Collaborative Translation and Multi-Version Texts in Early Modern Europe Belén Bistué, 2016-05-23 Focusing on team translation and the production of multilingual editions and on the difficulties these techniques created for Renaissance translation theory this book offers a study of textual practices that were widespread in medieval and Renaissance Europe but have been excluded from translation and literary history The author shows how collaborative and multilingual translation practices challenge the theoretical reflections of translators who persistently call for a translation text that offers a single univocal version and maintains unity of style In order to explore this tension Bistu discusses multi version texts in both manuscript and print from a diverse variety of genres the Scriptures astrological and astronomical treatises herbals goliardic poems pamphlets the Greek and Roman classics humanist grammars geography treatises pedagogical dialogs proverb collections and romances Her analyses pay careful attention to both European vernaculars and classical languages including Arabic which played a central role in the intense translation activity carried out in medieval Spain Comparing actual translation texts and strategies with the forceful theoretical demands for unity that characterize the reflections of early modern translators the author challenges some of the assumptions frequently made in translation and literary analysis The

book contributes to the understanding of early modern discourses and writing practices including the emerging theoretical discourse on translation and the writing of narrative fiction both of which as Bistu shows define themselves against the models of collaborative translation and multi version texts

Abelard and Heloise Department of History Constant J. Mews Senior Lecturer, and Director for Studies in Religion and Theology Monash University, 2004-12-08 This is a brief accessible introduction to the lives and thought of two of the most controversial personalities of the Middle Ages Their names are familiar but it is their star quality argues Mews that has prevented them from being seen clearly in the context of 12th century thought the task he has set himself in this book

Abelard and Heloise C. J. Mews, 2005-01-13 A brief accessible introduction to the lives and thought of two of the most controversial personalities of the Middle Ages Abelard and Heloise are familiar names It is their star quality argues Constant Mews that has prevented them from being seen clearly in the context of 12th century thought that task he has set himself in this book He contends that the dramatic intensity of these famous lives needs to be examined in the broader context of their shared commitment to the study of philosophy

The Medieval Lyric Peter Dronke, 1996 He shows the men and women who sang and played in medieval Europe as the heirs of both a Roman and a Germanic lyric tradition united but differentiated from country to country he introduces the scholars and musicians from the Byzantine world and the Paris schools the German courts and Italian city states and he brilliantly presents their work both sacred and profane

Theory of the Lyric Jonathan Culler, 2015-06-08 What sort of thing is a lyric poem An intense expression of subjective experience The fictive speech of a specifiable persona Theory of the Lyric reveals the limitations of these two conceptions of the lyric the older Romantic model and the modern conception that has come to dominate the study of poetry both of which neglect what is most striking and compelling in the lyric and falsify the long and rich tradition of the lyric in the West Jonathan Culler explores alternative conceptions offered by this tradition such as public discourse made authoritative by its rhythmical structures and he constructs a more capacious model of the lyric that will help readers appreciate its range of possibilities Theory of the Lyric brings Culler's own earlier more scattered interventions together with an eclectic selection from others work in service to what he identifies as a dominant need of the critical and pedagogical present turning readers attention to lyric poems as verbal events not fictions of impersonated speech His fine nuanced readings of particular poems and kinds of poems are crucial to his arguments His observations on the workings of aspects of lyric across multiple different structures are the real strength of the book It is a work of practical criticism that opens speculative vistas for poetics but always returns to poems

La Cort d'Amor Matthew Bardell, 2017-12-02 The Cort d'Amor is a late 12th century allegorical romance in Occitan which fuses a variety of lyric and narrative genres together and which predates the Roman de la Rose by some 50 years In this edition Matthew Bardell highlights the work's intertextuality with Andreas Capellanus De Amore to show how the Occitan work presents a dialogue between gendered approaches to love whilst parodying the exegetical tradition It juxtaposes lyric passages with

some of the standard Ovidian teaching on love and undermines the reader's attempts to distinguish between the two. This volume has a facing English translation and aims to make an important contribution to the study of medieval allegory and courtly love in general as well as to the dissemination of Ovid in the Middle Ages and the narrative transformations of Old French and Occitan lyric.

Herbert Grundmann (1902-1970) Herbert Grundmann, 2019 First English translation of seminal essays on heresy and other aspects of medieval religious history. Envisaging Heaven in the Middle Ages Carolyn Muessig, Ad Putter, 2006-10-16 Envisaging Heaven in the Middle Ages deals with medieval notions of heaven in theological and mystical writings in visions of the Otherworld and in medieval art, poetry and music. It considers the influence of such notions in the secular literature of some of the greatest writers of the period including Chrétien de Troyes and Chaucer. The coherence and beauty of these notions make heaven one of the most impressive medieval cathedrals of the mind. With contributions from experts such as A. C. Spearing, Peter Meredith, Peter Dronke and Robin Kirkpatrick, this collection is essential reading for all those interested in medieval religion and culture.

A Critical Study of Secular Medieval Latin Song Bryan Gillingham, 1995

The Secular Clergy in England, 1066-1216 Hugh M. Thomas, 2014 The secular clergy, priests and other clerics outside of monastic orders, were among the most influential and powerful groups in European society during the central Middle Ages. The secular clergy got their title from the Latin word for world, *saeculum*, and secular clerics kept the Church running in the world beyond the cloister wall with responsibility for the bulk of pastoral care and ecclesiastical

administration This gave them enormous religious influence although they were considered too worldly by many contemporary moralists trying for instance to oppose the elimination of clerical marriage and concubinage Although their worldliness created many tensions it also gave the secular clergy much worldly influence Contemporaries treated elite secular clerics as equivalent to knights and some were as wealthy as minor barons Secular clerics had a huge role in the rise of royal bureaucracy one of the key historical developments of the period They were instrumental to the intellectual and cultural flowering of the twelfth century the rise of the schools the creation of the book trade and the invention of universities They performed music produced literature in a variety of genres and languages and patronized art and architecture Indeed this volume argues that they contributed more than any other group to the Twelfth Century Renaissance Yet the secular clergy as a group have received almost no attention from scholars unlike monks nuns or secular nobles In *The Secular Clergy in England 1066-1216* Hugh Thomas aims to correct this deficiency through a major study of the secular clergy below the level of bishop in England from 1066 to 1216

Satiric Advice on Women and Marriage Warren S. Smith, 2010-02-24 Advice on sex and marriage in the literature of antiquity and the middle ages typically stressed the negative from stereotypes of nagging wives and cheating husbands to nightmarish visions of women empowered through marriage *Satiric Advice on Women and Marriage* brings together the leading scholars of this fascinating body of literature Their essays examine a variety of ancient and early medieval writers cautionary and often eccentric marital satire beginning with Plautus in the third century B C E through Chaucer the only non Latin author studied The volume demonstrates the continuity in the Latin tradition which taps into the fear of marriage and intimacy shared by ancient ascetics Lucretius satirists Juvenal comic novelists Apuleius and by subsequent Christian writers starting with Tertullian and Jerome who freely used these ancient sources for their own purposes including propaganda for recruiting a celibate clergy and the promotion of detachment and asceticism as Christian ideals Warren S Smith is Professor of Classical Languages at the University of New Mexico

The Elegies of Maximianus Maximianus, 2018-01-11 Not much can be known about the life of Maximianus who has been called the last of the Roman poets beyond what can be inferred from his poetry He was most likely a native of Tuscany probably lived until the middle of the sixth century and at an advanced age went as a diplomat to the emperor's court at Constantinople A M Juster has translated the complete elegies of Maximianus faithfully but not literally resulting in texts that work beautifully as poetry in English Replicating the feel of the original Latin verse he alternates iambic hexameter and pentameter in couplets and imitates Maximianus's pronounced internal rhyme alliteration and assonance The first elegy is the longest and establishes the voice of the speaker a querulous old man full of the indignities of aging which he contrasts with the vigor and prestige he enjoyed in his youth The second elegy similarly focuses on the contrast between past happiness and present misery but this time for the specific experience of a long term relationship The third through fifth elegies depict episodes from the poet's amatory career at different stages of his life from inexperienced youth to impotent old

man The last poem concludes with a desire for the release of death and together with the first form a coherent frame for the collection This comprehensive volume includes an introduction by renowned classicist Michael Roberts a translation of the elegies with the Latin text on facing pages the first English translation of an additional six poems attributed to Maximianus an appendix of Latin and Middle English imitative verse that illustrates Maximianus's long reception in the Middle Ages several related texts and the first commentary in English on the poems since 1900 The imminence of death and the sadness of growing old that form the principal themes of the elegies signal not only the end of pagan culture and its joy in living but also the turn from a classical to a medieval sensibility in Late Antiquity
