Wendy Doniger O'Flaherty,Wendy Doniger,1986-02-15 Wendy Doniger O Flaherty weaves a brilliant analysis of the complex role of dreams and dreaming in Indian religion philosophy literature and art In her creative hands enchanting Indian myths and stories illuminate and are illuminated by authors as different as Aeschylus Plato Freud Jung Kurl G del Thomas Kuhn Borges Picasso Sir Ernst Gombrich and many others This richly suggestive book challenges many of our fundamental assumptions about ourselves and our world Mark C Taylor New York Times Book Review Dazzling analysis The book is firm and convincing once you appreciate its central point which is that in traditional Hindu thought the dream isn t an accident or byway of experience but rather the locus of epistemology In its willful confusion of categories its teasing readiness to blur the line between the imagined and the real the dream actually embodies the whole problem of knowledge O Flaherty wants to make your mental flesh creep and she succeeds Mark Caldwell Village Voice **Books in Print** ,1991 **American Book Publishing Record** ,1997-05 **An Ethic For Christians and Other Aliens in a Strange Land** William Stringfellow,2004-09-24 From An Ethic for Christians and Other Aliens in a Strange Land America is a fallen nation Americans exist in time in the era biblically called the Fall America is a demonic principality or conglomeration of principalities and powers in which death furnishes the meaning in which death is the reigning idol Enshrined in multifarious forms and guises it enslaves human beings exacts human sacrifices captures and captivates Presidents as well as intimidating and dehumanizing ordinary citizens Strong statements yes but timely in the biblical context which forms William Stringfellow s perspective of our contemporary situation Identifying America as a fallen nation with the parable of Babylon in the Book of Revelation not with Jerusalem the holy nation as Americans are naively and vainly wont to do Dr Stringfellow issues as trenchant an indictment of our society as has been made since Philip Wylie s Generation of Vipers Shockingly prophetic dismaying and sobering William Stringfellow s rigorous biblical theology will surely offend the self righteous But the citizen of Jerusalem alien in Babylon will welcome the bluntness and insight with which he speaks QAnon and Other Replacement Realities George Lundskow,Sarah MacMillen,2023-11-15 Q Anon and Other Replacement Realities How Religious Emotion Threatens Free Society but Can Also Contribute to a Progressive Future examines the historical and theological origins and the social psychological effects of American conspiracy fantasies that Q Anon and other right wing beliefs foster The authors argue that as progressive social change moves groups of people and the natural world from the margins to the mainstream this inclusiveness threat mobilizes reactionary forces that embrace wild fantasies of Satanic sacrifice Jewish global control racial replacement communism cannibalism pedophilia orgies of rape and murder and manipulations to steal elections and enslave the normal white population To counter such gratifying myths and replace

violence with mutually reinforcing social interaction the authors challenge the rhetoric that abuses power The book maps out an alternative to destructive hateful polarizing and conspiratorial discourse with new more life giving rational emotional and spiritual orientations The authors hope this will move American society towards a new collective national identity based on inclusiveness and equality around a social character defined by compassion gratitude reverence and love *Virtual Reality* Melanie Chan,2015-07-30 The idea of virtual realities has a long and complex historical trajectory spanning from Plato's concept of the cave and the simulacrum to artistic styles such as Trompe L'oeil and more recently developments in 3D film television and gaming However this book will pay particular attention to the time between the 1980s to the 1990s when virtual reality and cyberspace were represented particularly in fiction as a wondrous technology that enabled transcendence from the limitations of physical embodiment The purpose of this critical historical analysis of representations of virtual reality is to examine how they might deny repress or overlook embodied experience Specifically the author will contend that embodiment is a fundamental aspect of immersion in virtual reality rather than something which is to be transcended In this way the book aims to challenge distorted ideas about transcendence and productively contribute to debates about embodiment and technology **Time** Briton Hadden, Henry Robinson Luce, 1974 **Citizens in a Strange Land** Hermann Wellenreuther, 2013-08-05 In *Citizens in a Strange Land* Hermann Wellenreuther examines the broadsides printed single sheets produced by the Pennsylvania German community These broadsides covered topics ranging from local controversies and politics to devotional poems and hymns Each one is a product of and reaction to a particular historical setting To understand them fully Wellenreuther systematically reconstructs Pennsylvania's print culture the material conditions of life the problems German settlers faced the demands their communities made on the individual settlers the complications to be overcome and the needs to be satisfied He shows how these broadsides provided advice projections and comment on phases of life from cradle to grave **Zero Hour America** Os Guinness, 2022-09-20 America has lost its way It is caught between two revolutions and alternately suppresses and squanders freedom with a prodigal carelessness Os Guinness outlines a pathway toward defining and ordering freedom righting national wrongs and passing freedom's baton from generation to generation The present moment must not be missed The Readers' Advisory Guide to Nonfiction Neal Wyatt, 2007-05-14 Navigating what she calls the extravagantly rich world of nonfiction renowned readers advisor RA Wyatt builds readers advisory bridges from fiction to compelling and increasingly popular nonfiction to encompass the library's entire collection She focuses on eight popular categories history true crime true adventure science memoir food cooking travel and sports Within each she explains the scope popularity style major authors and works and the subject's position in readers advisory interviews Wyatt addresses who is reading nonfiction and why while providing RAs with the tools and language to incorporate nonfiction into discussions that point readers to what to read next In easy to follow steps Wyatt Explains the hows and whys of offering fiction and nonfiction suggestions together Illustrates ways to get up to speed fast in nonfiction
