism Communism and Islam tracks how these forces rather than nationalism per se shaped the forms of these revolutions the ways in which they unfolded and the legacies which they left in their wakes

Ethnicity, Race, and American Foreign Policy Alexander DeConde, 1992 This book sheds a disconcerting light on a familiar history contending that ethnoracial considerations and especially British American ethnocentrism have often taken priority over morality ideology and other factors in determining U S foreign policy
