Louis Loucheur And The Shaping Of Modern France 1916 1931:

Louis Loucheur and the Shaping of Modern France, 1916-1931 Stephen Douglas Carls, 1993 In the face of strong opposition he was responsible for a number of initiatives toward economic renovation He continued his efforts at modernization in the 1920s as a member of the Chamber of Deputies and in frequent government assignments During those years he had considerable influence on the reconstruction of northeastern France on public finance and on a variety of other economy related matters His domestic activities extended to social policy and as labor minister in the late 1920s he profoundly affected French housing policy and oversaw preparations for the implementation of a major social insurance law Loucheur was a central figure in France's quest for a lasting peace with Germany At the Paris Peace Conference he maintained a moderate position regarding German reparations and he remained prominent in negotiations on the question into the early 1920s

The Extreme Right in Interwar France Samuel Kalman, 2016-12-05 Historians of the French extreme right frequently denote the existence of a strong xenophobic and nationalist tradition dating from the 1880s a perpetual anti republicanism which pervaded twentieth century political discourse Much attention is habitually paid to the interwar era deemed the zenith of this success when the leagues attracted hundreds of thousands of members and enjoyed significant political acclaim Most works on the subject speak of the French right or French fascism presenting compendia of figures and organizations from the Dreyfus Affair in the 1890s through the notorious Vichy regime the authoritarian construct which emerged following the defeat to Nazi Germany in June 1940 However historians rarely discuss the programmatic elements of extreme right wing doctrine which demanded the eradication of parliamentary democracy and the transformation of the nation and state according to group principles Instead most detail the organization and membership of various organizations and often recount their quotidian activities as political actors within and in opposition to the Third Republic This book offers a new interpretation of the extreme right in interwar French politics focusing upon the largest and most influential such groups in 1920s and 1930s the Faisceau and the Croix de Feu It explores their designs for extensive political economic and social renewal a project that commanded significant attention from the leadership and rank and file of both organizations providing the overarching goal behind their aspiration to power The book examines five components of these efforts A renewal of politics and government the establishment of a new economic order a revaluation of gender and familial relations the role of youth in the new socio political construct and the politics of exclusion inherent in every facet of Faisceau and CDF doctrine In so doing it contributes to a historical understanding of the programmatic elements of the interwar extreme right while simultaneously situating its most prominent exponents within their broader historical context
