jewel in the crown of Europe and the epitome of decadence This edited collection of eleven essays draws on a range of disciplines and approaches to ask how Venice's appeal has affected Western culture since 1800 *After Orientalism*, 2016-08-09 How does Edward Said's Orientalism speak to us today What relevance did and does it have politically and intellectually How and in what modes does Orientalism engage with new intersecting fields of inquiry At the occasion of the twenty fifth anniversary of Orientalism these questions shape the essays collected in the present volume The after of the title does not only guide the contributions in a look on past discussions but specifically points at future research as well Orientalism's critical entanglements are thus connected to productive looks these productive looks make us read differently but only after we recognize our struggle with the dominant notions that we live by that divide and unite us More specifically this volume addresses three fields of research enabling productive looks visual culture the body sexuality and the performative and national identities modernity and gender All articles weaving delicate new analytical and theoretical textures maintain vital links with at least two of the fields mentioned Orientalism's role as a cultural catalyst is gauged in the analysis of materials such as Iranian film 16th and 17th century Venetian representations of the Turk Barthes take on Japanese culture modern Arab travel narratives Palestinian popular culture photography on and of the Maghreb Japanese queer and gay culture the 19th century Illustrated London News theories on migration and exile postcolonial cinema and Hanan al Shaykh's and Mai Ghoussoub's writing on civil war in Lebanon Authors include Karina Eileraas Belgin Turan zkaya Joshua Paul Dale John Potvin Mark McLelland Tina Sherwell Nasrin Rahimieh Stephen Morton Anastasia Vallasopoulos Suha Kudsieh and Kate McInturff Perceptions of Retailing in Early Modern England Nancy Cox, Karin Dannehl, 2017-05-15 Whilst there has been much recent scholarly work on retailing during the early modern period less is known about how people at the time perceived retailing both as onlookers artists and commentators and as participants Centred on the general theme of perceptions the authors address this gap in our knowledge by looking at a different aspect of consumption They focus on two ancillary themes the first is location and how contemporaries perceived the settlements in which there were shops the other is distance Pictures prints novels diaries and promotional literature of the tradespeople themselves provide much of the evidence Many of these sources are not new to historians but they have not been scrutinized and analysed with the questions in mind that are posed here The methodology to be employed has been developed by Nancy Cox over the last decade and is used successfully in her book *The Complete Tradesman* and in the compilation of the forthcoming *Dictionary of Traded Goods and Commodities 1550-1800* This book will find a ready market with scholars concerned with British social and economic history in the early modern period Although it is first and foremost a book written by historians for historians it nevertheless borrows concepts and approaches from various disciplines concerned with theories of consumption material culture and representational art **Why Cities Look the Way They Do** Richard J. Williams, 2019-08-08 We tend to think cities look the way they do because of the conscious work of architects planners and builders But what if the look of cities

had less to do with design and more to do with social cultural financial and political processes and the way ordinary citizens interact with them What if the city is a process as much as a design Richard J Williams takes the moment construction is finished as a beginning tracing the myriad processes that produce the look of the contemporary global city This book is the story of dramatic but unforeseen urban sights how financial capital spawns empty towering skyscrapers and hollowed out ghettos how the zoning of once illicit sexual practices in marginal areas of the city results in the reinvention of culturally vibrant gay villages how abandoned factories have been repurposed as creative hubs in a precarious postindustrial economy It is also the story of how popular urban clichés and the fictional portrayal of cities powerfully shape the way we read and see the bricks concrete and glass that surround us Thought provoking and original *Why Cities Look the Way They Do* will appeal to anyone who wants to understand the contemporary city shedding new light on humanity's greatest collective invention

Urban Discourses of Crisis, Resilience, and Resistance Eric Prieto, Liam Lanigan, Anni Lappela, 2025-07-11 This volume seeks to address questions of urban crisis from an interdisciplinary perspective that foregrounds the particular roles that literature and the creative arts play in both conceptualizing and addressing the multiple challenges facing cities Noting that the successive crises of recent years from the 2008 recession to COVID 19 seem to have put an end to the triumphalist tone of much urban writing in the 1990s this book argues that the current historical moment calls for a different kind of urban discourse focused on reassessment and regrouping This edited collection features a variety of different approaches including close readings of literary works interviews essays in cultural and architectural history and sociological ethnographic and urban planning studies These chapters explore a range of challenges currently faced by cities and foreground the search for solutions *Looking at Venice* Claudio Pescio, 1972 **The Worshipful Company of Glass Sellers of London** William Ramsey, William Ramsey (P. older sister takes one of the biggest dorks at school under her wing Perry feels completely betrayed Now Hayes a boy she barely knows is hanging around and giving her stuff and Perry panics She doesn't want a boy to be crushing on her especially Hayes And social media makes everything more complicated Is it even possible for Perry to turn things around and make sixth grade awesome The drama of crushes frenemies and hovering parents is spot on Kirkus Reviews
