Picturing the Wolf in Children's Literature Debra Mitts-Smith, 2012-12-06 From the villainous beast of Little Red Riding

Hood and The Three Little Pigs to the nurturing wolves of Romulus and Remus and Rudyard Kipling's The Jungle Book the wolf has long been a part of the landscape of children's literature. Meanwhile since the 1960s and the popularization of scientific research on these animals children's books have begun to feature more nuanced views. In *Picturing the Wolf in Children's Literature* Mitts Smith analyzes visual images of the wolf in children's books published in Western Europe and North America from 1500 to the present. In particular she considers how wolves are depicted in and across particular works, the values and attitudes that inform these depictions and how the concept of the wolf has changed over time. What she discovers is that illustrations and photos in works for children impart social, cultural and scientific information not only about wolves but also about humans and human behavior. First encountered in childhood picture books act as a training ground where the young learn both how to decode the symbolic wolf across various contexts and how to make sense of real wolves. Mitts Smith studies sources including myths, legends, fables, folk and fairy tales, fractured tales, fictional stories and nonfiction, highlighting those instances in which images play a major role including illustrated anthologies, chapbooks, picture books and informational books. This book will be of interest to children's literature scholars as well as those interested in the figure of the wolf and how it has been informed over time. [Children's Literature in the Classroom](#) Diane M. Barone, 2010-09-23. This guide provides a wealth of ideas for incorporating high quality children's books of all kinds into K-6 classrooms. Numerous practical strategies are presented for engaging students with picturebooks, fiction, nonfiction and nontraditional texts from publisher description. **Don't Leave the Story in the Book** Mary Hynes-Berry, 2015-04-24. Drawing from 30 years of teaching and professional development experience, this book offers a roadmap for using children's literature to provide authentic learning. Featuring a storyteller's voice, each chapter includes a case study about how a particular fiction or nonfiction work can be used in an early childhood classroom, a series of open-ended questions to help readers construct their own inquiry units and a bibliography of children's literature. This book provides a unique synthesis of ideas based on constructivist approaches to learning, including the importance of positive dispositions and learning communities, the nature of higher order thinking and the relationship between methods such as guided inquiry in the sciences and balanced literacy.
