Naval Forces And Western Security:

The Atlantic Alliance and Western Security, 1987 **Naval Forces and Western Security**, 1987 Security at Sea
Stockholm International Peace Research Institute, 1990 Since the Second World War five navies are known to have acquired nuclear weapons and naval forces and activities around the world have become increasingly important and dangerous. However there has been no serious consideration of naval arms control for more than forty years. SIPRI gathered together a group of experts from eight nations to consider the problems of naval forces and the possibilities for arms control. This book is a product of that conference and it presents for the first time a broad and detailed assessment of the dangers of the naval arms race, problems with arms control, possible approaches, confidence building measures and verification technologies.

Conventional Arms Control and East-West Security Institute for East-West Security Studies, 1989 This important and timely work prepared by the leading researchers, planners and policymakers from both Eastern and Western alliances analyzes the major issues in the Vienna talks on conventional forces in Europe involving NATO and Warsaw Pact nations. It is likely to have a significant influence on the course of these negotiations and on emerging debate on conventional arms control. The contributors met in Moscow prior to the Vienna conference to review and compare their analyses and revised them thereafter for publication in this work. Semialignment and Western Security Nils Ørvik, 2021-01-26 This book first published in 1986 is a major study of semialignment and a review of the individual nations within NATO to which the model could be applied. Towards the end of the Cold War there arose within NATO this intermediate category between alignment and nonalignment whereby a member state enjoyed the status and facilities of NATO membership while disassociating itself from certain NATO programmes. This book analyses the phenomenon and the possibility that it weakened the credibility of NATO deterrence and the defence posture versus the Soviet Union. New Conventional Weapons and East-West Security Christoph Bertram, 1979-06-17 **New Technology and Western Security Policy** Robert O'Neill, 1985-06-18 **Spain, Europe, and Western Security Policy** David Javier García Cantalapiedra, 2024-11-26 This book analyzes the limitations in the Europeanization of Spanish security and defense policy. For various reasons Spain has maintained an amalgamated security system based on agreements with NATO, the EU and the US. This combination has produced a dysfunctional system as it is not truly able to address some of the country's vital security interests, above all in North Africa and the Mediterranean. At the same time, due mainly to domestic reasons, various Spanish governments have been reluctant to pursue autonomy in the country's security policy and defense capabilities. Written by a team of scholars and practitioners, this book offers policymakers and professionals both a general overview of and deeper insights into the issue. Due to the lack of comprehensive studies on Spanish security and defense policy and its ties to Europe, this book will be of particular interest.

The Internal Fabric of Western Security Gregory Flynn, 2025-03-03 Changes in domestic economic and political conditions together with a loss of confidence in the United States leadership produced serious problems within the Atlantic

Alliance The Internal Fabric of Western Security first published in 1981 examines the effects of domestic change upon perceived security requirements and explores ways to deal with the problems that developed Beginning with an examination of Allied and European relations the book outlines external challenges to security that the Alliance faces in the 1980s and discusses internal problems that affect member nations ability to deal with them Country studies of the four largest European members of the Alliance systematically examine domestic constraints on security policy and assess probable approaches for the 1980s A more general analysis is offered on how this situation affects the Allies ability to work together in dealing with their common security problems The need to integrate economic and military requirements is also discussed U.S.

Strategic Interests In The Gulf Region Wm. J. Olson, 2021-11-28 An area vital to US interests the Gulf has long been a volatile region The vulnerability of Western interests is illustrated by such destabilizing influences as the political power of OPEC the fall of the Shah of Iran the Soviet invasion of Afghanistan and the Iran 1 Iraq War The contributors to this volume examine the causes and effects of instability in the region and US policy response focusing on patterns of regional conflict Soviet interests Islamic fundamentalism and US long term policy for facing threats to its interests Discussing the options open to government planners the contributors analyze the viability of alternative political and military strategies for the Gulf in the future

The Crisis in Western Security Lawrence S. Hagen, 2021-01-26 This book first published in 1982 examines the crisis of détente in Europe and between the superpowers the crisis in arms control and the heightening of tensions within NATO and analyses the central precepts of Western policy and thought in these areas These crises are examined in terms of the trends thought and action in the area of Western security In particular the concept of strategic stability the assumptions behind arms control and between arms control and security policy are critically analysed **NATO and Western Security**

Assessment, Military Strategy, and Operational Requirements United States. Congress. Senate. Committee on Armed Services, 1990 Securing The Seas Paul H Nitze, 2019-07-16 This book is the effort of experts brought together by the Atlantic Council to analyze the capabilities of the Western Alliance to defend sea lines of communication under various conditions of peace tension and war It reviews the way in which Soviet naval forces have been used in the Alliance

Europe and Naval Arms Control in the Gorbachev Era Andreas Fürst, Volker Heise, Steven E. Miller, 1992 For most of the Cold War naval arms control was the forgotten dimension of arms control Beginning in the late 1980s however it has become increasingly prominent in the East West dialogue But it is usually studied from the perspective of Soviet American

relations This book examines the subject from a European perspective What role might naval arms control play in the European context What impact might naval arms control have on the interests and perceptions of European states What opportunities for and obstacles to naval arms control exist in Europe The authors address these questions describing the naval interests and attitudes towards naval arms control of European coastal states as well as the Soviet Union and the United States in the Norwegian Baltic and Mediterranean seas **Naval Forces and Western Security** ,1987 **Air Power and National Security** ,1985 **Africa South of the Sahara: The Challenge to Western Security** Lewis H.
