Louisianians In The Civil War:

Louisianians in the Civil War Lawrence L. Hewitt, Arthur W. Bergeron, 2002 *Louisianians in the Civil War* brings to the forefront the suffering endured by Louisianians during and after the war hardships more severe than those suffered by the majority of residents in the Confederacy The wealthiest southern state before the Civil War Louisiana was the poorest by 1880 Such economic devastation negatively affected most segments of the state s population and the fighting that contributed to this financial collapse further fragmented Louisiana s culturally diverse citizenry The essays in this book deal with the differing segments of Louisiana s society and their interactions with one another Louisiana was as much a multicultural society during the Civil War as the United States is today One manner in which this diversity manifested itself was in the turning of neighbor against neighbor This volume lays the groundwork for demonstrating that strongholds of Unionist sentiment existed beyond the mountainous regions of the Confederacy and to a lesser extent that foreigners and African Americans could surpass white native born Southerners in their support of the Lost Cause Some of the essays deal with the attitudes and hardships the war inflicted on different classes of civilians sugar planters slaves Union sympathizers and urban residents especially women while others deal with specific minority groups or with individuals Written by leading scholars of Civil War history *Louisianians in the Civil War* provides the reader a rich understanding of the complex ordeals of Louisiana and her people Students scholars and the general reader will welcome this fine addition to Civil War studies Publishers website *Guide to Louisiana Confederate Military Units, 1861-1865* Arthur W. Bergeron, Jr., 1996-10-01 Bergeron has produced a book essential to the serious Confederate scholar *Journal of American History* In *Guide to Louisiana Confederate Military Units* Arthur W Bergeron Jr examines the 111 artillery cavalry and infantry units that Louisiana furnished to the Confederate armies No other reference has the complete and accurate record of Louisiana s contribution to the war For each unit Bergeron provides a brief account of its war activities including battles losses and dates of important events He also lists the units field officers the companies in each regiment or battalion and the names of company commanders This book should serve as a model for studies of other states in the Civil War *Military History of the Southwest*

Louisiana in the Civil War Louisiana Civil War Centennial Commission, 1961 **The Louisiana Native Guards** James G. Hollandsworth, Jr., 1995-12 Early in the Civil War Louisiana s Confederate government sanctioned a militia unit of black troops the Louisiana Native Guards Intended as a response to demands from members of New Orleans substantial free black population that they be permitted to participate in the defense of their state the unit was used by Confederate authorities for public display and propaganda purposes but was not allowed to fight After the fall of New Orleans General Benjamin F Butler brought the Native Guards into Federal military service and increased their numbers with runaway slaves He intended to use the troops for guard duty and heavy labor His successor Nathaniel P Banks did not trust the black Native Guard officers and as he replaced them with white commanders the mistreatment and misuse of the black troops steadily increased The first

large scale deployment of the Native Guards occurred in May 1863 during the Union siege of Port Hudson Louisiana when two of their regiments were ordered to storm an impregnable hilltop position Although the soldiers fought valiantly the charge was driven back with extensive losses The white officers and the northern press praised the tenacity and fighting ability of the black troops but they were still not accepted on the same terms as their white counterparts After the war Native Guard veterans took up the struggle for civil rights in particular voting rights for Louisiana s black population The Louisiana Native Guards is the first account to consider that struggle By documenting their endeavors through Reconstruction James G Hollandsworth places the Native Guards military service in the broader context of a civil rights movement that predates more recent efforts by a hundred years This remarkable work presents a vivid picture of men eager to prove their courage and ability to a world determined to exploit and demean them

The Civil War in Louisiana John D. Winters,1991-08-01 This comprehensive history fills an important gap in the story of the Civil War Too often the war waged west of the Mississippi River has been given short shrift by historians and scholars who have tended to focus their attention on the great battles east of the river This book looks in detail at the military operations that occurred in Louisiana most of them minor skirmishes but some of them battles and campaigns of major importance The Civil War in Louisiana begins with the first talk of secession in the state and ends with the last tragic days of the war John D Winters describes with great fervor and detail such events as the fall of Confederate New Orleans and the burning of Alexandria In addition to military action Winters discusses the political economic and social aspects of the war in Louisiana His accounts of battles and the men who waged them provide a fuller story of Louisiana in the Civil War than has ever before been told

Scarred by War Christopher G. Peña,Christopher G. Peena,2004 At the height of its power with the world watching some in envy others waiting to see the downfall America is at a crossroads Will the United States of America dominate the world scene for another hundred years or will internal decay and lack of a common course take it the way of other great empires in the past Rome Carthage Greece the Soviet Union and many others who stepped onto the world stage have exited some in infamy others in ruin Greider shows the rich history of America from those who left Europe to find opportunity and religious freedom and were blessed in their efforts as long as they served God and revered the principles found in the Holy Scriptures The Founding Fathers were deeply religious men who sought inspiration and received divine guidance Forces at work today including the pluralistic mix of our citizenry and the trend toward a post Christian culture are reshaping the American Ideal In his book *America Renewal or Ruin* Greider sees the potential for American youth to find and promote renewal in their

quest for moral stability if guided by visionary leaders in a conflicted world History has shown that reawakenings are possible Now is the time according to Greider to call upon those whose roots are embedded in their Christian heritage to wake up and take back their country resisting the forces of ruin Perhaps our nation has gone too far in jettisoning the values upon which it was founded If any culture is to survive it must stand for something If not citizens will fall for anything that is served up in titillating packaging and played to the base appetites of the flesh Our country needs a revival of spirit and a clear sense of morality and propriety Greider shows in his book *America Renewal or Ruin* that there is a cause for every effect and the cause of America greatness lay in the goodness of her people The Founding Fathers were deeply religious men who claimed to owe their dependence and guidance on God and his Word America is rapidly moving away from its Christian roots and the ominous signs of moral social and cultural decay are ever present
