Love And Revolution A Political Memoir

James Edward Beitler III

Love And Revolution A Political Memoir:

Love and Revolution Signe Waller, 2002 *Love and Revolution A Political Memoir* is both memoir and people's history. It is a factually detailed and passionate account of events surrounding the Greensboro Massacre by a woman intimately connected with the events narrated. The author's husband, a pediatrician who abandoned medicine to work in a textile mill and organize low wage workers, was among the slain. *The Good Doctors* John Dittmer, 2017-01-31 In the summer of 1964 medical professionals, mostly white and northern, organized the Medical Committee for Human Rights (MCHR) to provide care and support for civil rights activists organizing black voters in Mississippi. They left their lives and lucrative private practices to march beside and tend the wounds of demonstrators from Freedom Summer, the March on Selma, and the Chicago Democratic Convention of 1968. Galvanized and sometimes radicalized by their firsthand view of disenfranchised communities, the MCHR soon expanded its mission to encompass a range of causes from poverty to the war in Vietnam. They later took on the whole of the United States healthcare system. MCHR doctors soon realized fighting segregation would mean not just caring for white volunteers but also exposing and correcting shocking inequalities in segregated health care. They pioneered community health plans and brought medical care to underserved or unserved areas. Though education was the most famous battleground for integration, the appalling injustice of segregated health care levelled equally devastating consequences. Award-winning historian John Dittmer, author of the classic civil rights history *Local People: The Struggle for Civil Rights in Mississippi*, has written an insightful and moving account of a group of idealists who put their careers in the service of the motto: Health Care Is a Human Right. Faith Communities and the Fight for Racial Justice Robert Wuthnow, 2023-11-14 The work for racial justice in the U.S. in the decades after the high water mark of the Civil Rights movement is a significant yet too often neglected chapter of American religious history, a chapter overshadowed to a great extent by the Religious Right, which has gotten much more scholarly attention. For decades, little-known faith leaders across the U.S. did what they could to create fair and affordable housing, contribute to community development, advocate for affirmative action, protest racial profiling, and mobilize voter registration. Many of these leaders were affiliated with mainstream majority White Protestant denominations, Black denominations, Roman Catholic groups, and Jewish organizations. Many of the Protestants were African Methodist Episcopal, Baptist, Lutheran, Methodist, Presbyterian, or United Church of Christ. Some were Brethren, Disciples of Christ, Mennonites, Moravians, or Quakers. The leaders often formed coalitions of faith-based and nonsectarian organizations. The focus of Wuthnow's new book will be on local, unsung struggles for racial justice happening in response to local events, led by local clergy and drawing on local networks. This was advocacy work that wasn't covered by national or international news media, and the achievements of these struggles were often small rather than sweeping and dramatic. These struggles will be covered in a series of thematic chapters: one chapter on concerted action by faith groups, another chapter on affirmative action and busing, a third on efforts to advocate for policy reform, and for the end

of racial profiling etc Wuthnow will discuss the systematic racism that these racial justice advocates confronted racism that is thoroughly ingrained in institutional structures and that has proven to be impervious to strategies that involve personal approaches to sensitizing hearts and minds to the evils of racism Wuthnow argues that this historical record provides lessons for contemporary racial justice warriors working either within or outside of faith communities Progressive religious groups have been most effective in supporting civil rights efforts when they are focused on very specific tasks e.g. voting rights gerrymandering discrimination in hiring inequality on the job and lack of access to equal opportunity in education and when they organize strategically form coalitions use the right kinds of knowledge and expertise and adapt to new situations

In Search of Power Brenda Gayle Plummer, 2013 *In Search of Power* is a history of the era of civil rights decolonization and Black Power In the critical period from 1956 to 1974 the emergence of newly independent states worldwide and the struggles of the civil rights movement in the United States exposed the limits of racial integration and political freedom Dissidents leaders and elites alike were linked in a struggle for power in a world where the rules of the game had changed Brenda Gayle Plummer traces the detailed connections between African Americans involvement in international affairs and how they shaped American foreign policy integrating African American history the history of the African Diaspora and the history of United States foreign relations These topics usually treated separately not only offer a unified view of the period but also reassess controversies and events that punctuated this colorful era of upheaval and change

Revolution, Counterrevolution and Assassination After World War II Robert C. Cottrell, 2024-12-13 In response to the upheavals engendered by World War II revolutions broke out or loomed throughout the world Nationalist aspirations proved global in nature ironically empowered by the Cold War In Asia the Middle East Latin America and Africa revolutions and counterrevolutions proliferated and similar disruptions threatened to unfold in Europe and North America Social upheavals began to occur in Vietnam Mandatory Palestine China Algeria Ghana and Cuba Conservative and reactionary forces frequently pushed back quashing hopeful developments like the Guatemalan Spring the Hungarian Revolution and the Prague Spring while also readily resorting to the murder of leading progressive figures from Gandhi to Navalny The second volume of this detailed history explores the rippling effects of World War II across the globe including countries experiencing colonial or neocolonial relationships This book examines the interplay between modern revolutionary movements and campaigns seeking to prevent such movements or to reestablish a history and time that never really existed It also traces the deadly resort to politically motivated killings which cut short the lives of so many distinguished sometimes beloved figures whose loss is still felt decades later

Remaking Transitional Justice in the United States James Edward Beitler III, 2012-11-09 *Remaking Transitional Justice in the United States* The Rhetoric of the Greensboro Truth and Reconciliation Commission explores rhetorical attempts to authorize the Greensboro Truth and Reconciliation Commission a grassroots U.S. based truth commission created in 2004 to redress past injustices in the city Through detailed rhetorical analyses the book

demonstrate that the development of the field of transitional justice has given rise to a transnational rhetorical tradition that provides those working in the field with series of enabling constraints The book then shows how Greensboro stakeholders attempted to reaccentuate this rhetorical tradition in their rhetorical performances to construct authority and bring about justice even as the tradition shaped their discourse in ways that limited the scope of their responses Calling attention to the rhetorical interdependence among practitioners of transitional justice this study offers insights into the development of transitional justice in the United States and in grassroots contexts in other liberal democracies The volume is a relevant guide to scholars and practitioners of transitional justice as it brings into relief mechanisms of transitional justice that are frequently overlooked namely rhetorical mechanisms It also speaks to any readers who may be interested in the communicative strategies tactics that may be employed by grassroots transitional justice initiatives

Political Violence in America Lori Cox Han, Tomislav Han, 2022-03-29 This multivolume encyclopedia surveys America's long and troubled history of political violence from the colonial era to the present with a particular emphasis on factors driving political violence and intimidation in the United States in the 21st century Americans like to think of their nation as one grounded in high minded democratic ideals and peaceful transitions of power In reality though American politics has been heavily laced with expressions of violence and intimidation since the nation's very inception which saw a campaign of violent rebellion against British rule Since then America has endured the deaths of four presidents from assassination a four year civil war racist attacks on civil rights activists and ordinary citizens deadly clashes between protesting citizens and law enforcement sustained campaigns of violence against marginalized populations seeking greater political or economic equality politically motivated mass shootings and on January 6 2021 the shocking spectacle of a politically motivated mob attack on the U S Capitol How and why did these events transpire What were the root causes What factors are driving political violence and intimidation in America today And are there changes that we could make to our country's political discourse that would reduce such outbreaks of bloodshed This authoritative multivolume encyclopedia provides answers to all these questions and more

The War on Poverty Annelise Orleck, Lisa Gayle Hazirjian, 2011-11-01 Lyndon Johnson's War on Poverty has long been portrayed as the most potent symbol of all that is wrong with big government Conservatives deride the War on Poverty for corruption and the creation of poverty pimps and even liberals carefully distance themselves from it Examining the long War on Poverty from the 1960s onward this book makes a controversial argument that the programs were in many ways a success reducing poverty rates and weaving a social safety net that has proven as enduring as programs that came out of the New Deal The War on Poverty also transformed American politics from the grass roots up mobilizing poor people across the nation Blacks in crumbling cities rural whites in Appalachia Cherokees in Oklahoma Puerto Ricans in the Bronx migrant Mexican farmworkers and Chinese immigrants from

New York to California built social programs based on Johnson's vision of a greater more just society Contributors to this volume chronicle these vibrant and largely unknown histories while not shying away from the flaws and failings of the movement including inadequate funding co-optation by local political elites and blindness to the reality that mothers and their children made up most of the poor In the twenty first century when one in seven Americans receives food stamps and community health centers are the largest primary care system in the nation the War on Poverty is as relevant as ever This book helps us to understand the turbulent era out of which it emerged and why it remains so controversial to this day The New Transnational Activism Sidney Tarrow, 2005-08 The New Transnational Activism shows how even the most prosaic activities like immigrants bringing remittances back to their families can assume broader political meanings when they provide ordinary people with the experience of crossing transnational space This means that we cannot be satisfied with defining transnational activists through the ways they think The defining feature of transnationalism in this book is relational and not cognitive This emphasis on activism's relational structure means that even as they make transnational claims transnational activists draw on the resources the networks and the opportunities in which they are embedded and only then if at all on more distant transnational links
