being an egoist publicity hound double dealer and Machiavellian accusations that his friends and even he himself could not deny He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty one elections that he contested between 1899 and 1955 The House of Commons was Churchill s political temple where he exalted in the speeches and harangues on the floor and the backroom horse trading and camaraderie Most of his life he was a Cassandra warning against the threats of Communism Nazism and nuclear Armageddon With his ability to think beyond mental boxes and connect far flung dots he clearly foretold events to which virtually everyone else was oblivious Yet he was certainly not always right and was at times spectacularly wrong This is the first book that explores how Churchill understood and asserted the art of power mostly through hundreds of his own insights expressed through his speeches and writings

everyday Joes and Janes created one of the world's first smart weapons the proximity fuse. The tiny gadget allowed an artillery shell to know when to explode to bring down an aircraft. Against overwhelming odds and in a race against time, mustering every scrap of resource, ingenuity and insight, the scientists of Section T would eventually save countless lives, rescue the city of London from the onslaught of a Nazi superweapon and help bring about the Axis defeat. A holy grail sought after by Allied and Axis powers alike, the fuse ranks with the atomic bomb as one of the most revolutionary technologies of the Second World War. Until now its tale was largely untold. For fans of Erik Larson and Ben Macintyre set amidst the fog of espionage, dueling spies and the dawn of an age when science would determine the fate of the world, *12 Seconds of Silence* is a tribute to the extraordinary wartime mobilization of American science and the ultimate can-do story. [Breaking the Gas Ceiling](#) Rebecca Ponton, 2019 The international petroleum industry has long been known the world over as a good old boys club, and nowhere is the oil and gas industry's gender imbalance more apparent than offshore. The untold story shared in these pages is about the women who have been among the first to inhabit this world and whose stories previously have been a missing part of the history of the industry. As a CEO, I believe it is imperative for today's generation of young women to realize there is a seat for them in the boards of oil and gas companies, as the gas ceiling can be broken quicker and easier than before. Reading this book, they will think about these women who have gone before them and broken down those barriers in order to give them new opportunities. Maria Moraeus Hanssen, CEO DEA, Deutsche Erdoel AG. My belief is that diversity is key to both creativity and solid long-term business results. Even in a country like Norway where professional gender diversity is greater than in any other country, I have had interactions with us where we have an underrepresentation of women in top management positions. I would therefore like to express my appreciation to Rebecca Ponton for keeping this important subject on the agenda by presenting to us positive, impressive, and at the same time obtainable role models. Grethe K. Moen, CEO and President Petoro AS. As the industry now is more complex and faces more uncertainty, women will be more important contributors, especially in

management and communication Women could be just what is needed Karen Sund Founder Sund Energy AS Everyone needs role models and role models that look like you are even better For women the oil and gas industry has historically been pretty thin on role models for young women to look up to Rebecca Ponton has provided an outstanding compilation of role models for all women who aspire to success in one of the most important industries of modern times Dave Payne Chevron VP Drilling Completions Learn more at [www BreakingTheGlassCeiling com](http://www.BreakingTheGlassCeiling.com) From the World Voices Series at Modern History Press [www ModernHistoryPress com](http://www.ModernHistoryPress.com)
