New Women in the Old West

Winifred Gallagher, 2022-07-19 A riveting and previously untold history of the American West as seen by the pioneering women who advocated for their rights amidst challenges of migration and settlement and transformed the country in the process Between 1840 and 1910 hundreds of thousands of men and women traveled deep into the underdeveloped American West lured by adventure opportunity and the spirit of Manifest Destiny These settlers soon realized that survival in a new society required women to compromise eastern sensibilities and take on some of their husbands responsibilities At a time when women had very few legal or economic much less political rights these women soon proved just as essential as men to westward expansion During the mid nineteenth century the traditional domestic model of womanhood shifted to include public service with the women of the West becoming town mothers who established schools churches and philanthropies while also coproviding for their families They claimed their own homesteads and graduated from new free coeducational colleges that provided career alternatives to marriage In 1869 the men of the Wyoming Territory gave women the right to vote partly to persuade more of them to move west but with this victory in hand western suffragists fought relentlessly until

the rest of the region followed suit By 1914 western women became the first American women to vote a right still denied to women in every eastern state In *New Women in the Old West* Winifred Gallagher brings to life the riveting history of the little known women the White Black and Asian settlers and the Native Americans and Hispanics they displaced who played monumental roles in one of America s most transformative periods Drawing on an extraordinary collection of research Gallagher weaves together the striking legacy of the persistent individuals who not only created homes on weather wracked prairies but also played a vital unrecognized role in the women s rights movement and forever redefined the American woman

Branding the American West Marian Wardle,Sarah E. Boehme,2016-02-17 Artists and filmmakers in the early twentieth century reshaped our vision of the American West In particular the Taos Society of Artists and the California based artist Maynard Dixon departed from the legendary depiction of the Wild West and fostered new images or brands for western art This volume illustrated with more than 150 images examines select paintings and films to demonstrate how these artists both enhanced and contradicted earlier representations of the West Prior to this period American art tended to portray the West as a wild frontier with untamed lands and peoples Renowned artists such as Henry Farny and Frederic Remington set their work in the past invoking an environment immersed in conflict and violence This trademark perspective began to change however when artists enamored with the Southwest stamped a new imprint on their paintings The contributors to this volume illuminate the complex ways in which early twentieth century artists as well as filmmakers evoked a southwestern environment not just suspended in time but also permanent rather than transient Yet as the authors also reveal these artists were not entirely immune to the siren call of the vanishing West and their portrayal of peaceful yet exotic Native Americans was an expansion rather than a dismissal of earlier tropes Both brands cast a romantic spell on the West and both have been seared into public consciousness *Branding the American West* is published in association with the Brigham Young University Museum of Art Provo Utah and the Stark Museum of Art Orange Texas
